School Accountability Report Card Reported Using Data from the 2017—18 School Year California Department of Education

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fq/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

School Description and Mission Statement (School Year 2018—19)

Mission Statement

We empower students, through research-based practices and an integrated system of support, to be globally-responsible, collaborative individuals, equipped for post-secondary excellence.

The Vision of Liberty High School

When we achieve our mission:

- All students will meet the UC/CSU a-g requirements and graduate.
- Progressive curriculum, integrating academic and real-world scenarios, will provide well-rounded educational experiences for all students.
- The school personnel will create a collaborative environment that supports best practices for all students at all levels.
- Students and staff will use current technology as a tool of learning.
- Our system will support the academic and emotional wellness of our students.
- Students will design their own pathways to post-secondary excellence.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

- **Statewide assessments** (i.e., California Assessment of Student Performance and Progress [CAASPP] System, which includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities); and
- The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

CAASPP Test Results in ELA and Mathematics for All Students Grades Three through Eight and Grade Eleven Percentage of Students Meeting or Exceeding the State Standard

Subject	School 2016—17	School 2017—18	District 2016—17	District 2017—18	State 2016—17	State 2017—18
English Language Arts / Literacy (grades 3-8 and 11)	72.0%	64.0%	68.0%	58.0%	48.0%	50.0%
Mathematics (grades 3-8 and 11)	34.0%	34.0%	32.0%	31.0%	37.0%	38.0%

Note: Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: ELA and Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Note: Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

Note: Cells with N/A values do not require data.

Note: The 2016–17 and 2017–18 data are not available. The CDE is developing a new science assessment based on the Next Generation Science Standards for California Public Schools (CA NGSS). The new California Science Test (CAST) was pilot-tested in spring 2017 and field-tested in spring 2018. The CAST will be administered operationally during the 2018–19 school year. The CAA for Science was pilot-tested for two years (i.e., 2016–17 and 2017–18) and the CAA for Science will be field-tested in 2018–19.

Note: Science test results include the CAST and the CAA for Science. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the CAST plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA for Science divided by the total number of students who participated on both assessments.

Career Technical Education (CTE) Programs (School Year 2017–18)

Liberty High School is proud to have 5 different academies, focused upon the following areas:

- TLC (Teaching and Learning Careers) – Careers in education and other related fields
- PADA (Public Art and Design Academy) – Careers related to public art
- HSA (Health Sciences Academy) – Careers related to the medical and healthcare industries
- BizTech (The Business and Technology Academy) has several pathways for a wide variety of opportunities in business, technology, and related industries
- VE (Virtual Enterprise) an in-school, live, global business simulation which transforms students into business professionals

Both the TLC and PADA are official California Partnership Academies.

Academy students participate in job shadowing, mentorship, internships, field trips, and hands-on experiences. Students who complete a pathway receive a seal on their diplomas. Some pathways also give students the opportunity to earn industry certification. All course sequences prepare students for post-secondary education and are aligned with the California Career Technical Standards. Many courses meet elective credit for CSU/UC admission. Liberty High School has developed articulation agreements which allow students in some academies to earn college credit for their coursework.

Liberty High School has focused on creating CTE pathways for students to participate in outside of the full CTE academies. These pathways consist of 2-3 courses in a specific field, which upon completion, they become CTE pathway completers. The site has made this an emphasis to help students identify any potential career opportunities after they receive their high school diploma. Liberty High School has also worked closely with Los Medanos College to bring dual enrollment courses to their campus. During the 2018-19 school year, there were two dual enrollment courses offered during the school day; Fire Science and Chemistry 6. After school, students had the option to take a counseling course. They will be expanding on their dual enrollment next year by adding an Administration of Justice course and Auto shop. Students in dual enrollment courses earn both college units and high school credits at the same time.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3):

- Efforts the school district makes to seek parent input in making decisions for the school district and each school site

Opportunities for Parental Involvement (School Year 2018—19)

Parents play a vital role in the success of our students and Liberty is fortunate to have strong parental support. Organizations with parent participation, such as Parent's Club, Athletic Boosters, Band Boosters, 80 Volts, FFA, and the School Advisory Council serve a wide variety of programs. In addition, parents may visit our office for other volunteer opportunities. Parents can also track student progress and attendance electronically, through our web-based reporting software.

Parents may contact the school directly by calling 925-634-3521 or by accessing our website at <http://luhsd.net/liberty> to obtain more information or make direct contact.

Professional Development

Focus areas for professional development are based upon Local Control Accountability Plan (LCAP), assessment data, district Strategic Plan, the Common Core State Standards (CCSS) and the Next Generation Science Standards (NGSS). We have content coaches for English Language Arts, Science and Math to help focus on improving student achievement and improving the delivery of curriculum. Train the Trainer model is also used annually for teachers to become trainers. In addition, we hold two district-wide Professional Development Days during the school year, for all classroom teachers, along with 13 late school start Professional Development Days for all classroom teachers. Each school site also has Professional Learning Communities (PLC's) for the purpose of teacher collaboration, data analysis, sharing best practice and curriculum development.

Professional Development is conducted in a variety of ways, including sessions after school, during the school day, over breaks. With the support of McREL and West Ed. Report, the site content coaches and teacher trainers are expanding their knowledge of how to better assist our teachers to better education all our students. Our three-week Summer Institute Series was created to offer teachers an additional source of content specific trainings based on student/teacher needs. Individual site instructional content coaches also provide in class professional development. Specific Special Education trainings and conferences are held for Para's throughout the year. Along with 9 classified training options offered through Human Resources along with individual conference/training requests. PAR mentors meet with individual PAR teachers quarterly to coach on specific areas of improvement. PAR teachers may also attend specialized trainings to support their improvement efforts. Our Induction Program provides training and support to participating teachers, Induction mentors and administrators to improve classroom practice by responding to the diverse cultural, social, and academic needs of all students. Principal's and District Administration use instructional rounds to help identify and support instructional strategies and curriculum implementation in the classroom.
