

Distance Learning Assignment

Jazz Band 1

Week of 5/11/20-5/18/20

Due: Monday, May 18 at 11:59 PM

This Week's Assignment

- Join your appropriate class(es) on SmartMusic if needed
- Practice and record all of **Salsa Rico**
 - If possible, submit your recording using headphones so there are no extra sounds from the backing tracks or metronome in your assignment.
 - SmartMusic may not work with headphones (I know, it's a pain, but that's what we have to work with). If your headphones do not work, submit your assignment with no backing tracks.
 - This week's assignment is worth 50 points based on your performance only (no points for submitting the assignment like two weeks ago)
- Continue to practice **Salsa Rico** using the Practice Only files in the assignments. Prepare for official recordings for the end of the year.
 - These recordings are going to come up sooner than you think, likely in the next two weeks. Take your time and practice your parts as much as you can so you can submit the best recording you can.
- Unfortunately, we will not be able to record any/all of the pieces we were practicing before the Shelter in Place. SmartMusic granted the nation free access to their whole library, which does not contain our pieces. This also means that I cannot upload any copies of our music that I typed into Sibelius. I will explore an option for us to record one of our tunes separately.

What you need:

- A device that can access the internet, like a computer or tablet It will need access to your microphone. Cell phones do not work!
- Google Chrome. SmartMusic is only compatible with Chrome, not Firefox, or Safari. I'm not sure about Internet Explorer, or any of its variants.
- A set of headphones is highly recommended from here until we finish the school year (though these may not work).

****See past assignments for instructions to log in to SmartMusic if needed****

Do NOT send a video on YouTube! If you have any problems logging in to SmartMusic, or experience any other issues with the assignments, e-mail me at kumagaij@luhsd.net. I will help you troubleshoot your issues as best as I can.
