Eric L. Volta, Superintendent

June 4, 2020

Dear Liberty Class of 2020 Families,

On May 22, we announced our plan for our commencements to be held later this month pending Contra Costa Health Department Orders. Unfortunately, recent orders relax to the extent that only gatherings of 100 or less will be permitted after June 14. Therefore, our school sites will be sending out their plans for alternate drive-up graduations to begin late next week. Hopefully it is a consolation that families will be able to witness this graduation from their cars and hear their graduate's name as they are presented with their diploma. Our schools will also be posting virtual graduations as keepsakes in the coming days. These virtual graduations will include all of the Valedictorian, Salutatorian, and Class Officer speakers.

Working within the health orders are frustrating to all of us trying to provide a ceremony befitting for our graduates. Please understand that as a school district committed to the safety of our students and staff, ignoring the orders of health care professionals meant to keep us safe would not be consistent with our pledge to provide the safest possible learning environment.

I wish the Class of 2020 the best of fortune in their futures. Their class, their senior year, and their graduation will forever live in the memories of the LUHSD community.

Sincerely,

Eric L. Volta
