English, Social Science, Health, (non-NGSS), Strategies For Academic Success (elective) and ALL grade improvements

EDGENUITY CLASS

We will be piloting a blended learning opportunity in all courses (except Math and NGSS Science) in hopes to best serve students in need of credit recovery and grade improvement. The curriculum offered in Summer School 2019 adheres to the school board-mandated Liberty Union High School District 9th-12th grade courses of study.

Summer Edgenuity (Summer Edge) Program, Features and Information:

- The courses use audio (headphones provided), video and text content and different types of assignments including writing assignments, projects and graded tasks to support different learning styles.
- Common Core Standards-aligned online video-based curriculum in a blended learning environment with teacher support in a **mandatory 3 hour a day class**.
- The program allows educators to customize the curriculum for their students, including modifying or accommodating the needs of students with IEP's and/or 504 Plans.
- Students access the curriculum via the internet through a computer in class (home, City Library, etc.) or tablet and begin the program with an orientation and pre-test followed by lecture-style lessons.
- Showing mastery in the pre-test process will eliminate specific activities and the course will be automatically adjusted (less time needed to complete the course).
- Teachers motivate, guide and monitor student progress as the student moves through course requirements completing lessons, assessments, and interactive activities. **A student typically works online for 30 hours (to complete a 5-credit course).**
- While in class, students are required to work on lessons the entire period (a scheduled break will take place).
- ***Student may complete the course before the session end date by passing the mandatory assignments and hours online during and after school hours; the more hours put in, the quicker Summer School may be over.** Once the teacher verifies that the student has completed a course, they are no longer required to attend class. **This will be communicated to both student and parent (do not assume).**
- Students must leave campus immediately following their scheduled class (no loitering) due to another group of students entering the classroom. If taking the shuttle, students **MUST** take the shuttle that correlates with their class schedule and cannot ride early or return late.
- Lack of significant progress, more than 6 hours of absences or inability to follow rules may result in the student being "inactivated" and **dropped from Summer School**.

With this model, **Motivation is the key!** Please do everything in your power to make sure your student works on Edgenuity while away from school.
