Freedom High School COURSE CATALOG

2022-2023

Freedom High School 1050 Neroly Road Oakley, CA 94561 (925) 625-5900 www.luhsd.net/freedom

Introduction

Lauren Kelly, Principal

B Building

Noelle Nelson, Assistant Principal Erricka Clarke, Counselor C Building

Christina Lewis-M^eGee, Assistant Principal Mario Alcazar, Counselor

D Building

Dr. Steve Amaro, Assistant Principal Celeste Sexton, Counselor E Building

Ken Hickok, Assistant Principal Gerthy Loveday-Cohen, Counselor Maria Sanchez, Counselor

College & Career Center Alice Cartwright, Career Center Coordinator

Eric Volta, District Superintendent

Principal's Message

Student success is best achieved by the student, parents and school staff working together to provide the best education possible. The purpose of the course catalog is to assist parents and students in the planning of the student's educational career. Students, please make your selections carefully. We encourage parents to review all contents in this catalog, as the information presented will assist you in preparing your student for academic success. As our staffing allocation is based upon students' selections, it may not be possible to deviate from your course selections at a later date.

We are very proud of the educational program at Freedom High School. Once a student enrolls at FHS, they are assigned to a building where they remain throughout high school. Each building has a designated assistant principal, a counselor and a secretary. The goal of this model is to provide consistency for students and to work collaboratively to ensure the best educational support possible is provided. This helps students connect with other students as well as staff making smaller learning communities within a larger setting.

Students may also opt to join one of three academies. The academy a student chooses should be based on their interests and aspirations after completing high school. As you will notice in the beginning of this catalog, students have a choice of a variety of academy majors. This is to guide students through choosing electives related to majors. It is our hope that by the junior year, students will choose an academy emphasis and a major that supports their career and/or personal interests. Please notice all academies address the needs of all learners from college preparatory, to other post-secondary options.

Freedom High School's 8-period schedule ensures the success of the academic program in a number of key ways:

[1] It allows students to enroll in an average of 7 classes a year and to earn, in 4 years, total credits beyond the required 270.

[2] It allows students the opportunity to insert a period of study hall into the school day, an academic practice common incollege.

[3] It allows students who need additional academic support the opportunity to insert a variety of support classes into the school day.

[4] It allows students who are credit deficient the opportunity to make up credits without leaving the Freedom school community.

The faculty and staff at Freedom High School strive to provide the best possible education for our students. We all need to continue to work together to ensure students reach their full potential. In order to make this happen, daily attendance, hard work and promptness to all classes are necessary for success. We hold high expectations, both in behavior and academics, for all of our students.

Guidelines for Choosing Courses

As you read this catalog, carefully consider the following before selecting your courses for the next year:

- 1. Graduation Requirements: select the courses you need to meet district graduation requirements
- 2. College Entrance Requirements: select courses you need to meet college entrance requirements (refer to a-g approved course list on page 3)
- 3. Career Plans: select academy courses that can help you explore possible future career options
- 4. **Parent Approval:** talk with parents about your choices and have them sign the parent confirmation letter (10th-12th) or course request form (9th)
- 5. Teacher Recommendation: discuss course choices with teachers and get their recommendations

Freedom High School Class Change Policy

Student schedules may shift during the first ten days of the term, due to a balancing of classes. Requests for schedule changes will generally only be granted for the following reasons:

- 1. Level Changes: for example, Algebra 2 and Trigonometry to Algebra 2, or Spanish 3 to Spanish 2
- 2. Graduation Requirements: to makeup credits or fulfill graduation requirements
- 3. College Entrance Requirements: to meet UC/CSU entrance requirements

FYI: Teacher preference will <u>not</u> be considered when making schedule changes. Any courses dropped after three (3) weeks may result in a withdraw "F".

Advanced Placement Courses

AP courses are college-level courses offered in high school. Students learn rigorous college-level content and skills. The courses reflect what is taught in top introductory college courses. Students take AP Exams at the end of the course, measuring their mastery of college-level work. A score of 3 or higher on an AP Exam can typically earn students college credit and/or placement into advanced courses in college. Taking AP is valued in the college admission process. AP courses are an interesting and rewarding academic experience. It is an opportunity to earn valuable credit and placement in college. 85% of selective colleges and universities report that a student's AP experience favorably impacts admission decisions. Taking AP courses tell college admission officials that students are challenging themselves and preparing for the rigors they will encounter in their college careers.

*Note: A student's enrollment and participation in an AP course does not ensure that he/she will pass the exam. AP credit is not accepted by all colleges/universities. You will need to consult with the institution to which your student is applying for their specific policies regarding AP credit.

Student Support Programs

- Free Tutoring: Monday Thursday 3:15 4:30 p.m. in B-119
- Math Lab: available every period for additional help with math concepts in C-119
- Weekly Progress Reports: available for students in building offices
- **Parent Portal:** on-line system that allows parent and students to track academic progress. <u>https://luhsd.asp.aeries.net/student</u>
- Study Hall: this course provides additional resources and allows students to work on class assignments.

Please refer to the NCAA eligibility website for additional information <u>WWW.NCAA.ORG/STUDENT-</u> ATHLETES/FUTURE/ELIGIBILITY- CENTER

During their sophomore year, student athletes should complete the NCAA online registration at <u>www.eligibilitycenter.org</u> For ACT and SAT tests use "9999" code, this sends official scores directly to the NCAA Eligibility Center. The NCAA is made up of three classifications that are known as Divisions I, II and III. Each division creates its own rules governing recruiting and eligibility. NCAA customer service phone number is 317-917-6222.

NOTE: APEX Online Courses are not NCAA approved

- 1. **Minimum GPA raised to 2.30:** The minimum core course GPA for incoming college freshmen has been raised to 2.30.
- 2. **10 Core Courses by Junior Year:** Ten (10) core courses must be completed before the seventh semester; seven (7) of the 10 must be in English, math or natural/physical science.

Athletic Programs

Freedom offers at least five sports for our students through each of the fall, winter, and spring seasons, and more are sure to come in the ensuing years.

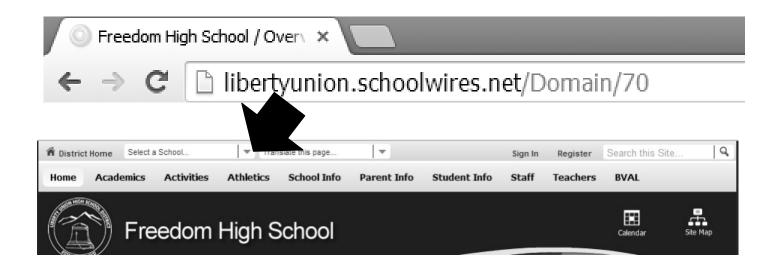

Fall [Aug-Nov]	Winter [Nov-Feb]	Spring [Feb-May]
Girls Volleyball Girls Tennis Girls Water Polo Girls Golf Cross Country Football Boys' Water Polo ASB Sideline Cheer Co-ed Unified Soccer	Girls Basketball Girls Soccer Wrestling Boys Soccer Boys Basketball ASB Sideline Cheer Co-ed Unified Bowling	Softball Baseball Boys Golf Boys Tennis Boys Volleyball Competitive Sport Cheer Swimming Diving Track & Field Co-ed Unified Basketball

Like all public schools, Freedom is feeling the effects of state budget cuts and any additional financial support or donations are always greatly appreciated and tax deductible.

Freedom values creating the safest possible environment for our students; however, risks of physical injury and even death exist when participating in extracurricular activities. To lessen these risks, all students who wish to try out for athletics must have completed District physical forms before the first day of tryouts. All forms can be downloaded through our online registration site at <u>www.athleticclearance.com</u>. In addition, all completed physical forms must be dated <u>after</u> July 1, of the school year, as prior dates are not valid.

We encourage you to sign up as a parent driver as many games are not financially covered for bus transportation. Driver forms can be downloaded off the school website. Please feel free to contact any of our head coaches at their email addresses for more sport specific and tryout information.

Finally, please come to our athletics preseason nights. These nights have valuable information regarding our programs and help us make our athletic programs the best they can be. Please visit our website at <u>www.luhsd.net/freedom</u> for more information.

Academic Honors

Honor Roll –

To qualify, a student must receive no current grade below a C and have a Total GPA of 3.25 or better

Principal's Honor Roll -

To qualify, a student must receive no current grade below a C and have a Total GPA of 3.75 or better

Academic Letter -

Students are awarded an academic letter based on the following criteria:

- 1. At least four semesters with an Academic GPA of 3.75 or better
- 2. A grade D or F in that semester disqualifies the student
- 2. A student must have taken a minimum of five college prep courses. College prep classes are designated with a P.

National Honor Society (NHS) -

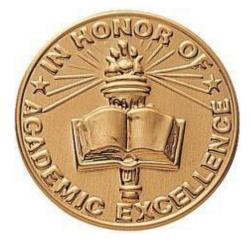

Students with a **3.0** or higher **Academic GPA** (as listed on their transcript) are invited to apply for membership in NHS during the spring semester of their sophomore year:

- 1. 3.25 or higher GPA
- 2. Completed application and recommendation from any teacher
- 3. Seniors with four or more semesters of membership receive graduation recognition and may wear an Honor Sash at the ceremony.
- 4. Active Members may qualify for a scholarship

California Scholarship Federation (CSF) -

Students who qualify are invited to apply for membership in CSF:

- 1. A score of 10 CSF points based on the rules of the CSF application and list of approved courses
- 2. A grade of D or F in any course disqualifies the student from membership
- 3. Membership is by semester (must reapply every semester)
- 4. Seniors with 4 or more semesters of membership receive Life Membership and Honor Cords for graduation
- 5. Life Members may qualify for a scholarship

Seal of Biliteracy

The Seal has <u>two components</u>. The student must meet the proficiency requirement for **English** and the proficiency requirement for **World Language**.

1. English (satisfy BOTH of the requirements)

- ✓ Complete all <u>English-Language</u> requirements for graduation (4 years) with an overall grade point average of <u>2.0 or above</u> in those classes.
- ✓ Obtain a score of "<u>proficient</u>" or higher (3 or 4) in English on SBAC.
- **<u>NOTE</u>**: If a student is still classified as an English Learner, he/she must meet the specified criteria AND have an ELPAC score of English Proficient (4)

2. World Language (satisfy 1 of the following 5 requirements)

- ✓ Demonstrate proficiency in one or more <u>World (foreign) Languages</u>- in addition to the English requirements- by accomplishing <u>one</u> of the following:
- **a.** Score 3 or higher on an Advanced Placement (AP) foreign language test. We must <u>have your AP score</u> before seal can be awarded. (Associated cost/**See Additional Information).
- **b.** Score of 600 or higher on the SAT ll (Scholastic Assessment Test II) foreign language test. <u>Student will</u> <u>supply SAT Score</u>. (Associated cost/**See Additional Information).
- **c.** Successfully complete a four-year high school course of study in a World (foreign) Language and attain an overall grade point average of 3.0 or above in that four year course of study. (4 years can consist of 3 consecutive years plus a <u>3.0 or above average in an AP</u> course, in the same language, which will count as the 4th year.)
- **d.** Complete Spanish for Spanish Speakers, levels 1 and 2, and Spanish 4 or AP Spanish with a 3.0 average or higher.
- e. Pass an exam administered by the American Council for the Teaching of Foreign Language (ACTFL) with at least an <u>Intermediate Mid-grade</u>. You must supply the official proof of the grade to your school. This option is available in approximately 100 world languages (Associated cost/**See Additional Information).

**<u>Additional Information</u>

- 1. If a student takes an AP, SAT or ACTFL test, he/she must inform the school's Assistant Principal of their intent to submit the test results to meet the <u>Eligibility Requirement</u> under the World Language proficiency section (The Assistant Principals listed will have the Biliteracy form). Be sure that the Assistant Principal receives a copy of your score when it becomes available. Until scores are available, a student will be placed on a "pending" list and sent the Biliteracy Seal when results of testing are confirmed. If a student completed any of the above tests while enrolled at a different school, the student must submit their test scores and the required form described above. The due date for the submission and the Biliteracy form for the above Tests is February 15th of the present school year.
- 2. If a student is in an Advanced Placement (AP) class, the results of this test are not reported until August. At that time, if the student has received a score of 3 or higher and met all other requirements, the seal will be sent to the student. The SAT or ACTFL tests may be taken throughout the school year and scores may be available prior to graduation.

Core, Academy, and ROP Programs

Core Program

Students are randomly enrolled in one of four core building communities (B, C, D or E) and remain throughout their tenure at FHS. The building communities consist of an assistant principal, counselor and secretary. This structure allows students to experience a smaller, more personal educational community while attending FHS.

Academy Program

There are currently three academies at FHS, each with a particular focus and career paths defined by majors. A major consists of a series of related courses within a career orientation. Enrollment in an academy is voluntary for students and staff. The goal is to provide the student, at the completion of the academy program, the option of entering the job market, enrolling at a community college or technical school, or pursuing collegiate studies with a clearly articulated academic background in a particular area. Students who complete an academy program are honored at graduation with a special designation, such as a stole, medallion or pin. Students are encouraged to explore our academy offerings and join the academy that best fits their personal interests and post-high school goals.

Students are encouraged to explore and learn about our academy offerings as freshmen and then join an academy during their sophomore or junior year, if they choose to do so. More academy information can be found on the following pages for our three academies: Professional Human Development (PHD); Communications; and Science Technology, Engineering and Mathematics (STEM).

ROP Program

Operated by the Contra Costa County Office of Education, the Regional Occupational Program is a primary source of career training for high school students in our county. State certified teachers, high tech equipment and a commitment to students ensure a positive learning experience. Located on high school campuses, ROP courses are part of a student's regular high school schedule. Students complete 90-540 hours of sequenced curriculum and earn high school graduation credits and/or college units. Students can earn Certificates of Proficiency. Students must be a 16-year-old junior or senior to be enrolled in ROP courses. For more information, go to www.cccoe.k12.ca.us/stsvcs/rop.html.

Career and Technical Education (CTE) Pathways

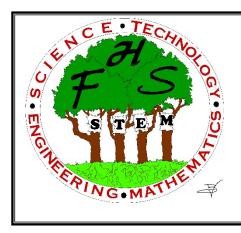

Prepare for your future career today! Complete one of the following CTE Pathways. This will prepare you for college and your career. Complete a minimum of 20 credits with a C or better in one of the following pathways (one must be a *Capstone* course). Please see the course catalog for course descriptions and prerequisites. Look for exciting changes in the years to come!

STEM Academy

Are you interested in a career in the sciences, technology, engineering or mathematics?

Science, Technology, Engineering and Mathematics Academy

The STEM Academy offers a range of electives in the areas of mathematics, engineering, technology and the sciences. Our focus is student success in high school and beyond. We offer certificates in many major pathways. In addition, the STEM organizes yearly class projects, field trips and activities to enrich student's high school experience. The STEM Academy is currently coordinated by Mr. Bevaqua (B115) and Mr. Harte (I113)

STEM Pathway	Career pathways
Engineering	 a. Architectural and Structural Engineering b. Computer Hardware, Electrical, and Networking Engineering c. Engineering Design d. Engineering Technology e. Environmental and Natural Science Engineering f. Public utilities
Technology	 a. Information Support and Services b. Media Support and Services c. Network Communications d. Programming and Systems Development
Research Sciences	a. Life sciences b. Physical sciences
Mathematics	a. Applied mathematicsb. Theoretical mathematics

PHD Academy

Freedom High School's Professional Human Development Academy (PHD) seeks students with a desire to make a difference in our world! Students selecting this academy will focus on careers that provide services to others in society. Elective courses in our academy give students the opportunity to have real life experiences. The PHD Academy prepares students to meet their future by exploring careers, offering exciting elective courses and allowing students to job shadow in their specific field or career. The PHD Academy is coordinated by Mr. Clark (P 7) and Ms. Faggiano (H101). Our Professional Human Development Academy elective courses focus on the following careers:

Career Focus	Courses
Fire Technology	ROP Fire Sciences, Strength and Fitness, (AP) Chemistry, Forensic Science, (AP) Environmental Science
Law & Administration of Justice	ROP Law Enforcement, Mock Trials, (AP) American Government, Forensic Science, Speech & Debate, Psychology, AP Psychology
Medical Care	Anatomy & Physiology, AP Biology, (AP) Statistics, (AP) Chemistry, AP Psychology, Sports Medicine, Zoology
Psychology	AP Psychology, Peace & Conflict, Anatomy & Physiology, AP Biology, (AP) Statistics
Education	AP Psychology, Child Development, ROP Careers with Children, Speech & Debate, Peace & Conflict

Communications Academy

Our Mission:

The Communications Academy seeks to build a community of self-directed learners who specialize in communication, collaboration, and creative problem solving. Students view media with an intellectual and critical perspective, and they are encouraged to apply the skills they have gained from academy classes to higher education as well as future careers in design and communications.

To earn Academy honors upon graduation, a student must complete 70 units in their chosen pathway which includes the two capstone courses required in that major and a portfolio. In exchange, a student may opt to complete a large scale community outreach project their senior year (with academy approval).

Three years of world language classes are required in addition to the coursework listed above.

Clubs and Advisors

Studies show that students who are invested in their school outside of the classroom have a tendency to perform better academically. One of the best ways to invest in your school community is through membership in a school club. There are many choices. Take some time to investigate our club offerings and meet the club advisors.

Arts: Visual

P-Beginning Art	Course #1506
Level:	9-12
Length:	Year (10 credits)
Prerequisite:	None
Graduation:	Fine Arts requirement or elective credit
College Prep:	VAPA (f) requirement
No previous art exp	perience is necessary for this beginning level art
class All projects a	are based on learning the elements of art (line shape

form, value, color, space, texture) using a variety of art media. The principles of design are a.lso introduced.

P-Intermediate A	Art Co	<u>urse #1516</u>
Level:	10-12	
Length:	Year (10 credits); repeat to 20 credits	
Prerequisite:	Beg. Art or instructor approval	
Graduation:	Fine Arts or elective credit	
College Prep:	VAPA (f) requirement	

A standards based class, Intermediate Art Intermediate Art expands concepts and skills gained in Beginning Art, which include art techniques and composition building. The student will use a wide variety of materials to create individual artwork. Students will further develop assessments and critiquing to better understand their growth as an artist. Examples of assignments are figure drawing, still life, ceramics, landscape paintings, surrealism and symbolism.

P-Advanced Art	Course #1520
Level:	10-12
Length:	Year (10 credits); repeat to 20 credits
Prerequisite:	A grade of B- or better in Beg. Art, A grade of C in Intermediate Art, or instructor approval
Graduation:	Fine Arts requirement or elective credit
College Prep:	VAPA (f) requirement

Advanced Art expands student knowledge of harmonious relationships between line, value, color, texture and form gained in Beginning and Intermediate Art.. Students use a wide variety of techniques and materials to create artworks. Advanced students will develop their creativity and grow in their technical ability. Students will be exploring what it means to be an artist, developing original ideas and creating an artistic voice. They will focus on understanding their artistic process.

P-Advanced Pl	Course #1578			
Level:	10-12			
Length:	Year (10 credits)			
Prerequisite:	Beg. Art, highly recommended	to have taken Int. art		
-	or be signed up in advanced	art concurrently or		
	instructor approval			
Graduation:	Fine Arts requirement or ele	ctive credit		
College Prep:	VAPA (f) requirement			
AB Studio Art is a college lovel course that enables students to do college				

AP Studio Art is a college level course that enables students to do collegelevel work in studio art while still in high school. AP Studio Art is not based on a written examination, but instead candidates submit a portfolio of work for evaluation at the end of the school year. Three sections of the portfolio are: A. Quality - the development of a sense of excellence in art. B. Concentration - a commitment in depth to a particular artistic concern. C. Breadth - a variety of experiences in the formal, technical, and expressive means available to an artist. Students may select to do either a Drawing, 2-D, or 3-D Portfolio. Students may repeat the course for each of the 3 portfolio selections. A mandatory parent meeting is held in the Spring semester.

P- Ceramics 1	Course #1831
Level:	10-12
Length:	Year (10 credits)
Prerequisite:	None
Extra Criteria:	\$40 per term material fee
Graduation:	Fine Arts requirement or elective credit
College Prep:	VAPA (f) requirement

Ceramics introduces the student to a wide variety of concepts, processes (Construction techniques and glaze application), and materials. Concepts cover theory and use of the Elements of Design (shape, line, color, texture, value, and form) and Principals of design (balance, variation, unity, positive negative space, and rhythm).

P-Animation	Course #4094
Level:	10-12
Length:	Year (10 credits)
Prerequisite:	None
Graduation:	Fine Arts requirement or elective credit
College Prep:	VAPA (f) requirement
This course focu	uses on traditional and three dimensional and animation
techniques. It int	roduces the principles of 2D animation and 3D modeling.

g. Students learn professional animation production techniques. Mastering these fundamental skills is essential for a career in the digital industry.

P-Advanced Anin	nation	Course	#4098
Level: 11-12			
Length: Year (10) credits)		
Prerequisite:	Animation		
Graduation:	Fine Arts requirement or elective cr	edit Colleg	e Prep:
VAPA (f) requirement	-	-
This course will fur	ther explore the techniques of traditional	l, and compu	uter

animation techniques to help students build a strong portfolio for college/career goals in the field of animation.

P-Graphic Design	1	Course #1	<u>548</u>
Level: 9-12			
Length: Year (10	credits)		
Prerequisite:	None		
Graduation:	Fine Arts requirement College Prep:	VAPA	(f)
requirement			
This is an introduct	ory course for students interested in purs	uing a career ir	۱
Graphic Design. St	udents will be introduced to the technique	es, vocabulary	
and history of desig	on as it pertains to print based media. The	ey will build skil	ls

in Adobe Photoshop, InDesign and Adobe Illustrator while creating menus, books, posters, logos and illustrations.

P-ROP Graphic Design 2 Course #1549
Level: 10-12
Length: Year (10 credits); repeat to 30 credits Prerequisite:
Graphic Design 1
Graduation: VAPA (f) requirement
This is an advanced level course for students interested in pursuing a career
in Graphic Design. Students will further their knowledge of the techniques,
vocabulary and history of design as it pertains to print based media.

Yearbook	Course #3195	
Level: 9-12		
Length: Year (10 credits); repeat to 40 cre	dits Prerequisite:	
Application process		
Graduation: Fine Arts requirement		
This course teaches basic production techniques which fo placement, layout design and continuity, photographic pro marketing, sales promotion, and how to meet deadlines. O photography journalism, computer graphics and graphic de provided. The final product is the school yearbook.	cesses, advertising, Opportunities in	
P-Advanced Placement (AP) Art History Course #1575		
Level: 10-12 (9 th grade with instructor approval)		
Length: Year (10 credits)		

Prerequisite: None

Graduation: Fine Arts requirement or elective credit College Prep: VAPA (f) requirement

An intensive course for the student interested in studying the effect of art on our world. Students participate in critiques and discussions of masterpieces. A research paper and field trip to a museum or gallery facilitate the students understanding of art as history. Serious students with strong writing skills should be able to pass the advanced placement exam for college credit. Students will be charged a fee for A.P. Testing. A mandatory parent meeting is held in the Spring Semester.

Introduction to Broadcasting and Media #4055

Level:	9-12
Length:	Year (10 credits)
Prerequisite:	None
Graduation:	Elective Credit

This is an entry-level course covering all aspects of the broadcast and mass media industries. The history of broadcasting and evolution of the technology as well as the techniques used to deliver the broadcast message will be covered. Topics will include: broadcast and nobroadcast television, cable television, radio, sports and movies as an important form of communication. The study of vocabulary, safety, and basic hands-on production skills will be developed and implemented.

Course

P-Photography I		Course #1593
Level:	11-12	

Length:	Year (10 credits);
Prerequisite:	None
Graduation:	Fine Arts requirement or elective credit
College Prep:	VAPA (f) requirement

An introduction to photography that exposes students to a variety of technical skills related to control of cameras, exposure meters, light, film, developers, enlargers, and print papers. Communication skills related to translation of ideas and concepts into effective visual images and communication design concepts are also elements of the course. Students study advanced technologies related to photography.

P-Photography II	Course #1594
Level:	11-12
Length:	Year (10 credits)
Prerequisite:	Photography I
Graduation:	Fine Arts requirement or elective credit
College Prep:	VAPA (f) requirement
Dhotography II in	an advanced photography source. This source will

Photography II is an advanced photography course. This course will provide students with the opportunity to extend and advance their knowledge and skills in the field of photography. This course will familiarize the student with advanced photographic equipment, materials, methods and processes. It will require the student to produce digital images, using digital cameras, scanners, Photo Shop, InDesign, and other computer technology.

P-ROP The Art of	of Video Production	Course
#6182 Level:	11-12

College Prep:	VAPA (f) requirement	
The fact is a second se	and the set of a second a second se	at a second second second second

This is an advanced level course using computers and video equipment to plan, shoot, and edit video programs. Emphasis is on advanced level script writing, audio techniques, lighting, camera operation and editing. Computers are used as a creative and organizational tool for the purpose of producing high quality videos. Program styles include documentary, educational, and dramatic video production. Students use field and studio equipment to produce professional quality video programs.

Arts: Performing

P-Theater Arts I		Course #6104	
Level:	9-12		
Length:	Year (10 credits	.)	
Prerequisite:	None		
College Prep:	VAPA (f) requir	ement	
Theater Arts I int	Theater Arts I introduce theater as a discipline and art form. Students will		
study theater his	study theater history and explore the way in which theater affects and is		
affected by its societal context. Through theater games and improvisation			
exercises, students will develop confidence, trust, and voice and movement			
skills. As they give and receive criticism on performances in and outside of			
class, students will apply evaluative criteria and appreciate excellence in			
performance.			

P-Theater Arts II	Course #6166
Level:	9-12
Length:	Year (10 credits)
Prerequisite:	Theater Arts I or instructor approval
College Prep:	VAPA (f) requirement

Theater Arts II is designed for the intermediate student who wants to build upon the skills learned in Theater Arts I. Through play analysis, scene work, and one-act play preparation and performance, students will build believable characters, apply basic technical theater skills, develop directing skills, and work effectively in an ensemble. Students will develop audition material.

P-Theater Arts III	Course #6176
Level:	10-12
Length:	Year (10 credits)
Prerequisite:	Theater Arts I and II or instructor approval
College Prep:	VAPA (f) requirement

Theater Arts III builds upon the skills learned in Theater Arts I and II. Through participation in in-depth projects, students will apply directing, acting, technical, and dramaturgical skills. During these projects, they will write and adapt scripts. By exploring different theatrical genres, students will evaluate and appreciate a variety of production styles.

Piano I	Course #6058
Level:	9-12
Length:	Year Class (10 credits); repeat to 40 credits
Prerequisite:	None
Graduation:	Electives Credit

Piano Class 1 is a course designed to teach students with little or no experience in music; performance skills (solo and in an ensemble), rehearsal techniques, how to read and play music on the grand staff theory, concert etiquette, and listening and analyzation. Piano Class 1 serves as a prerequisite to Piano Class II. *Parent/Guardian and student must sign an Acceptable Use Policy contract prior to students using computers on campus. (Contract is part of the online registration process)*

Piano II	Course #6059
Level:	9-12
Length:	Year Class (10 credits); repeat to 40 credits
Prerequisite:	Successful completion of Piano Class I, or
	teacher approval.
Graduation:	Electives Credit

Piano Class II is a course designed to teach students with moderate experience at the piano; performance skills (solo and in an ensemble), rehearsal techniques, how to read and play music on the grand staff, music theory, concert etiquette, and listening and *Parent/Guardian and student must sign an Acceptable Use Policy contract prior to students using computers on campus. (Contract is part of the online registration process)*

Music Apprecia	tion Course #6060)
Level:	9-12	
Length:	Semester (5 credits)	
Prerequisite:	None	
Graduation:	Fine Arts requirement or elective credit	

Music Appreciation is a classroom music course designed to provide students with a source of aesthetic enjoyment through the study of music and its development - past and present. This course will include appreciation for music, dance, theatre, art and how these relate to the western world over the past two centuries. It will examine the effects each has had on the others and how conditions, political and social views and etiquette of the time compare with those of today.

Beginning Guitar	Course #6056	
Level:	9-12	
Length:	Semester (5 credits); repeat to 10 credits	
Prerequisite:	None	

Graduation: Fine Arts requirement or elective credit

Beginning Guitar introduces students to chords, theory, and accompaniment as well as notation, solos and ensembles. Performances are presented in class several times a quarter. Students must furnish their own equipment.

Instrumental St	udies Course #6050
Level:	9-12
Length:	Semester (5 credits); repeat to 10 credits
Prerequisite:	None
Graduation:	Fine Arts requirement or elective credit

Introduction to Band Instruments is an instrumental music class designed to introduce students to, and provide students with, a source of aesthetic enjoyment of, and an experience in ensemble playing. A number of extracurricular performances are required part of this course. Students will need to have their own band instrument.

P-Orchestra	Course #6036
Level:	9-12
Length:	Year (10 credits); repeat to 40 credits
Prerequisite:	Instructor approval
Graduation:	Fine Arts requirement or elective credit
College Prep:	VAPA (f) requirement

Designed primarily (but not solely) for experienced students who play string instruments (i.e. violin, viola, cello, double bass) and/or experienced piano students – **students with no string instrument experience are welcome to join**. Students perform at various concerts, festivals, and occasions as well as the holiday and spring concerts. All performances are mandatory.

P-Concert Band	Course #6016
Level:	9-12
Length:	Year (10 credits); repeat to 40 credits
Prerequisite:	Instructor approval
Graduation:	Fine Arts requirement
College Prep:	VAPA (f) requirement

Concert Band is an intermediate performance band for experienced incoming band freshman and other band musicians. Members of this group will become a Marching Band in the fall as they combine with Symphonic Band members to perform at Freedom football games and local parades. Marching rehearsals will be held on Wednesday evenings from 6-8:30 p.m. Other performances will include holiday and spring concerts and music festival performances. All rehearsals and performances are mandatory.

P-Symphonic Band		Course #6020
Level:	10-12	
La constante e	V / / A	4.4.5. 40 s.m

Length:Year (10 credits); repeat to 40 creditsPrerequisite:AuditionGraduation:Fine Arts requirement or elective credit

Symphonic Band is an advanced performance band for advanced high school musicians. Members of this group will become a Marching Band in the fall only, as they combine with Concert Band members to perform at FHS football games and local parades. Marching rehearsals will be held on Wednesday evenings from 6-8:30 p.m. Other performances will include holiday and spring concerts as well as performances at other high schools, colleges, and festivals. All rehearsals and performances aremandatory.

P-Jazz Band	Course #6037
Level:	9-12
Length:	Year (10 credits); repeat to 40 credits
Prerequisite:	Concurrent enrollment in Orchestra, Symphonic or Concert Band and audition
Graduation:	Fine Arts requirement or elective credit
College Prep:	VAPA (f) requirement
Jazz Band is an intermediate-to-advanced instrumental music and theory	
class designed to	provide a source of aesthetic enjoyment and instruction

Career Technical Ed.

Foundations of Residential and Commercial Construction (BITA1)

Course # 4155

Level:	9-12
Length:	Year (10 credits)
Prerequisites:	None
Graduation:	Elective Credit

Building Industry Technology Academy 1 (BITA 1) is the foundation course for a two-year high school construction program called Eco-Design. Green construction, also known as sustainable building, will be a central and ongoing theme throughout the two-year program curriculum. Participating students will learn how to design and build structures that are environmentally responsible and resource efficient. BITA 1 introduces students to the art of residential construction while laying the foundation for future careers in construction and architecture. Year one offers students the opportunity to gain basic construction skills in the use of hand tools, operation of machine tools, types of regular and green construction materials, construction and organizational operations, sub-flooring, framing, roofing, blueprint reading, surveying and construction-specific mathematics.

Study of Modern Craftsmanship and Infrastructure (BITA 2)

	•	(Course # 4156
Level:	10-12	_	
Length:	Year (10 credits)		
Prerequisites:	Foundations of Residenti	ial and	Commercial
•	Construction (BITA1)		
Graduation:	Elective Credit		

Graduation:

The study of Modern Craftsmanship and Infrastructure course is designed to gain an in-depth understanding of the industry behind construction, materials, and trades in the industry. Students will use Primary Sources and become Construction Historians as they reconstruct the advancement of the trades, materials, and tools that are now being used in residential and commercial construction. The course covers a more advanced knowledge of safety, use of hand and power tools, blueprint reading, geometry, and estimating. Integrated throughout the course are foundation standards, which include communication, ethics, interpersonal/team skills, critical thinking and other employment skills, needed for the 21stcentury.

Game Design using JavaScript Course		Course #2327
Level:	9-12	
Length:	Year (10 credits)	
Prerequisite:	None, except interested in con	mputer science,
-	Coding, and programming.	-
Graduation:	Elective credit	
College Prep:	Elective (g) credit	
Game Design teaches the foundations of creating video games in		

JavaScript. The course utilizes a blended classroom approach. The content is web-based, with students writing and running code in the browser. The teacher will utilize tools and resources to leverage time in the classroom and give focused attention to students. Each unit of the course is broken down into lessons. Lessons consist of video tutorials, short quizzes, example programs to explore, and written programming exercises. Each unit ends with a comprehensive unit test that assesses student's mastery of the material from that unit. The course is highly visual, dynamic, and interactive, making it engaging for new coders.

P-ROP Digital Arts/Designs for the Web Course #4039

Level: 10-12 Year (10 credits) repeat to 30 credits Length: Prerequisite: Age 16 and basic computer skills recommended Graduation: Fine Arts requirement or elective credit

College Prep: VAPA (f) requirement

Students create, design and publish web pages using professional programs like Dreamweaver, Flash, Fireworks, and Photoshop. Students learn HTML, CSS, JavaScript and FTP for creating and uploading content to the web. As part of the ROP program, students learn about industry jobs and create a professional online portfolio. Students who complete the program successfully receive ROP certification for skills gained in this course.

Mobile App D	evelopment	Course #TBA
Level:	9-12	
Length:	Year (10 credits)	
Prerequisite:	None, except interested in comp programing.	uter science, coding
Graduation:	Elective credit	
This Mobile	Apps course is designed to intr	roduce high school

students to the highly sought-after world of mobile app development using MIT App Inventor platform. MIT App Inventor is an intuitive, visual programming environment that allows everyone to build fully functional apps for smartphones and tablets both Android and IOS. MIT App Inventor blocks-based tool facilitates the creation of complex, high-impact apps in significantly less time than traditional programming environments. Students will learn how to create scalable, custom, and fast mobile applications.

Exploring Computer Science Course #		se #4077
Level:	9-12	
Length:	Year (10 credits)	
Prerequisite:	Basic computer skills	
Graduation:	Elective credit	
Exploring computer Science is a yearlong course consisting of 6 units. The		

course was developed around a framework of both computer science content and computational practice. Assignments and instruction are contextualized to be socially relevant and meaningful for diverse students. Units utilize a variety of tools/platfo9rms and culminate with final projects around the following topics; human computer interaction problem solving, web design, programming, computing and data analysis and robotics.

P-AF	Computer S	cience Principles	Course #4747
Leve	el:	10-12	
Leng	gth:	Year (10 credits)	
Prer	equisite:	Basic computer skills	
Grad	duation:	Elective credit	
Coll	ege Prep:	Elective (g) credit	
Computer Science Principles introduces students to the foundational			nts to the foundational
concepts of computer science and challenges them to explore how			
com	puting and tec	hnology can impact the work	d. More than a traditional
intro	duction to prog	gramming, it is a rigorous, er	ngaging, and approachable

students understand how these concepts are transforming the world we			
			-

live in. Code.org is recognized by the College Board as an endorsed provider of curriculum and professional development for AP® Computer Science Principles. This endorsement affirms that all components of Code.org CS Principles' offerings are aligned to the AP Curriculum Framework standards and the AP CS Principles assessment.

Design Drafting	Course #4036
Level:	9-12
Length:	Year (10 credits)
Prerequisite:	Algebra 1 (or concurrent enrollment highly recommended)
Graduation:	Fine Arts requirement or elective credit

Design Drafting is a one-year course designed to acquaint students with a pictorial language used throughout industry. The course teaches drafting fundamentals and provides hands-on experience for developing drafting skills and techniques. It is designed to provide the student with a background in basic mechanical and technical drawing. This course helps students develop problem-solving ability, interpret the ideas of others, and express themselves visually in an understandable manner. Drafting provides a wide range of skills that are transferable to many aspects of everyday life. Emphasis is on the basic use of traditional drafting equipment and the understanding of design/drafting principles as they apply, but are not limited to, future pursuits in the architectural and engineering career field.

P-Jumpstart to Engineering Course #4252 Grades: 9-12 Length: Year (10 credits) Prerequisite: Algebra 1 and/or Design Drafting (or concurrent enrollment highly recommended)

Graduation: Elective credit

College Prep: Elective (g) credit

This is an introductory class designed to provide students with a hands-on approach to exploring the connections and relevance of science, engineering, and technology in science. The main component to the class is the design, construction, and analysis of several long term projects using computers as part of the design process. Students will be introduced to structural, mechanical, aerospace and robotic engineering.

Business and M	arketing Course #2296
Level:	10-12
Length:	Year (10 credits)
Prerequisite:	Business Computer Applications recommended
Graduation:	Elective credit

In this business course, students will study the importance of business and marketing in the global economy. Emphasis will be placed on both oral and written communications, problem solving, and critical thinking skills, as they relate to selling, promotion, distribution, pricing, product/service management, and entrepreneurship, finance and career development. Using technology applications, students will work through engaging projects and simulations to learn and apply business concepts and skills.

Business Computer Applications		Course #2297
Level:	9-12	
Length:	Year (10 credits)	
Prerequisite:	None	
Graduation:	Elective credit	
Pusinosa Compu	tor Applications is an introduction to a	amputar

Business Computer Applications is an introduction to computer applications as it relates to business and home use. The course introduces software topics in Microsoft Windows, Microsoft Office, Internet, World Wide Web, electronic mail, file management, and data communications. Hardware topics include PC system components and troubleshooting issues. Other topics include typing skills, computerbased careers and trends, electronic computing issues, terminology, electronic communication skills, ethics, security, and netiquette in today's business computing environment. Business Computer Applications will provide students with computer knowledge and skills to increase their productivity which will give them a competitive advantage in the job market.

P-Child Develop	ment	Course 2516N
Level:	10-12	
Length:	Year (10 credits)	
Graduation:	Elective credit	
College Prep:	Elective (g) credit	
Child Dovelonme	nt is a source which enables studer	to to understand hou

Child Development is a course which enables students to understand how to work with and care for children as they grow. Students learn how children from prenatal stages through adolescence grow physically, mentally, socially, and emotionally.

P-ROP Careers with Children		Course #2730
Level:	11-12	
Length:	Year (10 credits)	
Prerequisite:	Must be 16 years or older	
Graduation:	Elective credit	
College Prep:	Elective (g) credit	
Students explore	careers related to education throu	igh the study of child

Students explore careers related to education through the study of child development, positive guidance techniques, curriculum development and health and safety. Active class participation is enhanced by fieldwork at school sites under the guidance of a mentor teacher. All students are required to observe and/or participate in a variety of settings in elementary classrooms at the preschool level. Completion of this course with a B or better and 95% positive attendance articulates with LMC Child Development 1 worth 3 units of credit at LMC. This course includes Pediatric First Aid/CPR/AED certification.

ROP	Law	Enforcement	

Level:10-12Length:Year (10 credits)Prerequisite:NoneGraduation:Elective credit

law.

This course introduces students to the field of law enforcement, criminal justice and police science. Students will become familiar with the structure and organization of the criminal justice system and gain knowledge of basic police procedures, regulations and responsibilities. Included is a brief overview of law and penal code, laws of arrest, search and seizure guidelines, patrol and investigation procedures, and emergency response, along with field trips to police stations and courtrooms. Emphasis is placed on developing awareness of citizens' rights and responsibilities, the realities of police work, and the positive role of law enforcement in the community. Law Enforcement prepares students for further training or entry-level positions in the field of law enforcement. Integrated throughout the course are career preparation standards which include basic academic skills, communication, interpersonal skills, problem solving, workplace safety, technology, and employment literacy.

Mock Trials, Moot	Courts, and Trial Advocacy	Course #5329
Level:	10-12

ROP Fire Science	Course #2750
Level:	11-12
Length:	Year (10 credits)
Prerequisite:	Must be 16 years or older
Graduation:	Elective credit
This class follows	the California Firefighter 1 Curriculum and is also

articulated with the Essentials of Firefighting 4th Edition Textbook. This class prepares students for future study of fire science, as well as providing them hands-on experience with firefighting equipment.

Course #0061

P-ROP Sports Medicine Course #5582 Level: 11-12 Length: Year (10 credits) Prerequisite: Must be 16 years or older Graduation: Elective credit **College Prep:** Elective (g) requirement Areas covered in this course are human anatomy, physiology, nutrition, equipment fitting, prevention, evaluation, and treatment of injuries. This course includes CPR certification and first aid. (Internship at sporting events is required.) POP Sports Madicina II

ROP Sports Med	dicine II	Course
#5585 Level:	11-12	
Length:	Year (10 credits)	
Prerequisite:	Age 16, ROP Sports Medicine I, Ar and Physiology (may be concurre enrolled)	
Graduation:	Elective credit	

This course provides classroom instruction and practical experience in the field of sports medicine and fitness. Students learn human anatomy, first aid, CPR, taping and wrapping skills, injury prevention, rehabilitation and care, nutrition, and exercise physiology. This prepares students for careers in the field of sports medicine. Students complete five hours per week of classroom instruction, plus an additional five hours per week of internship. Students study advance course work in this area.

P-Athletic Management		Course #5660
Level:	10-12	
Length:	Year (10 credits) repeat for credit	
Prerequisite:	Teacher recommendation	
Graduation:	Elective Credit	
College Prep:	Elective (g) requirement	
Athletic Management is a course which introduces students to the skills		

ls necessary for success in the athletic world. Student will learn steps necessary to run effective athletic programs and events. Course topics include philosophy, legal issues, game management including incorporation of technology such as press releases and webcasting, athletic field management and athletic survey of middle schools, high school, college, and professional programs. Students will patriciate in a variety of projects throughout the course which will enhance the overall athletic and academic experience of the campus.

Basic Electronic	s Course #5197
Level:	9-12
Length:	Semester (5 credits)
Prerequisite:	None
Graduation:	Elective credit
Students learn the	e fundamentals of electricity and how it is used and
controlled in elect	ronic circuits. Students learn practical skills for solving

real-life problems. Students write explanations of component and circuit functions as part of ongoing lab work. For the final project, students construct (solder) a circuit board project and complete a written report explaining how it works.

Virtual Enterprise		Course #2310
Level:	11-12	
Length:	Year (10 credits)	
Prerequisite:	None	
Graduation:	Elective credit	

In this exciting business course, students will create and operate a virtual business! Under the guidance of a teacher mentor, students will determine the nature of the enterprise, its products, services, and management structure. They will use current business software to conduct business with other students across the United States via the Internet. As business employees, students will receive a virtual salary, which they will use to pay virtual bills. They will also be able to make virtual purchases from other virtual enterprises across the country. In addition, as a part of the Virtual Enterprise program, students will also have the opportunity to work with real business partners, and even travel to some trade fairs where they will compete with other virtual enterprises throughout California. Anyone who wants to try out a possible business career should think about enrolling in the Virtual Enterprise.

Personal Financ	e	Course #2596
Level:	9-12	
Length:	Semester (5 credits)	
Prerequisite:	None	
Graduation:	Elective credit	

This course introduces students to a way of thinking about personal financial decisions. Students learn to plan and manage their personal finances, achieve a financially successful life, and take responsibility as a citizen. Students think harder and farther about the larger and longer consequences of making financial decisions. Although many of the more practical aspects of personal finance will change over time, due to practices, technologies, customs, and laws, the fundamental awareness of ways to think about solving financial issues can always be useful.

Fashion Design 1	Course #1491
Level:	9-12
Length:	Year (10 credits)
Prerequisite:	None (Beginning Art Recommended)
Graduation:	Elective credit

Fashion Design I is the first course of a two course CTE pathway. This course will focus on the fashion industry. The student will: Learn the aesthetic aspects of design necessary to create sketches, designs, and original fashions. It also studies fashion trends throughout history, from ancient times, to modern-day and includes an understanding of cultural, social, political, and economic influences on fashion design. Students utilize the elements and principles of design to create their own original designs in fashion. Through the use of a variety of fabrics, trims, embellishments and decorations students will express and explore fashion, art and design. Students will analyze the artistic nature of fabric and fashion design, explore the elements of the contemporary fashion movement and create their own interpretations of fashions. Throughout the year, students learn how fashion design is connected to other academic disciplines and the career opportunities that are related to the fashion industry and the world of fashion.

Fashion Design II	(Pending)
Level:	10-12
Length:	Year (10 credits)
Prerequisite:	Fashion Design I (Beginning Art Recommended)
Graduation:	Elective Credit
This course will co	ontinue the student's focus on the fashion industry.
Students will explo	re and demonstrate knowledge in cultural and social

influences on the fashion industry. Students will demonstrate their knowledge of the elements and principles of design in both two and three dimensions. They will learn industry terminology. They will become familiar with prominent designers (past and present), recognize the impact of other art forms on the fashion industry, and use academic discipline as part of their learning the industry. Students will create a portfolio of sketches, figures drawings, study the world of textiles, as well as create fashion. Students will be required to research educational and career requirements and opportunities in the field of fashion. Students will explore how technology has impacted niche marketing and look at online (Etsy/e-bay) marketability of personal creations. Students will also explore interior design and how the fashion industry extends beyond the clothes they wear.

English Language Arts

English Fundam	ental Course #3270
Level:	9-12
Length:	Year (10 credits)
Prerequisite:	Low CST test results may require
-	concurrent enrollment in this course and
	English 9
Graduation:	Elective credit

English Fundamentals is a support class that students must take if they scored Far Below or Below Basic on their 8th grade California Content Standards Test. This class will review the fundamentals of grammar, word analysis, and improve students' reading comprehension.

P-English 9		Course	#3030

American Studies integrates English 3 and U.S. History, and is designed to		
explore American culture and the major turning points in U.S. history to		
make connections between real life American History and American		
literature. The course will review the rise of democracy and the industrial and technological transformations.		

P-Adv. Placeme	nt (AP) Lang. and Composition	Course #3085
Level:	11-12	
Length:	Year (10 credits)	
Prerequisite:	English 2	
Graduation:	Year 3 English requirement	
College Prep:	Year 3 English (b) requirement	
Advanced Placen	nent Language and Composition is equ	uivalent to a college

Advanced Placement Language and Composition is equivalent to a college or university Freshman Composition course and prepares students to take the Advanced Placement Language and Composition exam. Students will become skilled readers and analyzers of literary prose written from a variety of time periods. As a result of such analysis, students will become skilled writers who will be able to produce compositions for a variety of purposes. Through their writing and reading assignments, students learn the purpose and influence of literary prose.

P-Adv. Placement	(AP) Literature and Composition	Course #3120
Level:	12	
Length:	Year (10 credits)	
Prerequisite:	English 3	
Graduation:	Year 4 English requirement	
College Prep:	Year 4 English (b) requirement	
Advanced Placeme	ent Literature and Composition is equ	ivalent to a college or
university Freshma	n Literary Survey course and prepare	es students to take the
Advanced Placement Literature and Composition exam.		

P-Science Fiction Literature		Course #3205
Level:	12	
Length:	Year (10 credits) Prerequisite:	
-	English 1, 2 and English 3	
Graduation:	Year 4 English requirement	
College Prep:	Year 4 English (b) requirement	

Science Fiction will focus on the reading, analysis, interpretation, and evaluation of science fiction literature in conjunction with current technological and scientific issues and with science fiction film. The class stimulates student interest in technology, fantasy, global thinking, and the future. This English elective provides access to alternative literature.

English Language Development (ELD) 3 Course #3162

Level: 9-12 Length: Year (double-blocked class 10 credits) Prerequisite: CELDT score 3 or Edge Placement Graduation: 10 credits English and 10 credits elective College Prep: English (b) requirement

English Language Development 3 is a course designated for English Learners who score a 3 on the CELDT test. ELD 3 will advance a student's oral, listening, reading and writing skills and enhance their academic vocabulary. The goal is to prepare English Learners for mainstream academic curriculum.

P-Creative Writing Course #3170 Level: 10-12

Length: Year (10 credits) Prerequisite: English 1

Graduation: Elective credit

College Prep: Elective (g) requirement

Creative Writing is structured to build upon skills introduced in previous English courses. Focus is on the study of advanced composition, fiction, non-fiction, storytelling, poetry, and speech. The major project will be to produce a student literary magazine.

P-Speech and Debate		Course #3202
Level:	9-12	
Length:	Year (10 credits)	
Prerequisite:	English 1, 2.5 GPA, or instruc	tor
approval Gradua	tion: Elective credit	
College Prep:	Elective (g) requirement	
Speech and Deh	ate is a one-vear course in oral o	ommunication with

Speech and Debate is a one-year course in oral communication with emphasis on public speaking. Research, writing, and oral techniques needed to develop effective oral presentations, debates, and oral interpretation intersperse the course.

P-Journalism	Course #3190 Level: 10-12
Length:	Year (10 credits); may be repeated for
credit Prerequisite	English 1 or instructor approval
Graduation:	Elective credit
College Prep:	Elective (g) requirement

Journalism provides an introduction to journalistic writing, non-fiction literature, and newspaper production, including news gathering, layout, advertising, and business management. The course focuses on the theoretical basis for scholastic freedom of press, the responsibilities of high school journalists, exclusion of First Amendment freedoms, and journalistic ethics.

P-Peace & Conflict Studies Course #3186 Level: 10-12 Length: Year (10 credits)

Prerequisite: English 1 and World Cultures or World History Graduation: Elective credit College Prep: Elective (g) requirement

Peace & Conflict Studies explores the world of violent and nonviolent solutions. Through readings of prominent authors, students will learn the skills of negotiation and conflict resolution. Students learn to view global human rights as a part of their own cause, not something distinct from their personal life experience. Students learn why we need to end intolerance, racism, and violence in society. Topics like human rights, the environment, structural violence, justice, power, empathy, compassion, respect, tolerance, and freedom are covered.

Poetry	Course#3178 Level: 10-12	
Length:	Year (10 credits)	
Durania and a later	Over a state of the second state of a state of the state	

Prerequisite: Successful completion of prior English class Graduation: Elective Credit

Students explore the world of poetry, learning through a balance of formal study and creative writing, develop an appreciation for poetry and gain valuable experience in critiquing and analyzing literature. After learning a new element, student analyze published examples that employ the element engage in discussions and write their own poetry. Students share poetry in formal and informal readings and critique and analyze their own as well as their classmates writing.

P- Literary Analysis through Film

Level:10-12Length:Year (10 credits)Prerequisite:NoneGraduation:Elective Credit, Meets UC/CSU 'g'requirement

Literary Analysis through Film is an academic elective for English Language Arts designed to introduce students to analyzing elements of literature using film as a text. By using film as a text, the course sets a foundation and enhances student comprehension, analysis, criticism and appreciation of non-fiction, fiction, drama and basic cinematic techniques.

Course # 3184

World Languages

P-French 1

Course #3510

 Level:
 9-12

 Length:
 Year (10 credits)

 Prerequisite: None
 Fine Arts/World Language requirement

 Graduation:
 Fine Arts/World Language requirement

 College Prep:
 1 year World Lang. (e) requirement

French 1 is a college-preparatory course that introduces students to the French language and culture. The course emphasizes basic communication skills, vocabulary building, reading and writing. A beginning pen pal program and active cultural experiences are included if possible. Students are able to relate to French teenagers' life through different media. French Internet sites are explored, and French is spoken a great deal of the time.

P-French 2	Course #3520
Level:	9-12
Length:	Year (10 credits)
Prerequisite:	French 1 or teacher recommendation
Graduation:	Fine Arts/World Language requirement
College Prep:	1 year World Lang. (e) requirement
Students will cont	inue to communicate more fully in oral and written

Students will continue to communicate more fully in oral and written French. Students are able to expand their communication skills through interviews, oral presentations and an e-mail correspondence with French classes in the France is possible. They also plan and write (in French) an itinerary for a trip to Paris. A grade C or better in previous French class will assure greater success in this class. Student speak French most of the time.

P-French 3	Cour	se #3	530
Level:	10-12		
Length:	Year (10 credits)		
Prerequisite:	French 2 or teacher recommendation		
Graduation:	Fine Arts/World Language requirement		
College Prep:	1 year World Lang. (e) requirement		

French 3 challenges students to speak, read and write at more advanced levels. Students "visit" French-speaking areas such as Africa, Canada, France, Switzerland, and Tahiti. They read about and discuss the culture and literature of these areas through various sources including the Internet. They write a journal and complete individual and group multimedia projects. Various contemporary folk and fairy tales are also part of the course of study. Students are encouraged to speak and write with greater fluency and detail. French is spoken most of the time in class.

P-French 4	Course #3540
Level:	10-12
Length:	Year (10 credits)
Prerequisite:	French 3 or teacher recommendation
Graduation:	Fine Arts/World Language requirement
College Prep:	1 year World Lang. (e) requirement

French 4 challenges students to speak, read and write at an advanced level and to learn more complex grammatical construction. Students read short stories, plays and other French literature and write short compositions to gain language ability and literary understanding. Instruction only is almost exclusively in French with minimal clarification in English. Students complete individual and group projects using multimedia technology and continue learning about French culture, geography and history from various sources. A grade of C or better in previous French class will assure greater success in this class.

Course

 P-Spanish 1

 #3610
 Level:
 9-12

 Length:
 Year (10 credits)

 Prerequisite:
 None

 Graduation:
 Fine Arts/World Language

 requirement College Prep:
 1 year World Lang. (e)

 requirement
 Preserver.

Spanish 1 is an introduction to Spanish emphasizing basic vocabulary, grammar and sentence structure. Learning the basics of speaking and writing in Spanish could be integral to securing a better job in the future. It can also make travel in Spanish-speaking countries more enjoyable.

P-Spanish 2	Course #3620
Level:	9-12
Length:	Year (10 credits)
Prerequisite:	Spanish 1, or Spanish 1 in 8th grade or Spanish for Spanish Speakers I or instructor approval
Graduation:	Fine Arts/World Language requirement
College Prep:	1 year World Lang. (e) requirement

Spanish 2 students continue to practice speaking, reading, and writing in Spanish. They learn some practical conversational skills as well as learn about some countries and cultures where Spanish is spoken. Students may be asked to keep journals with short entries and incorporate what they have learned into short essays. A grade C or better in previous Spanish class will assure greater success in this class.

P-Spanish 3	Course #3630
Level:	10-12
Length:	Year (10 credits)
Prerequisite:	Spanish 2 or Spanish for Spanish Speakers II or instructor approval
Graduation:	Fine Arts/World Language requirement
College Prep:	1 year World Lang. (e) requirement

Students are challenged to read, write, and speak at more advanced levels. They read short stories and excerpts from Hispanic literature. They also write original compositions and conversations in Spanish, which may include informal productions of skits or the keeping of a journal. Hispanic culture is also interwoven into the course for greater cross-cultural understanding. Some new grammar is introduced and previously learned grammar is strongly reinforced. A grade C or better in previous Spanish class will assure greater success in this class.

P-Spanish 4	Course #3640
Level:	10-12
Length:	Year (10 credits)
Prerequisite:	Spanish 3 or Spanish for Spanish Speakers II or
	instructor approval
Graduation:	Fine Arts/World Language requirement
College Prep:	1 year World Lang. (e) requirement
Spanish 4 will	continue expanding students' ability to communicate in
Spanish Studen	te will continue increasing their vocabulary and reading and

Spanish. Students will continue increasing their vocabulary and reading and writing skills. They will also continue to learn more about the culture of the countries where Spanish is spoken.

P-Advanced Place	cement (AP)Spanish Language	Course #3642
Level:	9 – 12	
Length:	Year (10 credits)	
Graduation:	Fine Arts/World Language requi	rement
College Prep:	1 year World Lang. (e) requireme	ent

This college-level course emphasizes Spanish for active communication, covering oral skills, reading comprehension, grammar, and composition. It develops useful language skills that can be applied to various activities and disciplines. It focuses on: comprehension of formal and informal spoken Spanish; acquisition of vocabulary; accurate reading of newspapers, magazines, and modern Spanish literature, composition of expository passages, and expression of ideas orally with accuracy and fluency. It provides extensive training in the organization and writing of compositions. A mandatory parent meeting is held Spring Semester.

P-Spanish for Spanish Speakers I		Course #3670
Level:	9-12

Geometry Support is an elective course designed for students currently enrolled in Geometry who need additional support.

P-Algebra 2	Course #4690
Level:	9-12
Length:	Year (10 credits)
Prerequisite:	Algebra 1 or Intensified Algebra and Geometry
Graduation:	1 year Math requirement
College Prep:	Math (c) requirement

Algebra 2 is a second year course in algebra that reviews and broadens algebraic concepts introduced in Algebra 1 and Geometry. It meets university requirements and includes linear and quadratic equations, graphing, progression, real and complex number systems, relations and functions (exponential, logarithmic, and polynomial). A grade C or better in previous math classes will assure greater success in this class.

P-Pre-Calculus	Course #4710
Level:	10-12
Length:	Year (10 credits)
Prerequisite:	Algebra 2 grade C or better
Graduation:	1 year Math requirement
College Prep:	Math (c) requirement
Pre-Calculus is a c	course that includes a semester of trigonometry, and a
a a waa a a ka waa ƙ waa a ƙ	analysis Chudias of functions, languithers, analytical

semester of math analysis. Studies of functions, logarithms, analytical geometry, mathematical inductions, and limits prepare students for Calculus. Students enrolled in this class are encouraged to own a graphing or scientific calculator. A grade C or better in previous math classes will assure greater success in this class.

Course #4720

P-Advanced	Placement (AP)	Calculus A/B
Laval	40.40	

	10-12
Length:	Year Class (10 credits)
Prerequisite:	Pre-Calculus grade C or better
Graduation:	1 year Math requirement
College Prep:	Math (c) requirement

Calculus A/B is a college level course that is designed for the motivated math student who will likely pursue a career in a math-related field. Calculus extends the study of limits, functions and derivatives, considers applications of the derivative, including velocity and optimization, studies of integration including exponential functions, and applications of the definite integral, including volumes of solids of revolution and areas of surfaces of revolution. The course prepares students to take the Advanced Placement examination. A mandatory parent meeting in the spring prior to the course will be scheduled. Students may choose to take Calculus without the AP distinction. A grade C or better in previous math classes will assure greater success in this class.

P-Statistics		Course #4740
Level:	11-12	
Length:	Year (10 credits)	

Length:	Year (10 credits)
Prerequisite:	Algebra 2
Graduation:	1 year Math requirement or elective credit
College Prep:	Math (c) requirement

Statistics is a college prep course designed for juniors and seniors who have completed Algebra 2 and would like to learn how to collect, analyze, and interpret data correctly. The basic structure of the class will involve group work and projects such as surveys, and analysis of the lottery, gambling probabilities, and business and marketing applications. Students enrolled in this class are encouraged to own a graphing calculator or one that does statistical calculations. A grade C or better in previous math classes will assure greater success.

P-AP Statistics	Course #4750
Level:	11–12
Length:	Year (10 credits)
Prerequisite:	Algebra 2
Graduation:	1 year Math requirement or elective credit
College Prep:	Math ("c") requirement. Student will receive an
• •	extra grade point bonus for grades A-C

AP Statistics is designed for college bound students who have completed Algebra II. This course is intended to explain the uses of statistics and its role in processing information contained in reports, scientific journals, political coverage, and even the daily newspaper. Students will be encouraged to use technology to relieve the drudgery of formula crunching, and instead students will spend more time selecting a proper model, describing and interpreting data, and displaying the results. Course scope and sequence will prepare students for the AP exam in May. A grade C or better in previous math classes will assure greater success in this class.

Applied Career Mathematics		<u>urse #4605</u>
Level:	11-12	
Length:	Year (10 credits)	
Prerequisite:	Algebra 1 or Intensified Algebra; Geom	netry 1
Graduation:	1 year Math requirement	-

Applied Career Math is a course that integrates hands-on laboratory activities, cooperative learning opportunities and video programs with text materials that teach important math concepts by emphasizing problemsolving and decision-making through workplace applications. The students will investigate, construct and apply algebra, geometry, statistics and probability skills through contextual hands-on learning. This course uses the fundamental tools of basic arithmetic to solve every day business problems.

P-Financial Algebra		Course #4643
Level:	10-12	
Length:	Year (10 credits)	
Prerequisite:	Algebra 1	
Graduation:	1 year Math requirement	
Financial Algebra	a is a mathematical modeling co	ourse that is algebra-
based, applicatio	ns-oriented, and technology-de	pendent. The course
addresses colled	e preparatory mathematics top	ics from Advanced

addresses college preparatory mathematics topics from Advanced Algebra, Statistics, Probability, Pre-Calculus, and Calculus under seven financial umbrellas: Banking, Investing, Credit, Employment and Income Taxes, Automobile Ownership, Independent Living, and Retirement Planning and Household Budgeting. It provides students a motivating, young- adult centered financial context for understanding and applying the mathematics they are guaranteed to use in the future, and is thusly aligned with the recommendations of the Common Core State Standards.

<u> P-Algebra II – Pre</u>	-calculus	Course#4702
Level:	10-12	
Length:	Year Class (10 credits)	
Prerequisite:	Successful completion of Algebra I	& Geometry
Graduation:	I year Math requirement	
College Prep:	Math © requirement	
Upon completion of	f this course students are prepared to	o take AP Calculu

Upon completion of this course, students are prepared to take AP Calculus and other higher-level math courses. This course compacts the common core algebra 2 standards with the common core (+) pre-calculus standards. Function concepts covered includes polynomial, rational, exponential, logarithmic, and trigonometric functions along with transformation of functions using a parent function. Additional content covered includes conics, analytic trigonometry, complex number theory (DeMoivre's Theorem), introduction to vector theory, matrices and determinants, sequences, series, binomial theorem, counting principles, probability, and statistics. Finally, the course assignments will emphasize use of the "Eight Mathematical Practices". Students will make sense of problem situations, solve higher order thinking problems, derive key theorems, use technology where appropriate, work in groups to develop teamwork skills, and demonstrate procedural fluency in their responses.

Physical Education

9 th Grade Core Physical Education		Course #5750
Level:	9	
Length:	Year (10 credits)	
Prerequisite:	None	
Graduation:	9th grade Physical Educat	ion requirement
Physical Education	on is required in Grade 9. All Fr	eshman Physical
Education studen	ts take the California Physical I	Performance and Health
Related Test duri	ng the third quarter. Some othe	r things covered are:
anian tatian in house	al fitness field comes weight	4

orientation, physical fitness, field games, weight training, plyometrics, wrestling, aquatics, various team sports, steroid and nutrition education. Students must complete the required standards and benchmarks (9th grade core Physical Education).

10 th Grade Core Pl	nysical Education	Course #5760
Level:	10	
Length:	Year (10 credits) can be repeated	
Prerequisite:	9 th Grade Core Physical Education	
Graduation:	10th grade Physical Education requi	irement
The tenth grade program builds on the basic foundation of the ninth grade		

core program. Students must complete the required standards and benchmarks for the 10th grade core P.E. program.

Advanced Athletic	Course #5662
Level:	10-12
Length:	Semester (5 credits)
Prerequisite:	PE 9
Graduation:	Elective credit
Advanced Athletic	Skills course will focus on the in and out-of-season

physical training for the student athlete and is designed to help improve performance and minimize the potential for injury. Training will include progressive plyometric techniques, agility drills, flexibility exercises and core strengthening techniques. Health and nutritional issues specific to the student athlete will also be addressed.

Baseball/Softbal	I Tactics	Course #5668
Level:	10-12	
Length:	Semester (5 credits); repeat for cre	edit
Prerequisite:	None	
Graduation:	Elective credit (Does not replace of	ore PE classes)
Students will learn proper technique and tactics for baseball/softball,		
including conditioning, weight training, defensive, offensive, base		

Basketball Techniques and Tactics Course #5674 Level 10-12

Length:Semester (5 credits); repeat for creditPrerequisite:PE 9; teacher recommendationGraduation:Elective credit

running and hitting skills.

Basketball Techniques and Tactics is a designed physical education elective focusing on basketball. Throughout the semester, students will learn and practice the game of basketball with the goal of learning lifelong athletic skills through basketball participation. In addition, students will learn the history of basketball to increase knowledge base.

Bowling Fundamentals		Course #5670
Level	11-12	
Length:	Semester (5 credits)	
Prerequisite:	PE 9 and PE 10; transport	ation waiver; and
	teacher recommendation	
Graduation:	Elective credit	
Bowling Fundamentals will be an introduction to the discipline of Physical Education through the sport of bowling. The course will include a historical examination, styles of play and strategies of the sport. Students will strive to develop basic skills including approach, types of deliveries, strategy, etiquette, and league play associated with the sport of bowling. Adaptations related to gender, age and physical conditioning will be addressed.		
Sculpt and Tone/Fitness in Motion Course #5794		
Level:	10-12	
Length:	Semester (5 credits); repe	at for credit
Prerequisite:	PE 9 and PE 10	
Graduation:	Elective credit	
Students will be able to participate in aerobics, Tae Bo, yoga, walking,		

Students will be able to participate in aerobics, Tae Bo, yoga, walking, running and body shaping. Students will focus on setting personal fitness goals by tracking progress through a personal portfolio.

Team Sports	Course #5790
Level:	10-12
Length:	Semester (5 credits); repeat for credit
Prerequisite:	PE 9 and PE 10
Graduation:	Elective credit
Students in team	sports develop skills to play volleyball, football, softball,
ultimate Frisbee, s	soccer and basketball.

Walking for Fitne	ss Course #5676	
Level:	10-12	
Length:	Semester (5 credits); repeat for credit	
Prerequisite:	PE 9 and teacher recommendation	
Graduation:	Elective credit	
This is a low-imp	act cardiovascular fitness class designed to improve	

This is a low-impact cardiovascular fitness class designed to improve overall fitness, promote weight management, improve nutritional habits, and explore the benefits of walking as an aerobic activity.

Strength and Fit	tness	Course #5792
Level:	10-12	
Length:	Semester (5 credits); repeat for	credit
Prerequisite:	PE 9 and PE 10	
Graduation:	Elective credit	
Students focus o	n toning and building muscle through	weight training,
e.,		

fitness, and speed development.

P-Athletics Management		Course #5660
Level:	10-12	
Length:	Year (10 credits); repeat for credit	
Prerequisite:	Teacher recommendation	
Graduation:	Elective credit	
College Prep:	Elective (g) requirement	
Athlatics Managor	nont is a course that introduces stude	nte to the skille

Athletics Management is a course that introduces students to the skills necessary for success in the athletic world. Students will learn steps necessary to run effective athletic programs and events. Course topics include philosophy, legal issues, game management including incorporation of technology such as press releases and webcasting, athletic field and physical plant management, and athletic survey of middle school, high school, college, and professional programs. Students will participate in a variety of projects throughout the course that will enhance the overall athletic and academic experience of the campus.

Yoga plus	Course #6007
Level	10-12
Length:	Semester (5 credits)
Prerequisite:	None
Graduation:	Elective credit
The YOGA portion	n of this course will focus on the basics of yoga, breath
work and stress	management. Yoga styles will include Bikram, Vinaysa
Flow and Hatha.	Non-religious voga philosophy and voga history will be

work and stress management. Yoga styles will include Bikram, Vinaysa Flow and Hatha. Non-religious yoga philosophy and yoga history will be introduced. The PLUS portion of this class will include visual and performance art explorations that emphasized health and wellbeing. Students will need a yoga mat and loose non-constrictive, non-revealing clothing.

Students must successfully complete a full year of both 9th Grade Core and 10th Grade Core Physical Education to meet the graduation requirement. After successful completion of these two years, students may select upper level P.E. classes as elective classes. The Liberty Union High School District Standards and Benchmarks are an integral part of the CORE Physical Education Classes. All Physical Education students are required to wear designated PE clothing. PE Clothes may be purchased at Walk Thru or in the Freedom Student Store.

Science: Life

P-The Living Eart	1	Course #5020
Level:	9-12	
Length:	Year (10 credits)	
Prerequisite:	None	
Graduation:	Life Science requirement	
College Prep:	Life Science lab (d) requirement	
The Living Earth co	urse, based on the Next Generation	Science
Standards, explore	s relationships between the living and	1 nonliving
components of Ear	th's systems. By using science and e	ngineering
practices, cross-cu	tting disciplinary concepts, and evider	nce from
experiments, resea	rch, and observations, students will le	earn how to
formulate questions, evaluate claims, and develop models to make		

formulate questions, evaluate claims, and develop models to make interpretations and investigate the natural world. Topics will include: Ecosystems Interactions and Energy, History of Earth's Atmosphere: Photosynthesis and Respiration, Evidence of Evolution, Inheritance of traits, Structure, Function, and Growth (from cells to organisms) and Ecosystem Stability and the Response to Climate Change. The Living Earth course is replacing the Biology course and is required for graduation.

P-Advanced Placement (AP) Biology		Course #5010
Level:	11-12	
Length:	Year (10 credits) Student w grade point bonus A = 5 or	
Prerequisite: and Chemistry	Successful completion of or Anatomy/Phys	
Graduation:	Fulfills 1 year of the 2 year	science requirement
College Prep:	Life Science lab (d) require	ement
AD Biology is a c	allaga loval course designed f	for the advanced science

AP Biology is a college level course designed for the advanced science student who is likely to pursue a career in a science-related field. This course is the equivalent of a college introductory biology course and completes preparation for the Advanced Placement Biology examination. The three general areas covered in this course are Molecules and Cells, Heredity and Evolution, and Organisms and Populations. AP Biology expands on knowledge that the students have gained in their previous science courses. This course includes extensive use of modern biological research technology. A mandatory parent meeting is held in the Spring Semester.

P-Biotechnology Course		#5041
Level:	11-12	
Length:	Year (10 credits)	
Prerequisite:	Completion of one year of Chemistry	
Graduation:	Elective credit	
College Prep:	Life Science lab (d) requirement	

The ROP biotechnology course is designed to prepare and interest students in basic laboratory techniques and introduce them to concepts and beginning competency in the field of bioscience. The bioscience industry includes agricultural biotechnology and pharmaceutical companies, as well as clinical and research laboratories in hospitals, universities, government, and independent settings. The course is divided into four parts. Each part will build on and interact with the others. Students will learn how to document and record their work in a research notebook. Students will begin to use and analyze research publications and popular scientific literature (printed materials and Internet search). This course will give students a head start in post-secondary microbiology, genetics molecular biology, biochemistry, and immunology courses.

	Physical Science requirement			
College Prep:	Phys. Science lab (d) requireme	ent		
Chemistry in the Earth System is a year-long course designed to				
incorporate phenomena-based learning with real-world applications. It				
integrates the concepts of Chemistry and Earth science linking cross-				
cutting concepts to make them more relevant to the students. The course is				

aligned with the Next Generation Science Standards (NGSS) that have been adopted by our state. The course encompasses the following major areas in a storyline format: Combustion, Heat and Energy in the Earth System, Atoms, Elements, and Molecules, Chemical Reactions, Chemistry of Climate Change, and the Dynamics of Chemical Reactions and Ocean Acidification. The laboratory portion of the course will correlate with the instructional units rounding out the course.

 P-Advanced Placement (AP) Chemistry
 Course #5160

 Level:
 11-12

 Length:
 Year (10 credits)

 Prerequisite:
 Chemistry and Algebra 2

 Graduation:
 Physical Science requirement

 College Prep:
 Phys. Science lab (d) requirement

 AP Chemistry is a rigorous college level Chemistry course designed to

prepare students to take and pass the AP Chemistry exam. The class emphasizes concepts of chemistry, mathematical problem solving skills applied to chemistry problems, critical thinking skills utilized in class and in written assignments, and hands-on experiences. Laboratory activities are a major part of this class. A mandatory parent meeting will be held in the Spring Semester.

Search for Extraterrestrial Life (SETL)		Course #5005
Level:	11-12	
Length:	Year (10 credits)	
Prerequisite:	Biology/The Living Earth, Geometry	ry
Graduation:	Elective credit	•

Where in the solar system would you go to find alien life? Once you've identified a location, how would you determine that life existed there? The goal of this course is to utilize a team-based, collaborative framework to develop a spacecraft that would be capable of traveling to a non-earth solar system body to test for the presence of life. Students will apply their knowledge of biology, earth science, engineering, design and mathematics to achieve this goal in an interactive environment. This course was developed in partnership with the Patriots Jet Team Foundation.

P-Forensic Science	ce Course #5125
Level:	11-12
Length:	Year (10 credits)

Forensic science is	s a broad survey of the scientific skills, disciplines and
training used by f	forensic specialist in law enforcement, business and
industry.	

P-Physics in the Universe		Course #5165
Level:	10-12	
Length:	Year (10 credits)	
Prerequisite:	Geometry (Algebra 2 preferred)	
Graduation:	Physical Science requirement	
College Prep:	Phys. Science lab (d) requirement	
The sequence of t	his course is based on a specific storylir	a about

The sequence of this course is based on a specific storyline about renewable energy and climate change. Both physical science and earth science emphasize how discoveries in their discipline influence society, but the two differ in which aspects of society they focus upon. Physical science emphasizes society's use of technology while Earth and space science emphasize humanity's impact on natural systems and the other way around, which included California's Environmental Principles and Concepts.

Students will explore phenomena such as humanitarian food drops, thunderstorms & weather, geothermal vents, electricity production, earthquakes, and a teacher-chosen phenomenon dealing with the electromagnetic spectrum.

P-Advanced Place	cement (AP) Physics 1	Course
<u>#5185</u> Level:	10-12

requirement

Advanced Placement Physics is a traditional college-level introductory course that provides a systematic understanding of the fundamental principles of physical phenomenon that governs chemical, biological, terrestrial and astronomical processes. The course provides a foundation for the intensive studies of most of the other sciences and for an understanding of many technological applications of sciences. Major areas of content include Newtonian mechanics, work and energy, wave motion, light and optics, electricity and magnetism, heat and thermodynamics, fluid mechanics, and atomic and nuclear physics. Science attitudes, thinking processes, and skills in applications of science technology to social problems and personal decision-making are emphasized. The course qualifies as a laboratory science in meeting UC entrance requirements. This course is an elective, but may be used to fulfill one year of the twoyear science requirement. A strong background in algebra and trigonometry, especially manipulating functions, is needed. The course prepares students to take the Advanced Placement examination. A mandatory parent meeting will be held in the Spring Semester.

Social Science

Course#5276

Course

Course

African American HistoryLevel:10-12Length:Year (10 Credits)Prerequisite:US HistoryGraduation:Elective Credit

In the first semester, the course studies the history of African Americans from the beginning of the Atlantic slave trade to the passage of the 13th Amendment. This history includes the experiences of free and enslaved African Americans, and the impact of race-based chattel slavery on African Americans and on African history. In the second semester, the course studies the history of African Americans from the period immediately following the abolition of slavery through the Civil Rights and Black Power Movements, ending with the assassination of MLK. This history includes the social, economic, and political development of the African American identity, including the securing of equal rights and the emergence of black pride and black power in the 20th century.

Ethnic Studies	
#5230	
Level:	9-12
Length:	Year (10 Credits)
Prerequisite:	None
Graduation:	Elective Credit

Ethnic Studies aims to empower all students to engage socially and politically and to think critically about the world around them. Students will learn about the experiences of people of color in the United States in order for students to construct counter-narratives and develop a more complex understanding of the human experience. This course will focus on the experiences of African Americans, Asian Americans. Chicanas/os and Latinas/os. Native Americans. and other underrepresented demographics in the United States. We will analyze their contributions to the United States as well as their unique histories and quest for equality throughout our nation's history. The major purpose of this course is to educate students to be politically, socially, and economically conscious about their personal connections to local and national history. Ethnic Studies focuses on themes of social justice, social responsibility, and social change. The course spans from past to present, from politics to social reform, allowing students to identify similar social patterns and universal qualities present in other societies, including their own. This course will also include an Identity Section where students will consider concepts related to their own personal, group, and/or national identify. (Adapted from LA Unified, Vacaville, and Berkeley Department of Ethnic Studies)

P-World Cultures and Geography			Cour	se
#5255 Level:	9			
Length:	Year (10 credits)			
Prerequisite:	None			
Graduation:	Elective credit			
College Prep:	History (a) requirement			
			e	

This course enhances student's understanding of the global environment in which they live. During the year-long course, emphasis is placed on students acquiring knowledge of world cultures, world problems, basic geography, human migration, the humanities, critical thinking skills, reading strategies, study skills, vocabulary development, writing ability, and speaking for the purpose of debate and presentation. The program integrates a variety of teaching methods that requires students to engage in both group and individual learning.

P-World History		
#5240 Level:	10	
Length:	Year (10 credits)	
Prerequisite:	None	
Graduation:	World History	
requirement Col	lege Prep: History (a)	
requirement		

Students have an opportunity to compare and contrast philosophies, languages, literature, religion and the arts of world cultures. The students become more knowledgeable about the effects of geography upon the political and economic development of cultures.

influences in the	e founding of the United States and the caused and

P-American Government		Course #5330
Level:	12	
Length:	Semester (5 credits)	
Prerequisite:	None	
Graduation:	American Government requirement	nt
College Prep:	History (a) requirement	
American Covern	ment is a semester course designe	d to help studer

consequences of the Civil War.

American Government is a semester course designed to help students develop an understanding of the institutions of American government. Students examine and compare and contrast the development and processes of governments in both the United States, and to a lesser extent, the world. Students also examine related major issues of the world today. Emphasis is placed on the development of social participation skills and civic responsibility.

P-Economics		Course #5335
Level:	12	
Length:	Semester (5 credits)	
Prerequisite:	None	
Graduation:	Economics requirement	
College Prep:	Elective (g) requirement	

This semester course is designed to deepen students' understanding of the economic problems and institutions of the nation and world in which they live. It will provide them with the knowledge and skills needed to make reasonable decisions on economic issues as citizens, workers, consumers, business owners, managers, and members of civic groups. The course is primarily a course in social science enriching students' understanding of the operations and institutions of economic systems rather than a course in household or business management.

P-World Studies Program		Course #1429
Level:	10

This class prepares students to take the AP Exam in May as well as meet the graduation requirement of 5 units in Economics. The course will emphasize reading of economic theory as well as essay writing in specific content areas related to not only the capitalist system but also other economic systems as necessitated by the College Board. Students passing the AP Exam will receive advanced placement upon entering college. A mandatory parent meeting is held Spring Semester.

P-Psychology Within Society Course		Course	
#5396 Level:	10-12		
Length:	Year (10 credits)		
Prerequisite: N	Prerequisite: None		
Graduation:	Elective credit		
College Prep: Elective (g) requirement			
This entry-level course introduces students to the systematic and			
scientific study of the behavior and mental processes of individuals			

scientific study of the behavior and mental processes of individuals and group behavior. Students will compare and contrast the major psychological paradigms, evaluate historical and sociological determinants, and know and perform various tests, measures, assessments. Recommended for Professional Human Development Academy participants, but open to all interested students

P-Advanced Placement (AP) Psychology		Course #5397
Level:	11-12	
Length:	Year (10 credits)	
Prerequisite: N	one	
Graduation:	Elective credit	

College Prep: Elective (g) requirement

AP Psychology covers the equivalent of a college freshman Psychology course and prepares students to take the Advanced Placement examination. The students investigate and acquire knowledge in the basic foundations of scientific psychology. Through varied modalities, students compare and contrast the major schools of thought from a historical and sociological perspective. The students examine different methods of test, measures, and assessment with emphasis on bias related issues: cultural, ethnic, genre, contemporary controversies are explored. The students analyze ethical concerns: objectively and subjectively. Particular emphasis is placed on proper APA writing format as well as extensive reading, both primary source and supplemental literature, essay writing, intense group interaction, and individual presentations involving critical reasoning skills. The students explore possible career choice within the psychological community and evaluate current trends, which may affect future occupations. A mandatory parent meeting is held in the Spring Semester.

P-Advanced Placement (AP) Human Geography Course #5397

Level:	10-12
Length:	Year (10 credits)
Prerequisite: N	one
Graduation:	Elective credit
College Dreps H	liatam, (a) na autina ma

College Prep: History (g) requirement

Human Geography is the study of how and why people move and how they use the earth. The purpose of the AP course in Human Geography is to introduce students to the systematic study of patterns and processes that have shaped human understanding, use, and alteration of Earth's surface. Students employ spatial concepts and landscape analysis to examine human social organization and its environmental consequences. They also learn about the methods and tools geographers use in their science and practice.

English Learners

Designated classes are specially designed for English Learners, usually Level 3 and sometimes Level 4. These courses meet the state required standards for a particular subject area and earn the same number of credits toward graduation.

Designated classes focus not only on the particular subject but also focus on English Language development skills that will prepare the student to successfully transition into the mainstream curriculum. Designated courses are open to students in grades 9-12. Designated class offerings change on a yearly basis. More information can be obtaining through the Counseling Department in regard to what courses are currently being offered.

We offer an ELD four-block of classes designed for English Learners at CELPAC Level 3 or below. It is open to any grade level, but usually students in grades 9 or 10 are placed in this block of classes. Students who successfully complete these four classes will earn credit for two years of English requirements (20 credits) and also earn 20 elective credits.

Special Education

Special education staff meet with other school personnel and parents to decide appropriate high school supports and services for students with disabilities. Each student's disability is reviewed with placement and services based on the student's unique specific needs. All placements and services must have approval of the IEP team and an Individualized Educational Plan must be written before students receive any special education support or related services.

The Excel Program provides services to students with special needs working towards earning a high school diploma through the instructional support model. The instructional support may be provided to students within a general or special education setting based on the student's level of need and goals. Examples of instructional support include collaboration between general and special education teachers, co-taught classes with both general and special education teachers providing instruction, special education classes utilizing modified core curriculum, and specialized remediation classes targeting a specific area (i.e. reading, math, transition).

The Life Skills Program is designed to support students receiving specialized academic instruction with an emphasis on functional academics. Core instruction includes: mathematics, language arts, science, health, and social science. Curriculum is delivered based on IEP goals and modified to accommodate a variety of learning styles and abilities. Student engagement and making sense of their world is key in instruction. Skills developed include: money management, telling time, measurement, and reading and comprehending functional text. Additional emphasis is placed on developing social and independent living skills and incorporating community based instruction providing students with real life experiences. Student participate in general education classes as determined by their IEP teams. Upon completion of the program, students participate in Commencement and are awarded a Certificate of Completion.

The Matrix Program is designed to support students who require additional social-emotional and mental health support. Students receive instruction in a counseling enriched small group environment. Student may have one class or several classes in the Matrix Program depending on the student's level of need. Group or individual counseling is embedded in the program.

Non-Departmental

Health	Course #2700
Level:	9-12 (Grade 10 recommended)

Prerequisite:	Students have successfully completed the AP	
-	Seminar course	
Graduation:	Elective Credit	
College Prep:	Elective (g) requirement	
AP Research the	e second course in the AP Can	stone experience allows

AP Research, the second course in the AP Capstone experience, allows students to deeply explore an academic topic, problem, issue, or idea of individual interest. Students design, plan and implement a yearlong investigation to address a research question. Through this inquiry, they further the skills they acquired in the AP Seminar course by learning research methodology, employing ethical research practices, and accessing, analyzing, and synthesizing information. Students reflect on their skill development, document their processes and curate the artifacts of their scholarly works through a process and reflection portfolio. The course culminates in an academic paper of 4,000-5,000 words (accompanied by a performance, exhibit or product where applicable) and a presentation with an oral defense
