Erik Volta, District Superintendent

Principal’s Message

Student success is best achieved by the student, parents and school staff working together to provide the best education possible. The purpose of the course catalog is to assist parents and students in the planning of the student’s educational career. Students please make your selections carefully. We encourage parents to review all contents in this catalog, as the information presented will assist you in preparing your student for academic success. As our staffing allocation is based upon students’ selections, it may not be possible to deviate from your course selections at a later date.

We are very proud of the educational program at Freedom High School. Once a student enrolls at FHS, they are assigned to a building where they remain throughout high school. Each building has a designated assistant principal, a counselor and a secretary. The goal of this model is to provide consistency for students and to work collaboratively to ensure the best educational support possible is provided. This helps students connect with other students as well as staff making smaller learning communities within a larger setting.

Students may also opt to join one of three academies. The academy a student chooses should be based on their interests and aspirations after completing high school. As you will notice in the beginning of this catalog, students have a choice of a variety of academy majors. This is to guide students through choosing electives related to majors. It is our hope that by the junior year, students will choose an academy emphasis and a major that supports their career and/or personal interests. Please notice all academies address the needs of all learners from college preparatory, to other post-secondary options.

Freedom High School’s 8-period schedule ensures the success of the academic program in a number of key ways:
[1] It allows students to enroll in an average of seven classes a year and to earn, in four years, total credits beyond the required 270.
[2] It allows students the opportunity to insert a period of study hall into the school day, an academic practice common in college.
[3] It allows students who need additional academic support the opportunity to insert a variety of support classes into the school day.
[4] It allows students who are credit deficient the opportunity to make up credits without leaving the Freedom school community.

The faculty and staff at Freedom High School strive to provide the best possible education for our students. We all need to continue to work together to ensure students reach their full potential. In order to make this happen, daily attendance, hard work and promptness to all classes are necessary for success. We hold high expectations, both in behavior and academics, for all of our students.

Kelly Manke

Studies show that students who are invested in their school outside of the classroom have a tendency to perform better academically. One of the best ways to invest in your school community is through membership in a school club. There are many choices. Take some time to investigate our club offerings and meet the club advisors.

Freedom values creating the safest possible environment for our students; however, risk of physical injury exists when participating in extracurricular activities. To lessen this risk, all student athletes must have completed district physical forms before the first day of tryouts. In addition, all completed physical forms must be dated after July 1st of the school year as prior dates are not valid.

We encourage parents to sign up as a driver as many games are not covered for bus transportation. Please see the Athletic Director or your coach for more information. Please feel free to contact any of our coaches at their email addresses on our school webpage.

Finally, please come to our athletics preseason nights which offer valuable information and help make our athletic programs the best they can be.

After the start of sophomore year, student athletes should complete online registration at [www.eligibilitycenter.org](http://www.eligibilitycenter.org) For ACT and SAT college tests use “9999” code, this sends official scores directly to the NCAA Eligibility Center.

The NCAA is made up of three classifications that are known as Divisions I, II and III. Each division creates its own rules governing recruiting and eligibility. Student athletes should download (pdf): A Guide for the College Bound Student Athlete. For more information regarding eligibility, NCAA customer service is 317-917-6222.
Core Program
Students are randomly enrolled in one of four core building communities (B, C, D or E) and remain throughout their tenure at FHS. The building communities consist of an assistant principal, counselor and secretary. This structure allows students to experience a smaller, more personal educational community while attending FHS.

Academy Program
There are currently three academies at FHS, each with a particular focus and career paths defined by majors. A major consists of a series of related courses within a career orientation. Enrollment in an academy is voluntary for students and staff. The goal is to provide the student, at the completion of the academy program, the option of entering the job market, enrolling at a community college or technical school, or pursuing collegiate studies with a clearly articulated academic background in a particular area. Students who complete an academy program are honored at graduation with a special designation, such as a stole, medallion or pin. Students are encouraged to explore our academy offerings and join the academy that best fits their personal interests and post-high school goals.

Students are encouraged to explore and learn about our academy offerings as freshmen and then join an academy during their sophomore or junior year, if they choose to do so. More academy information can be found on the following pages for our three academies: Professional Human Development (PHD); Communications; and Science Technology, Engineering and Mathematics (STEM).

ROP Program
Operated by the Contra Costa County Office of Education, the Regional Occupational Program is a primary source of career training for high school students in our county. State certified teachers, high tech equipment and a commitment to students ensure a positive learning experience. Located on high school campuses, ROP courses are part of a student’s regular high school schedule. Students complete 90-540 hours of sequenced curriculum and earn high school graduation credits and/or college units. Students can earn Certificates of Proficiency. Students must be a 16-year-old junior or senior to be enrolled in ROP courses. For more information, go to www.cocoschools.org/rop.

ROP Advantages
Students can use ROP courses to gain employment skills, explore a career field, get a head start on their college major, or “try out” a career choice through internships available in many classes. Many students use their newly acquired skills to work part-time after graduation to help pay college expenses.

ROP Goals
Students should leave an ROP class with the following skills:

- Demonstrate effective skills in oral and written communication.
- Demonstrate job skills and the behavior and work ethic valued by employers.
- Demonstrate the ability to be critical, complex and creative thinkers.
- Work productively both as individuals and as team members.
Are you interested in a career in the sciences, technology, engineering or mathematics?

Science, Technology, Engineering and Mathematics Academy

The STEM Academy offers a range of electives in the areas of mathematics, engineering, technology and the sciences. Our focus is student success in high school and beyond. We offer certificates in many major pathways. In addition, the STEM Club organizes our annual science and technology fair, field trips and activities to enrich student’s high school experience. The STEM Academy is currently coordinated by Mr. Clarke (P10) and Mrs. Bruins (C211)

STEM is for you!

To earn a STEM Certificate:
A. Complete the requirements in your chosen pathway
B. Meet the UC/CSU course requirements for graduation
C. Participate in community service activities
D. Present a senior project developed by you to the FHS community
E. Maintain a GPA of 3.0 in core and STEM related courses

Earning a STEM Certificate is as easy as ABC and these are the benefits:

- You will get special recognition on graduation day.
- You will meet the course requirements for the UC/CSU systems.
- Demonstrate your commitment to your academic success when you apply for a job or college
- You have nothing to lose and a lot to gain if you try to earn the certificate

Freedom High School’s Professional Human Development Academy (PHD) seeks students with a desire to make a difference in our world! Students selecting this academy will focus on careers that provide services to others in society. Elective courses in our academy give students the opportunity to have real life experiences. The PHD Academy prepares students to meet their future by exploring careers, offering exciting elective courses and allowing students to job shadow in their specific field or career.

Our Professional Human Development Academy elective courses focus on the following career choices…

Communications Academy

Our Mission:
The Communications Academy seeks to build a community of self-directed learners who specialize in communication, collaboration, and creative problem solving. Students view media with an intellectual and critical perspective, and they are encouraged to apply the skills they have gained from academy classes to higher education as well as future careers in design and communications.

Mass Communications/ Multimedia
- Animation
- Graphic Design I/II

- World Studies
- AP English 3/4
- Speech and Debate
- Poetry

To earn Academy honors upon graduation, a student must complete 70 units in their chosen pathway which includes the two capstone courses required in that major and a portfolio. In exchange, a student may opt to complete a large scale community outreach project their senior year (with academy approval).

Three years of world language classes are required in addition to the coursework listed above.
The following is a SAMPLE four-year plan meeting the minimum UC* and CSU entrance requirements:

</table>
As you read this catalog, carefully consider the following before selecting your courses for the next year:

1. **Graduation Requirements**: select the courses you need to meet district graduation requirements
2. **College Entrance Requirements**: select courses you need to meet college entrance requirements
3. **Career Plans**: select academy courses that can help you explore possible future career options
4. **Parent Approval**: talk with parents about your choices and have them sign the course request form
5. **Teacher Recommendation**: discuss course choices with teachers and get their recommendations

**Note**: courses repeated for a grade improvement may not earn credit. See your counselor for more information.

**Freedom High School Class Change Policy**
Student schedules may shift during the first ten days of the term to balance crowded classrooms. Requests for schedule changes will generally only be granted for the following reasons:

1. **Level Changes**: for example, Algebra 2 to Algebra 1 or Spanish 3 to Spanish 2.
2. **Graduation Requirements**: to makeup credits or fulfill graduation requirements.
3. **College Entrance Requirements**: to meet UC/CSU entrance requirements.

**FYI**: Teacher preference will **not** be considered when making schedule changes. Any courses dropped after three (3) weeks may result in a withdraw “F.”

**The Homework Center at Home: Tips for Parents**
When designing a home environment appropriate to your student’s learning style, consider the following:

1. Identify the physical space where studying and quiet reading can occur.
2. Secure the resources (e.g. paper, pens, dictionary, etc.) that your student will need.
3. Establish a routine time for homework and balance that with a routine time for play.
4. Promote effective time management skills (cover all subjects and long-range projects).
5. Encourage activities that require reasoning, computation, and problem-solving skills.
6. Encourage activities that require building things, fixing things, cooking, etc.
7. Monitor television and computer use and encourage viewing that is educational.
8. Two books some parents have said helped in raising adolescent children:

   **Raising Self Reliant Children in a Self-Indulgent World** Authors: Nelson and Glenn
   **What Kids Need to Succeed: Proven Practical Ways to Raise Good Kids** Authors: Benson, et al.
Beginning Art
Level: 9-12
Length: Year (10 credits)
Prerequisite: None
Graduation: Fine Arts requirement or elective credit
College Prep: VAPA (f) requirement
Donation: $20 per semester

A standards-based class for beginning art students. Previous art experience is not necessary. The students use a wide variety of materials to create art projects; e.g. pencils, charcoal, ink, colored pencils, acrylic paint, watercolors, chalk and oil pastels. Included in the first 18 weeks is an introduction to the elements and principles of art, contour line drawing, value and contrast, color theory, and painting. Included in the second 18 weeks will be painting, printmaking, an introduction to sculpture and graphic design, still life drawing, portraiture and perspective.

Intermediate Art
Level: 10-12
Length: Year (10 credits); repeat to 20 credits
Prerequisite: Beg. Art or instructor approval
Graduation: Fine Arts or elective credit
College Prep: VAPA (f) or elective (g) requirement
Donation: $20 per semester

A standards based class, Intermediate Art expands concepts and skills gained in Beginning Art, such as design concepts and harmonious relationships between line, value, color, texture, and form. The student will use a wide variety of techniques and materials to create individual projects. Examples of assignments are figure drawing, still life, self-portrait, company logo, advertising design.

Advanced Art
Level: 11-12
Length: Year (10 credits); repeat to 20 credits
Prerequisite: Beg. Art, Int. Art, or instructor approval
Graduation: Fine Arts requirement or elective credit
College Prep: VAPA (f) or elective (g) requirement
Donation: $20 per semester

Advanced Art expands student knowledge of harmonious relationships between line, value, color, texture and form gained in Beginning and Intermediate Art. Students use a wide variety of techniques and materials to create silkscreen designs, compact disc covers, company trademark designs, etc. Additionally, students utilize various research skills to produce written and oral projects pertaining to art history and aesthetics.

Advanced Placement (AP) Studio Art
Level: 10-12
Length: Year (10 credits)
Prerequisite: Beg. Art, Int. Art and Adv. Art
Graduation: Fine Arts requirement or elective credit
College Prep: VAPA (f) or elective (g) requirement
Donation: $20 per semester

AP Studio Art is a college level course that enables students to do college-level work in studio art while still in high school. AP Studio Art is not based on a written examination, but instead candidates submit a portfolio of work for evaluation at the end of the school year. Three sections of the portfolio are: A. Quality – the development of a sense of excellence in art. B. Concentration – a commitment in depth to a particular artistic concern. C. Breadth – a variety of experiences in the formal, technical, and expressive means available to an artist. Students may select to do either a Drawing, 2-D, or 3-D Portfolio. Students may repeat the course for each of the 3 portfolio selections. A mandatory parent meeting is held in the Spring semester.

Animation
Level: 10-12
Length: Year (10 credits)
Prerequisite: Beg. Art
Graduation: Fine Arts requirement or elective credit
College Prep: VAPA (f) requirement
Donation: $10 per semester

This course focuses on the computer applications of three dimensional design and animation. It introduces the basics of 3D animation and modeling using Animation Master. Students learn professional animation production techniques. Mastering these fundamental skills is essential for a career in the digital industry.

Advanced Animation
Level: 11-12
Length: Year (10 credits); repeat to 20 credits
Prerequisite: Animation and Beg. Art
Graduation: Fine Arts requirement or elective credits
College Prep: VAPA (f) or elective (g) requirement
Donation: $10 per semester

This course will further explore the techniques of traditional, and computer animation techniques to help students build a strong portfolio for college/career goals in the field of animation.

Graphic Design 1
Level: 9-12
Length: Year (10 credits)
Prerequisite: None
Graduation: Fine Arts requirement
College Prep: VAPA (f) requirement
Donation: $20 per semester

This is an introductory course for students interested in pursuing a career in Graphic Design. Students will be introduced to the vocabulary and history of design as it pertains to print based media. They will build skills in Adobe Photoshop and Illustrator 6 while creating CD covers, menus, posters, logos and illustrations.

Graphic Design 2 (Pending)
Level: 10-12
Length: Year (10 credits)
Prerequisite: Graphic Design 1
Graduation: Fine Arts or elective requirement
College Prep: VAPA (f) requirement
Donation: $20 per semester

This is an advanced level course for students interested in pursuing a career in Graphic Design. Students will further their knowledge of the vocabulary and history of design as it pertains to print based media.
**Introduction to Art History**

**Level:** 9-12  
**Length:** Year (10 credits)  
**Prerequisite:** None  
**Graduation:** Fine Arts or elective requirement  
**College Prep:** VAPA (“F”) requirement

This course is designed for any student that loves art, but feels they may not have the drawing or painting skills to feel comfortable in the traditional art program. This introductory art course will explore Art History from the Pre-Historic through Modern Times through art projects, research papers, slides, videos and group presentations. Students that are interested in architecture, archeology art criticism, painting, sculpture, geography and religious studies will enjoy this course. Students who may want to take AP Art History are encouraged to take this introductory course.

**Advanced Placement (AP) Art History**

**Level:** 10-12  
**Length:** Year (10 credits)  
**Prerequisite:** None  
**Graduation:** Fine Arts requirement or elective credit  
**College Prep:** VAPA (f) or elective (g) requirement

An intensive course for the student interested in studying the effect of art on our world. Students participate in critiques and discussions of masterpieces. A research paper and field trip to a museum or gallery facilitate the student’s understanding of art as history. Serious students with strong writing skills should be able to pass the advanced placement exam for college credit. Students will be charged a fee for A.P. Testing. A mandatory parent meeting is held in the Spring Semester.

**Photography I**

**Level:** 10-12  
**Length:** Year (10 credits); repeat to 20 credits  
**Prerequisite:** None  
**Graduation:** Fine Arts requirement or elective credit  
**College Prep:** VAPA (f) requirement  
**Donation:** $20 per semester

An introduction to photography that exposes students to a variety of technical skills related to control of cameras, exposure meters, light, film, developers, enlargers, and print papers. Communication skills related to translation of ideas and concepts into effective visual images and communication design concepts are also elements of the course. Students study advanced technologies related to photography.

**Photography II**

**Level:** 10-12  
**Length:** Year (10 credits)  
**Prerequisite:** Photography I  
**Graduation:** Fine Arts requirement or elective credit  
**College Prep:** VAPA (f) or elective (g) requirement  
**Donation:** $20 per semester

Photography II is an advanced photography course. This course will provide students with the opportunity to extend and advance their knowledge and skills in the field of photography. This course will familiarize the student with advanced photographic equipment, materials, methods and processes. It will require the student to produce digital images, using digital cameras, scanners, Photo Shop, Indesign, and other computer technology.

**Publications/Graphic Art (Yearbook)**

**Level:** 9-12  
**Length:** Year (10 credits); repeat to 40 credits  
**Prerequisite:** Application process  
**Graduation:** Fine Arts requirement

This course teaches basic production techniques which focus on copy writing, placement, layout design and continuity, photographic processes, advertising, marketing, sales promotion, and how to meet deadlines. Opportunities in photography journalism, computer graphics and graphic design will be provided. The final product is the school yearbook.

**Theater Arts I**

**Level:** 9-12  
**Length:** Year (10 credits)  
**Prerequisite:** None  
**College Prep:** VAPA (f) requirement

Theater Arts I provides an introduction to theater as a discipline and art form. Students will study theater history and explore the way in which theater affects and is affected by its societal context. Through theater games and improvisation exercises, students will develop confidence, trust, and voice and movement skills. As they give and receive criticism on performances in and outside of class, students will apply evaluative criteria and appreciate excellence in performance.

**Theater Arts II**

**Level:** 10-12  
**Length:** Year (10 credits)  
**Prerequisite:** Theater Arts I or instructor approval  
**College Prep:** VAPA (f) or elective (g) requirement

Theater Arts II is designed for the intermediate student who wants to build upon the skills learned in Theater Arts I. Through play analysis, scene work, and one-act play preparation and performance, students will build believable characters, apply basic technical theater skills, develop directing skills, and work effectively in an ensemble. Students will develop audition material.

**Theater Arts III**

**Level:** 11-12  
**Length:** Year (10 credits)  
**Prerequisite:** Theater Arts I and II or instructor approval  
**College Prep:** VAPA (f) or elective (g) requirement

Theater Arts III builds upon the skills learned in Theater Arts I and II. Through participation in in-depth projects, students will apply directing, acting, technical, and dramaturgical skills. During these projects, they will write and adapt scripts. By exploring different theatrical genres, students will evaluate and appreciate a variety of production styles.

**ROP The Art of Video Production**

**Level:** 11-12  
**Length:** Year (10 credits)  
**Prerequisite:** Age 16  
**Graduation:** Fine Arts requirement or elective credit  
**College Prep:** VAPA (f) requirement

Video Production provides students the opportunity to develop basic video production techniques. Students design, shoot, edit, and produce video projects. Students use field and studio equipment to produce professional quality video programs.

**ROP Advanced Video Production**

**Level:** 11-12  
**Length:** Year (10 credits)  
**Prerequisite:** Video Production or instructor approval  
**Graduation:** Elective credit  
**College Prep:** VAPA (f) or elective (g) requirement

This is an advanced level course using computers and video equipment to plan, shoot, and edit video programs. Emphasis is on advanced level script writing, audio techniques, lighting, camera operation and editing. Computers are used as a creative and organizational tool for the purpose of producing high quality videos. Program styles include documentary, educational, and dramatic video production. Students use field and studio equipment to produce professional quality video programs.
Music Appreciation
Level: 9-12
Length: Semester (5 credits)
Prerequisite: None
Graduation: Fine Arts requirement or elective credit

Music Appreciation is a classroom music course designed to provide students with a source of aesthetic enjoyment through the study of music and its development - past and present. This course will include appreciation for music, dance, theatre, art and how these relate to the western world over the past two centuries. It will examine the effects each has had on the others and how conditions, political and social views and etiquette of the time compare with those of today.

Beginning Guitar
Level: 9-12
Length: Semester (5 credits); repeat to 10 credits
Prerequisite: None
Graduation: Fine Arts requirement or elective credit

Beginning Guitar introduces students to chords, theory, and accompaniment as well as notation, solos and ensembles. Performances are presented in class several times a quarter. Students must furnish their own equipment.

Beginning Band
Level: 9-12
Length: Semester (5 credits); repeat to 10 credits
Prerequisite: None
Graduation: One semester of Fine Arts requirement

Introduction to Band Instruments is an instrumental music class designed to introduce students to, and provide students with, a source of aesthetic enjoyment of, and an experience in ensemble playing. A number of extra-curricular performances are required part of this course. Students will need to have their own band instrument.

Orchestra
Level: 9-12
Length: Year (10 credits); repeat to 40 credits
Prerequisite: Instructor approval
Graduation: Fine Arts requirement or elective credit
College Prep: VAPA (f) or elective (g) requirement

Designed primarily (but not solely) for students who play string instruments (e.g., violin, viola, cello, double bass) and/or experienced piano students. Students perform at various concerts, festivals, and occasions as well as the holiday and spring concerts. All performances are mandatory.

Concert Band
Level: 9-12
Length: Year (10 credits); repeat to 40 credits
Prerequisite: Instructor approval
Graduation: Fine Arts requirement or elective credit

Concert Band is a performance band for in-coming freshman and other music majors. Members of this group will become a Marching Band in the fall as they combine with Symphonic Band members to perform at all Freedom High School football games and local parades. Marching rehearsals will be held on Wednesday evenings from 6-8:30 p.m. Other performances will include holiday and spring concerts and music festival performances. All rehearsals and performances are mandatory.

Symphonic Band
Level: 10-12
Length: Year (10 credits); repeat to 30 credits
Prerequisite: Audition
Graduation: Fine Arts requirement or elective credit
College Prep: VAPA (f) or elective (g) requirement

Symphonic Band is an advanced performance band for advanced high school musicians. Members of this group will become a Marching Band in the fall only, as they combine with Concert Band members to perform at all FHS football games and local parades. Marching rehearsals will be held on Wednesday evenings from 6-8:30 p.m. Other performances will include holiday and spring concerts as well as performances at other high schools, colleges, and festivals. All rehearsals and performances are mandatory.

Jazz Band
Level: 9-12
Length: Year (10 credits); repeat to 40 credits
Prerequisite: Concurrent enrollment in Orchestra, Symphonic Band and audition
Graduation: Fine Arts requirement or elective credit
College Prep: VAPA (f) or elective (g) requirement

Jazz Band is an advanced music and theory class for students wanting instruction and practice in the performance of jazz music. Many jazz styles are studied as well as music theory. All rehearsals and performances are required.

A'Cappella Choir
Level: 10-12
Length: Year (10 credits); repeat to 30 credits
Prerequisite: Audition
Graduation: Fine Arts requirement or elective credit
College Prep: VAPA (f) or elective (g) requirement

A'Cappella Choir is an intermediate to advanced choral music class. Students must have had some vocal experience and be able to sing with a medium to high degree of skill. Emphasis will be on intermediate to advanced musicianship, vocal production and vocal/choral technique. At least one performance per quarter will be scheduled for the general public as well as performing/competing in various music festivals. All performances are mandatory.

Women's Chorus
Level: 9-12
Length: Year (10 credits); repeat to 20 credits
Prerequisite: None
Graduation: Fine Arts requirement or elective credit

Women’s Chorus is a choral music class designed for those students with little or no vocal experience. Emphasis is on musicianship, vocal production, and vocal techniques. All performances are required.

Men's Chorus
Level: 9-12
Length: Year (10 credits); repeat to 20 credits
Prerequisite: None
Graduation: Fine Arts requirement

Student must be able to match pitch. This will be determined by instructor during the first 2 weeks of the semester. Men’s Chorus is a choral music class designed for young men with little or no vocal experience. Emphasis is on musicianship, vocal production, and vocal techniques. All performances are mandatory. At least one performance is scheduled per semester.

Select Singers
Level: 9-12
Length: Year (10 credits); repeat to 40 credits
Prerequisite: Concurrent enrollment in A'Cappella Choir or Women's Ensemble and audition
Graduation: Fine Arts requirement or elective credit
College Prep: VAPA (f) or elective (g) requirement

Select Singers is an advanced choral music class designed for singers displaying a high degree of vocal/choral experience and skill. Emphasis is on more advanced facets of musicianship, vocal/choral production and vocal/choral technique. Participation in performances of the Select Singers is mandatory. *Students enrolled in this class must be concurrently enrolled in either A'Cappella Choir or Women’s Ensemble.

Women’s Ensemble
Level: 9-12
Length: Year Class (10 credits); repeat to 30 credits
Prerequisite: One year of Women's Chorus and audition
Graduation: Fine Arts requirements
College Prep: VAPA (f) or elective (g) requirement

Women’s Ensemble is an intermediate choral music class designed for women with some vocal experience. Emphasis is on intermediate musicianship, vocal production, and vocal/choral technique. All performances are required. At least one performance is scheduled per semester.
Parent/Guardian and student must sign an Acceptable Use Policy contract prior to students using computers on campus. (Contract available at walk-thru registration.)

Computer Keyboarding I

**Level:** 9-12  
**Length:** Semester (5 credits)  
**Prerequisite:** None  
**Graduation:** Elective credit
This class is intended to provide students who do not know the keyboard with basic keyboarding skills. Using the keyboard is essential for success in a majority of required classes for graduation and for future college/career requirements. Keyboarding I will focus on development of proper keyboard technique. Students are expected to learn the keyboard by touch. During this course, students will learn basic formatting of word processed documents.

Microsoft Office Basics

**Level:** 9-12  
**Length:** Semester (5 credits)  
**Prerequisite:** Keyboarding I or instructor approval  
**Graduation:** Elective credit
This is a semester long course designed for students to learn the introductory aspects of Microsoft Office applications Word, Excel, Access and PowerPoint. Students produce complex word processing documents, spreadsheet layouts, multimedia presentations and databases. Students will create a personal web page and a fictitious business.

Computer Science with Java Programming

**Level:** 9-12  
**Length:** Year (10 credits)  
**Prerequisite:** None  
**Graduation:** Elective credit
This elective computer science course will introduce students to the fundamentals of computer programming using the Java language. Java is a modern, object-oriented language created by Sun Microsystems. The major advantage of Java includes its portability and use on the Internet. Emphasis is placed on event-driven programming methods, including creating and manipulating objects, classes, and using object-oriented tools such as the class debugger.

ROP Digital Arts/Designs for the Web

**Level:** 10-12  
**Length:** Year (10 credits); repeat to 30 credits  
**Prerequisite:** Age 16 and basic computer skills recommended  
**Graduation:** Fine Arts requirement or elective credit  
**College Prep:** VAPA (f) requirement
Students create, design and publish web pages from basic to interactive ones with talking characters, online games and animations. The class has its own web-server for students to place their webpages directly on the Internet. Students use professional programs like Dreamweaver, Flash, Fireworks, Photoshop, character animation, music creation, Podcasting programs. Students will use scanners, digital cameras and music programs to create multimedia projects for the web. Students learn HTML, CSS and all aspects of the web. Students will create a professional online portfolio. Students who complete the program successfully receive ROP certification for skills gained in this course.

Android Development Using Java Course

**Level:** 9-12  
**Length:** Year (10 credits)  
**Prerequisite:** Computer Science with Java Programming or approval teacher after preparedness test.  
**Graduation:** Elective credit
Android Developments Using Java will introduce students to the highly sought after world of mobile app development using the Android platform. Students will gain a strong foundation in Java programming and the confidence to build successful mobile applications. The course will help reinforce students understanding of programming logic and Java tools for Android. As well as effectively prepare student programmers to meet growing business demand for mobile apps.

Design Drafting

**Level:** 9-12  
**Length:** Year (10 credits)  
**Prerequisite:** None  
**Graduation:** Fine Arts requirement or elective credit  
**Donation:** $20
Design Drafting is a one-year course designed to acquaint students with a pictorial language used throughout industry. The course teaches drafting fundamentals and provides hands-on experience for developing drafting skills and techniques. It is designed to provide the student with a background in basic mechanical and technical drawing. This course helps students develop problem-solving ability, interpret the ideas of others, and express themselves visually in an understandable manner. Drafting provides a wide range of skills that are transferable to many aspects of everyday life. Emphasis is on the basic use of traditional drafting equipment and the understanding of design/drafting principles as they apply, but are not limited to, future pursuits in the architectural and engineering career field.

Jumpstart to Engineering

**Grades:** 9-12  
**Length:** Year (10 credits)  
**Prerequisite:** None  
**Graduation:** Elective credit  
**Donation:** $30
This is an introductory class designed to provide students with a hands-on approach to exploring the connections and relevance of science, engineering, and technology in science. The main component to the class is the design, construction, and analysis of several long term projects using computers as part of the design process.

Introduction to Business

**Level:** 10-12  
**Length:** Semester (5 credits)  
**Prerequisite:** Keyboarding or Practical Computing  
**Graduation:** Elective credit
Introduction to Business is a survey of the private enterprise system. The course provides students with a broad background about the modern business world. It provides an in depth look at the basic business concepts, economics, types of ownership, organization and functions, the data and systems by which businesses are controlled. Topics include types of ownership, management principles, the internal organization, marketing, human resource management, finance and risk management.

Introduction to Marketing

**Level:** 11-12  
**Length:** Semester (5 credits)  
**Prerequisite:** None  
**Graduation:** Elective credit
This is an introductory course to marketing activities in modern business firms. The major topics covered are: consumer behavior, market segmentation, marketing channels, marketing planning, marketing research, promotions, building customer relations, and execution of the marketing mix. The course emphasis is on the application of current marketing concepts pertaining to today's environment.

Exploring Computer Science

**Level:** 9-12  
**Length:** Year (10 credits)  
**Prerequisite:** Basic computer skills  
**Graduation:** Elective credit
Exploring Computer Science is a yearlong course consisting of 6 units. The course was developed around a framework of both computer science content and computational practice. Assignments and instruction are contextualized to be socially relevant and meaningful for diverse students. Units utilize a variety of tools/platforms and culminate with final projects around the following topics: human computer interaction, problem solving, web design, programming, computing and data analysis and robotics.
**Personal Finance**

**Level:** 9-12  
**Length:** Semester (5 credits)  
**Prerequisite:** None  
**Graduation:** Elective credit  

This course introduces students to a way of thinking about personal financial decisions. Students learn to plan and manage their personal finances, achieve a financially successful life, and take responsibility as a citizen. Students think harder and farther about the larger and longer consequences of making financial decisions. Although many of the more practical aspects of personal finance will change over time, due to practices, technologies, customs, and laws, the fundamental awareness of ways to think about solving financial issues can always be useful.

**Beginning Fashion Design and Construction**

**Level:** 9-12  
**Length:** Semester (5 credits)  
**Prerequisite:** Concurrent enrollment in Beg. Art or instructor approval  
**Graduation:** Fine Arts requirement or elective credit  
**Donation:** $20 per semester  

This course will teach the basics of clothing construction and is designed as a prerequisite to intermediate/advanced Fashion Design and Theater Costume Design. Students will learn to use a sewing machine and will learn basic hand-sewing techniques. Students design the garments which they construct, combining their own ideas with resources on the Internet. Students are required to purchase their own fabric and patterns, as approved by the teacher.

**Intermediate/Advanced Fashion Design and Construction**

**Level:** 9-12  
**Length:** Semester (5 credits); repeat to 20 credits  
**Prerequisite:** Beg. Art, Beg. Fashion or instructor approval  
**Graduation:** Fine Arts requirement or elective credit  
**Donation:** $20 per semester  

This course is a continuation of Beginning Fashion Design and Construction. More emphasis will be placed on the creation of original designs. Emphasis will include color, line, texture and unique and individual styling. Students may use the Internet as well as computer programs to assist them with their designs. The class will culminate with a fashion show, which will be videotaped and may be broadcast. Students will be required to purchase their own fabric and patterns, as approved by the teacher.

**Child Development**

**Level:** 10-12  
**Length:** Year (10 credits)  
**Graduation:** Elective credit  
**College Prep:** Elective (g) requirement  

Child Development is a course which enables students to understand how to work with and care for children as they grow. Students learn how children from prenatal stages through age six grow physically, mentally, socially, and emotionally.

**ROP Careers with Children**

**Level:** 11-12  
**Length:** Year (double-blocked class 20 credits)  
**Prerequisite:** Age 16  
**Graduation:** Elective credit  

Students explore careers related to education through the study of child development, positive guidance techniques, curriculum development and health and safety. Active class participation is enhanced by fieldwork at school sites under the guidance of a mentor teacher. All students are required to observe and/or participate in a variety of settings and classrooms at the preschool, primary/elementary, middle/junior high, and secondary levels. Completion of this course with a B or better articulates with LMC courses Child Development 22 and 32 and may be worth up to 6 units of credit at LMC.

**ROP Law Enforcement**

**Level:** 11-12  
**Length:** Year (10 credits)  
**Prerequisite:** Age 16  
**Graduation:** Elective credit  

Students learn the structure and organization of the criminal justice system and gain knowledge of basic police procedures, regulations and responsibilities. Included is an overview of codified law and penal code, laws of arrest, search and seizure guidelines, patrol and investigations procedures, and emergency response, field trips to police stations and courtrooms. Emphasis is placed on developing awareness of citizens’ rights and responsibilities, the realities of police work and the positive role of law enforcement in the community.

**ROP Fire Science**

**Level:** 11-12  
**Length:** Year (10 credits)  
**Prerequisite:** Age 16  
**Graduation:** Elective credit  

This class follows the California Firefighter 1 Curriculum and is also articulated with the Essentials of Firefighting 4th Edition Textbook. This class prepares students for future study of fire science, as well as providing them hands-on experience with firefighting equipment.

**ROP Sports Medicine**

**Level:** 11-12  
**Length:** Year (10 credits)  
**Prerequisite:** Age 16  
**Graduation:** Elective credit  
**College Prep:** Elective (g) requirement  

Areas covered in this course are human anatomy, physiology, nutrition, equipment fitting, prevention, evaluation, and treatment of injuries. Students learn human anatomy, physiology, nutrition, and gain knowledge of basic police procedures, regulations and responsibilities. Included is an overview of codified law and penal code, laws of arrest, search and seizure guidelines, patrol and investigations procedures, and emergency response, field trips to police stations and courtrooms. Emphasis is placed on developing awareness of citizens’ rights and responsibilities, the realities of police work and the positive role of law enforcement in the community.

**ROP Sports Medicine II**

**Level:** 11-12  
**Length:** Year (10 credits)  
**Prerequisite:** Age 16, ROP Sports Medicine I, Anatomy and Physiology (may be concurrently enrolled)  
**Graduation:** Elective credits  

This course provides classroom instruction and practical experience in the field of sports medicine and fitness. Students learn human anatomy, first aid, CPR, taping and wrapping skills, injury prevention, rehabilitation and care, nutrition, and exercise physiology. This prepares students for careers in the field of sports medicine. Students complete five hours per week of classroom instruction, plus an additional five hours per week of internship. Students study advance course work in this area.

**Basic Electronics**

**Level:** 9-12  
**Length:** Semester (5 credits)  
**Prerequisite:** None  
**Graduation:** Elective credit  
**Donation:** $20 per semester  

Students learn the fundamentals of electricity and how it is used and controlled in electronic circuits. Students learn practical skills for solving real-life problems. Students write explanations of component and circuit functions as part of ongoing lab work. For the final project, students write in-depth reports detailing the construction and operation of their devices.
English Fundamentals
Level: 9-12
Length: Year (10 credits)
Prerequisite: None
Graduation: Year 1 English requirement
College Prep: Year 1 English (b) requirement
English Fundamentals is a support class that students must take if they scored Far Below or Below Basic on their 8th grade California Content Standards Test. This class will review the fundamentals of grammar, word analysis, and improve students’ reading comprehension.

English 1
Level: 9
Length: Year (10 credits)
Prerequisite: None
Graduation: Year 2 English requirement
College Prep: Year 2 English (b) requirement
English 1 is a core literature-based language arts course integrating literature, writing, grammar, mechanics, speaking and listening, vocabulary development, reading skills, and study skills.

English 2
Level: 10
Length: Year (10 credits)
Prerequisite: English 1
Graduation: Year 2 English requirement
College Prep: Year 2 English (b) requirement
English 2 is a core literature-based program integrating literature with writing, grammar, mechanics, speaking and listening, vocabulary development, reading skills, and study skills.

English 3
Level: 11
Length: Year (10 credits)
Prerequisite: English 2
Graduation: Year 3 English requirement
College Prep: Year 3 English (b) requirement
English 3 is a core literature-based program integrating the study of American literature with writing, speaking and listening, vocabulary development, reading skills, and study skills.

English 4
Level: 12
Length: Year (10 credits)
Prerequisite: English 3
Graduation: Year 4 English requirement
College Prep: Year 4 English (b) requirement
English 4 is a core literature-based program integrating the study of British literature with grammar, mechanics, speaking and listening, vocabulary development, reading skills, and study skills. This course is designed for the college bound student.

World Studies Program
Level: 10
Length: Year (double-blocked class 20 credits)
Prerequisite: English 1
Graduation: Year 2 English and World Hist requirement
College Prep: Year 2 English (b) and World Hist (a) requirement
World Studies integrates English 2 and World History, and is designed to explore world culture and the major turning points in world history to make connections between real life history and American literature. The course will review the rise of democracy through nation building of modern day.

American Studies Program
Level: 11
Length: Year (double-blocked class 20 credits)
Prerequisite: English 2
Graduation: Year 3 English and US History requirement
College Prep: Year 3 English (b) and US History (a) requirement
American Studies integrates English 3 and U.S. History, and is designed to explore American culture and the major turning points in U.S. history to make connections between real life American History and American literature. The course will review the rise of democracy and the industrial and technological transformations.

Advanced Placement (AP) Language and Composition
Level: 11-12
Length: Year (10 credits)
Prerequisite: English 2
Graduation: Year 3 English requirement
College Prep: Year 3 English (b) or elective (g) requirement
Advanced Placement Language and Composition is equivalent to a college or university Freshman Composition course and prepares students to take the Advanced Placement Language and Composition exam. Students will become skilled readers and analyzers of literary prose written from a variety of time periods. As a result of such analysis, students will become skilled writers who will be able to produce compositions for a variety of purposes. Through their writing and reading assignments, students learn the purpose and influence of literary prose. A mandatory parent meeting is held in the Spring Semester.

Advanced Placement (AP) Literature and Composition
Level: 12
Length: Year (10 credits)
Prerequisite: English 3
Graduation: Year 4 English requirement
College Prep: Year 4 English (b) or elective (g) requirement
Advanced Placement Literature and Composition is equivalent to a college or university Freshman Literary Survey course and prepares students to take the Advanced Placement Literature and Composition exam. A mandatory parent meeting is held in the Spring Semester.

Science Fiction Literature
Level: 12
Length: Year (10 credits)
Prerequisite: English 2 or English 3
Graduation: Year 4 English requirement, if student is a senior
College Prep: Year 4 English (b) or elective (g) requirement
Science Fiction will focus on the reading, analysis, interpretation, and evaluation of science fiction literature and film. The class stimulates students’ interest in technology, fantasy, global thinking, and the future. Students will write analytical essays, book reviews, and creative stories. This English elective provides access to alternative literature.

Expository Reading and Writing Course
Level: 12
Length: Year (10 credits)
Prerequisite: English 3
Graduation: Year 4 English requirement
College Prep: Year 4 English (b) requirement
The goal of the Expository Reading and Writing Course is to prepare college-bound seniors for the literacy demands of higher education. Through a sequence of fourteen rigorous instructional modules, students in this yearlong, rhetoric-based course develop advanced proficiency in expository, analytical, and argumentative reading and writing.
English Language Development (ELD) 3
Level: 9-12
Length: Year (double-blocked class 20 credits)
Prerequisite: None
Graduation: 10 credits English and 10 credits elective

English Language Development 3 is a course designated for English Learners who score a 3 on the CELDT test. ELD 3 will advance a student’s oral, listening, reading, and writing skills and enhance their academic vocabulary. The goal is to prepare English Learners for mainstream academic curriculum.

Creative Writing
Level: 10-12
Length: Year (10 credits)
Prerequisite: English 1
Graduation: Elective credit
College Prep: Elective (g) requirement

Creative Writing is structured to build upon skills introduced in previous English courses. Focus is on the study of advanced composition, fiction, non-fiction, storytelling, poetry, and speech. The major project will be to produce a student literary magazine.

Speech and Debate
Level: 10-12
Length: Year (10 credits)
Prerequisite: English 1, 2, 3, or instructor approval.
Graduation: Elective credit
College Prep: Elective (g) requirement

Speech and Debate is a one-year course in oral communication with emphasis on public speaking. Research, writing, and oral techniques needed to develop effective oral presentations, debates, and oral interpretation intersperse the course.

Journalism
Level: 10-12
Length: Year (10 credits); repeat to 30 credits
Prerequisite: English 1 or instructor approval
Graduation: Elective credit
College Prep: Elective (g) requirement

Journalism provides an introduction to journalistic writing, non-fiction literature, and newspaper production, including news gathering, layout, advertising, and business management. The course focuses on the theoretical basis for scholastic freedom of press, the responsibilities of high school journalists, exclusion of First Amendment freedoms, and journalistic ethics.

Peace & Conflict Studies
Level: Year (10 credits)
Prerequisite: English 1 and World Cultures or World History
Graduation: Elective credit
College Prep: Elective (g) requirement

Peace & Conflict Studies explores the world of nonviolent solutions. Through readings and discussions, students will learn the skills of negotiation and conflict resolution. Students learn to view global human rights as part of their own cause, not something distinct from their personal life experience. Students learn why we need to end intolerance, racism, and violence in society. Topics like human rights, the environment, structural violence, justice, power, empathy, compassion, respect, tolerance, and freedom are covered.

Poetry
Level: 10-12
Length: Year (10 credits)
Prerequisite: Successful completion of prior English class
Graduation: Elective Credit

Students explore the world of poetry, learn through a balance of formal study and creative writing, develop an appreciation for poetry and gain valuable experience in critiquing and analyzing literature. After learning a new element, students analyze published examples that employ the element, engage in discussions and write their own poetry. Students share poetry in formal and informal readings and critique and analyze their own as well as their classmates’ writing.
### French 1
- **Level:** 9-12
- **Length:** Year (10 credits)
- **Prerequisite:** Enrolled in English 1 - 4
- **Graduation:** Fine Arts/World Language requirement
- **College Prep:** 1 year World Lang. (e) or elective (g) requirement

French 1 is a college-preparatory course that introduces students to the French language and culture. The course emphasizes basic communication skills, vocabulary building, reading and writing. A beginning key pal program and active cultural experiences are included. Students are able to relate to French teenagers' life through different media. French Internet sites are explored.

### French 2
- **Level:** 9-12
- **Length:** Year (10 credits)
- **Prerequisite:** French 1
- **Graduation:** Fine Arts/World Language requirement
- **College Prep:** 1 year World Lang. (e) or elective (g) requirement

Students will to communicate more fully in oral and written French. Students are able to expand their communications skills through interviews, oral presentations and an e-mail correspondence with French classes in the U.S.A. and the world. They maintain a class web page. They also plan and write (in French) an itinerary for a trip to Paris. A grade C or better in previous French class will assure greater success in this class.

### French 3
- **Level:** 10-12
- **Length:** Year (10 credits)
- **Prerequisite:** French 2
- **Graduation:** Fine Arts/World Language requirement
- **College Prep:** 1 year World Lang. (e) or elective (g) requirement

French 3 challenges students to speak, read and write at more advanced levels. Students "visit" French-speaking areas such as Africa, Canada, France, Switzerland, and Tahiti. They read about and discuss the culture and literature of these areas through various sources including the Internet. They write a journal of each trip and complete individual and group multimedia projects. Various folk and fairy tales are also part of the course of study. Students are encouraged to speak and write with greater fluency and detail. French is spoken most of the time in class.

### French 4
- **Level:** 10-12
- **Length:** Year (10 credits)
- **Prerequisite:** French 3
- **Graduation:** Fine Arts/World Language requirement
- **College Prep:** 1 year World Lang. (e) or elective (g) requirement

French 4 challenges students to speak, read and write at an advanced level and to learn more complex grammatical construction. Students read short stories, plays and other French literature and write short compositions to gain language ability and literary understanding. Instruction only is almost exclusively in French with minimal clarification in English. Students complete individual and group projects using multimedia technology and continue learning about French culture, geography and history from various sources. A grade of C or better in previous French class will assure greater success in this class.

### Advanced Placement (AP) French Language
- **Level:** 10-12
- **Length:** Year Class (10 credits)
- **Graduation:** Fine Arts/World Language requirement
- **College Prep:** 1 year World Lang. (e) or elective (g) requirement

AP French 5 is a college level course emphasizing the use of language for active communication and helping students develop the following: the ability to understand spoken French in various contexts, a vocabulary sufficiently ample for reading newspaper and magazine articles, literary texts, and non -technical writing without dependence on a dictionary, the ability to express themselves coherently, resourcefully, and with fluency and accuracy in both written and spoken French. The course seeks to develop skills (reading, writing, listening, and speaking) used in various activities and disciplines rather than to cover any specific body of subject matter. Extensive training in the organization and writing of compositions is emphasized. A mandatory parent meeting is held Spring Semester.

### German 1
- **Level:** 9-12
- **Length:** Year (10 credits)
- **Prerequisite:** Enrolled in English 1 - 4
- **Graduation:** Fine Arts/World Language requirement
- **College Prep:** 1 year World Lang. (e) or elective (g) requirement

German 1 is a college-preparatory course that introduces students to the German language. Students achieve basic proficiency in speaking, reading, writing and comprehension, and begin building a German vocabulary. Instruction is provided in German with clarification in English to assure student understanding. Students complete individual and group projects. Students explore German culture, geography and history through German books, periodicals and internet sites.

### German 2
- **Level:** 10-12
- **Length:** Year (10 credits)
- **Prerequisite:** German 1
- **Graduation:** Fine Arts/World Language requirement
- **College Prep:** 1 year World Lang. (e) or elective (g) requirement

German 2 expands the student's ability to communicate in German. Students improve their skills in speaking, reading, writing and comprehension, and enlarge their German vocabulary. Students correspond via e-mail with other students in German classes, make oral presentations including visual aids, and maintain a class Internet site. Students continue learning about culture, geography and history from German-language books, periodicals and Internet sites. A grade C or better in previous classes will assure greater success.

### German 3
- **Level:** 10-12
- **Length:** Year (10 credits)
- **Prerequisite:** German 2
- **Graduation:** Fine Arts/World Language requirement
- **College Prep:** 1 year World Lang. (e) or elective (g) requirement

German 3 challenges students to speak, read and write at an advanced level and to learn more complex grammatical construction. Students read short stories, plays and other German literature and write short compositions to gain language ability and literary understanding. Instruction is almost exclusively in German with only minimal clarification in English. Students complete individual and group projects using multimedia technology and continue learning about German culture, geography and history from various sources including the Internet.

### German 4
- **Level:** 10-12
- **Length:** Year (10 credits)
- **Prerequisite:** German 3
- **Graduation:** Fine Arts/World Language requirement
- **College Prep:** 1 year World Lang. (e) or elective (g) requirement

German 4 challenges students to speak, read and write at an advanced level and to learn more complex grammatical construction. Students read short stories, plays and other German literature and write short compositions to gain language ability and literary understanding. Instruction only is almost exclusively in German with minimal clarification in English. Students complete individual and group projects using multimedia technology and continue learning about German culture, geography and history from various sources including the Internet. Students in German 4 have the option of taking the German Advanced Placement examination.
### Spanish 1
- **Level:** 9-12
- **Length:** Year (10 credits)
- **Prerequisite:** Enrolled in English 1 - 4
- **Graduation:** Fine Arts/World Language requirement
- **College Prep:** 1 year World Lang. (e) or elective (g) requirement

Spanish 1 is an introduction to Spanish emphasizing basic vocabulary, grammar and sentence structure. Learning the basics of speaking and writing in Spanish could be integral to securing a better job in the future. It can also make travel in Spanish-speaking countries more enjoyable.

### Spanish 2
- **Level:** 9-12
- **Length:** Year (10 credits)
- **Prerequisite:** Spanish 1, or Spanish 1 in 8th grade.
- **Graduation:** Fine Arts/World Language requirement
- **College Prep:** 1 year World Lang. (e) or elective (g) requirement

Spanish 2 students continue to practice speaking, reading, and writing in Spanish. They learn some practical conversational skills as well as learn about some countries and cultures where Spanish is spoken. Students may be asked to keep journals with short entries and incorporate what they have learned into short essays. A grade C or better in previous Spanish class will assure greater success in this class.

### Spanish 3
- **Level:** 10-12
- **Length:** Year (10 credits)
- **Prerequisite:** Spanish 2 or SpSpSpeak or instructor approval
- **Graduation:** Fine Arts/World Language requirement
- **College Prep:** 1 year World Lang. (e) or elective (g) requirement

Students are challenged to read, write, and speak at more advanced levels. They read short stories and excerpts from Hispanic literature. They also write original compositions and conversations in Spanish, which may include informal productions of skits or the keeping of a journal. Hispanic culture is also interwoven into the course for greater cross-cultural understanding. Some new grammar is introduced and previously learned grammar is strongly reinforced. A grade C or better in previous Spanish class will assure greater success in this class.

### Spanish 4
- **Level:** 10-12
- **Length:** Year (10 credits)
- **Prerequisite:** Spanish 3 or SpSpSpeak or instructor approval
- **Graduation:** Fine Arts/World Language requirement
- **College Prep:** 1 year World Lang. (e) or elective (g) requirement

Spanish 4 will continue expanding students’ ability to communicate in Spanish. Students will continue increasing their vocabulary and reading and writing skills. They will also continue to learn more about the culture of the countries where Spanish is spoken.

### Advanced Placement (AP) Spanish Language
- **Level:** 9 – 12
- **Length:** Year (10 credits)
- **Graduation:** Fine Arts/World Language requirement
- **College Prep:** 1 year World Lang. (e) or elective (g) requirement

This college-level course emphasizes Spanish for active communication, covering oral skills, reading comprehension, grammar, and composition. It develops useful language skills that can be applied to various activities and disciplines. It focuses on: comprehension of formal and informal spoken Spanish; acquisition of vocabulary; accurate reading of newspapers, magazines, and modern Spanish literature; composition of expository passages, and expression of ideas orally with accuracy and fluency. It provides extensive training in the organization and writing of compositions. A mandatory parent meeting is held Spring Semester.

### Spanish for Spanish Speakers I
- **Level:** 9-12
- **Length:** Year Class (10 credits)
- **Prerequisite:** Native Spanish speaker
- **Graduation:** World Language requirement
- **College Prep:** 1 year World Lang. (e) or elective (g) requirement

This course is designed for fluent speakers in basic Spanish who need further development of academic Spanish. It emphasizes vocabulary development, listening comprehension, grammar, reading and writing skills. Students will be expected to read and analyze simple literature.

### Spanish for Spanish Speakers II
- **Level:** 10-12
- **Length:** Year (10 credits)
- **Prerequisite:** Native Spanish speaker. SpSp Speakers I
- **Graduation:** World Language requirement
- **College Prep:** 1 year World Lang. (e) or elective (g) requirement

This course is a continuation course of Spanish for Spanish Speakers I. Students continue to develop their skills in reading, writing, and speaking including writing an autobiography. Students study a variety of Hispanic literature (i.e. short stories, oral history, poetry and drama).
Algebra 1
Level: 9-12
Length: Year (10 credits)
Prerequisite: Placement based on LUHSD criteria
Graduation: Algebra 1 requirement
College Prep: Math (c) requirement

Algebra 1 is a college preparatory, standards based math course built around problems designed to teach concepts, short writing assignments, and routine review necessary to retain skills. It is the goal of this course to empower students to use mathematics as a problem-solving tool and to demonstrate the importance of mathematics in their futures. A grade C or better in previous math class will assure greater success in this class.

Algebra 1 Support
Level: 9-12
Length: Year (10 credits)
Prerequisite: Teacher recommendation
Graduation: Elective requirement
Grade: Pass or Fail

Algebra 1 Support is an elective course designed for students currently enrolled in Algebra 1 who need additional support.

Geometry
Level: 9-12
Length: Year (10 credits)
Prerequisite: Algebra 1 or Intensified Algebra
Graduation: Geometry requirement
College Prep: Math (c) requirement

Geometry is a college preparatory, standards based math course built to not only increase student’s understanding of geometry, but to also act as an important transition from basic Algebra 1 to Algebra 2. A grade C or better in previous math class will assure greater success in this class.

Geometry Support
Level: 10-12
Length: Year (10 credits)
Prerequisite: Teacher Recommendation
Graduation: Elective requirement
Grade: Pass or Fail

Geometry Support is an elective course designed for students currently enrolled in Geometry who need additional support.

Algebra 2
Level: 9-12
Length: Year (10 credits)
Prerequisite: Algebra 1
Graduation: 1 year Math requirement
College Prep: Math (c) requirement

Algebra 2 is a second year course in algebra that reviews and broadens algebraic concepts introduced in Algebra 1 and Geometry. It meets university requirements and includes linear and quadratic equations, graphing, progression, real and complex number systems, relations and functions (exponential, logarithmic, and polynomial). A grade C or better in previous math classes will assure greater success in this class.

Algebra 2 Support
Level: 9-12
Length: Year (10 credits)
Prerequisite: Teacher recommendation
Graduation: Fullfills elective requirement
Grade: Pass or Fail

Algebra 2 Support is an elective course designed for students currently enrolled in Algebra 2 who need additional support.

Algebra II and Trigonometry
Level: 9-12
Length: Year (10 credits)
Prerequisite: Alg. 1 + Geom. + placement test or Algebra 2
Graduation: 1 year Math requirement
College Prep: Math (c) requirement

This course extends student knowledge of Algebra I and Geometry with additional algebraic and trigonometric content. Students gain experience with algebraic solutions of problems including the solution of systems of quadratic equations, logarithmic and exponential functions, the binomial theorem and the complex number system. The course also applies algebraic and geometric concepts to trigonometric analyses.

Advanced Placement (AP) Calculus A/B
Level: 10-12
Length: Year (10 credits)
Prerequisite: Algebra 2 (grade C or better)
Graduation: 1 year Math requirement
College Prep: Math (c) or elective (g) requirement

Pre-Calculus is a course that includes a semester of trigonometry, and a semester of math analysis. Studies of functions, logarithms, analytical geometry, mathematical inductions, and limits prepare students for Calculus. Students enrolled in this class are encouraged to own a graphing or scientific calculator. A grade C or better in previous math classes will assure greater success in this class.

Advanced Placement (AP) Statistics
Level: 11-12
Length: Year (10 credits)
Prerequisite: Algebra 2
Graduation: 1 year Math requirement
College Prep: Math (c) requirement

AP statistics is designed for college-bound students who have completed Algebra 2. AP statistics covers the relationships between data and how it is used to influence decision-making in fields such as science, social science, and consumer affairs. The emphasis is on understanding both descriptive and inferential statistics, with a reduced emphasis on computation. Graphing calculators and/or computer software will carry out most computations, with the student being able to understand and apply the appropriate conclusions. Heave emphasis will be placed on the use of statistics in current media.

Applied Career Mathematics
Level: 11-12
Length: Year (10 credits)
Prerequisite: Algebra 1 or Intensified Algebra; Geometry 1
Graduation: 1 year Math requirement

Applied Career Math is a course that integrates hands-on laboratory activities, cooperative learning opportunities and video programs with text materials that teach important math concepts by emphasizing problem-solving and decision-making through workplace applications. The students will investigate, construct and apply algebra, geometry, statistics and probability skills through contextual hands-on learning. The course will prepare for successful passing of the GED and/or most general Math entrance requirement for mathematics.
Students must successfully complete a full year of both 9th Grade Core and 10th Grade Core Physical Education to meet the graduation requirement.

9th Grade Core Physical Education
Level: 9
Length: Year (10 credits)
Prerequisite: None
Graduation: 9th grade Physical Education requirement
Physical Education is required in Grade 9. All Freshman Physical Education students take the California Physical Performance and Health Related Test during the third quarter. Some other things covered are: orientation, physical fitness, field games, weight training, plyometrics, wrestling, aquatics, various team sports, steroid and nutrition education. Students must complete the required standards and benchmarks (9th grade core Physical Education).

10th Grade Core Physical Education
Level: 10
Length: Year (10 credits)
Prerequisite: 9th Grade Core Physical Education
Graduation: 10th grade Physical Education requirement
The tenth grade program builds on the basic foundation of the ninth grade core program. Students must complete the required standards and benchmarks for the 10th grade core P.E. program.

Advanced Athletic Skills
Level: 10-12
Length: Semester (5 credits)
Prerequisite: PE 9 and PE 10; teacher recommendation
Graduation: Elective credit
Advanced Athletic Skills course will focus on the in and out-of-season physical training for the student athlete and is designed to help improve performance and minimize the potential for injury. Training will include progressive plyometric techniques, agility drills, flexibility exercises and core strengthening techniques. Health and nutritional issues specific to the student athlete will also be addressed.

Basketball Techniques and Tactics
Grade Level: 10-12
Length: Semester (5 credits); repeat for credit
Prerequisite: PE 9; teacher recommendation
Graduation: Elective credit
Basketball Techniques and Tactics is a designed physical education elective focusing on basketball. Throughout the semester students will learn and practice the game of basketball with the goal of learning lifelong athletic skills through basketball participation. In addition, students will learn the history of basketball to increase knowledge base.

Baseball/Softball Tactics
Level: 9-12
Length: Semester (5 credits); repeat for credit
Prerequisite: None
Graduation: Elective credit (Does not replace core PE classes)
Students will learn proper technique and tactics for baseball/softball, including conditioning, weight training, defensive, offensive, base running and hitting skills.

Bowling Fundamentals
Grade Level: 11-12
Length: Semester (5 credits)
Prerequisite: PE 9 and PE 10; transportation waiver; and teacher recommendation
Graduation: Elective credit
Bowling Fundamentals will introduce the discipline of Physical Education through the sport of bowling. The course will include a historical examination, styles of play and strategies of the sport. Students will strive to develop basic skills including approach, types of deliveries, strategy, etiquette, and league play associated with the sport of bowling. Adaptations related to gender, age and physical conditioning will be addressed.
Biology
Level: 9-11
Length: Year (10 credits)
Prerequisite: Concurrently enrolled in Geometry
Graduation: Life Science requirement
College Prep: Life Science lab (d)

Biology is a one-year course designed for all students. This course emphasizes the study of the characteristics of life, cellular structure and function, genetics, evolution, ecology, and comparative anatomy and physiology. Connections are made with current issues and concepts from Earth Science, Chemistry and Physics. Laboratory work is a regular part of the course.

Advanced Placement (AP) Biology
Level: 11-12
Length: Year (10 credits)
Prerequisite: Biology and Chemistry
Graduation: Fulfills elective credits
College Prep: Life Science lab (d) or elective (g) requirement

AP Biology is a college level course designed for the advanced science student who is likely to pursue a career in a science-related field. This course is the equivalent of a college introductory biology course and prepares for the Advanced Placement Biology examination. The three general areas covered in this course are: Molecules and Cells, Heredity and Evolution, and Organisms and Populations. AP Biology expands on knowledge that the students have gained in their previous science courses. This course includes extensive use of modern biological research technology. A mandatory parent meeting is held in the Spring Semester.

Anatomy & Physiology
Level: 11-12
Length: Year (10 credits)
Prerequisite: Biology; Chemistry recommended
Graduation: Life Science requirement
College Prep: Life Science lab (d) or elective (g) requirement

Anatomy & Physiology is a one-year lab-oriented course, which is devoted to the study of the human body systems. Each system is discussed in relationship to its structure and function. Physical and mental health are given major consideration with respect to body functions, and all systems are demonstrated to interrelate in the total functioning of the human body.

Biotechnology
Level: 11-12
Length: Year (10 credits)
Prerequisite: Biology
Graduation: One year of Chemistry (may be taken concurrently)
College Prep: Fulfills Life Science requirement.

This course prepares students for careers involving laboratory sciences and the biotechnology industry. This class is a student driven lab based class. Students learn procedures and laboratory skills used in Biotechnology and Crime Scene Labs, including DNA manipulation and micropipetting, proper washing, sterilizing, plating and culturing techniques which make them effective lab technicians. Sound laboratory instruction and safety is stressed. Students learn to read protocols, complete technical writing, use resources and work in team-based learning. Background material regarding DNA methods and usefulness, science and societal issues, and portfolios are included in the curriculum. Career paths and opportunities for further education will be explored through associations with industry mentors and field trips to local lab sites when available.

Environmental Science
Level: 11-12
Length: Year (10 credits)
Prerequisite: Physical Science, Biology
Graduation: Life Science or Physical Science requirement
College Prep: Elective (g) requirement

Environmental Science is a broadly based course designed to cover environmental issues on both a global and local perspective. Topics included are an understanding of ecosystems, dynamic interaction of air, water, atmosphere and climate, food, biodiversity, energy, waste, and population growth. A central focus highlights responsible growth for a sustainable future.

ROP AP Environmental Science
Level: 11-12
Length: Year (10 credits)
Prerequisite: Physical Science, Biology
Co-Requisite: Algebra 1
Graduation: Life Science or Physical Science requirement
College Prep: Elective (g) requirement

ROP AP Environmental Science is a college level course designed for the advanced science student who is likely to pursue a career in a science-related field. The ROP program requires additional instruction and research about a wide array of careers relating to Environmental Science. The goal of the AP Environmental Science course is to provide students with the scientific principles, concepts, and methodologies required to understand the interrelationships of the natural world, to identify and analyze environmental problems both natural and human-made, to evaluate the relative risks associated with these problems, and to examine alternative solutions for resolving and/or preventing them. This course prepares students to take the Advanced Placement examination. A mandatory parent meeting is held in the Spring Semester.

Zoology
Level: 10-12
Length: Semester (5 credits)
Prerequisite: Teacher approval
Graduation: Elective credit

Zoology is a one semester course designed to provide students with a general understanding of the animal kingdom, including the following: sponges & coelenterates; flatworms, rotifers, and roundworms; mollusks; segmented worms; arthropods; insects and echinoderms; fishes, amphibians; reptiles; birds; and mammals.
Earth Science
Level: 9-10
Length: Year (10 credits)
Prerequisite: None
Graduation: Physical Science requirement
College Prep: Elective (g) requirement

Earth Science is a course designed to meet the State of California content standards in the subject. It is open to all students but taught as an introductory level of high school science that emphasizes not only content but scientific literacy. In particular, major emphasis is placed upon helping students to become independent learners of science. In this effort, skill building in mathematical representation of science concepts, active scientific inquiry, and writing about science is woven throughout the course delivery.

Chemistry
Level: 10-12
Length: Year (10 credits)
Prerequisite: Physical Science, Biology and Algebra I, or teacher recommendation
Graduation: Physical Science requirement
College Prep: Phys. Science lab (d) or elective (g) requirement

Chemistry is a rigorous one-year course, which emphasizes the basic concepts of Chemistry while it builds and expands upon the student's knowledge gained from previous physics and biology courses. High level mathematical problem solving skills are applied to Chemistry concepts, therefore a high degree of mathematical proficiency is necessary for success in this class. The course also emphasizes critical and creative thinking skills through written assignments and real-world problems and projects.

Advanced Placement (AP) Chemistry
Level: 11-12
Length: Year (10 credits)
Prerequisite: Chemistry and Algebra 2
Graduation: Physical Science requirement
College Prep: Phys. Science lab (d) or elective (g) requirement

AP Chemistry is a rigorous college level Chemistry course designed to prepare students to take and pass the AP Chemistry exam. The class emphasizes concepts of chemistry, mathematical problem solving skills applied to chemistry problems, critical thinking skills utilized in class and in written assignments, and hands-on experiences. Laboratory activities are a major part of this class. A mandatory parent meeting will be held in the Spring Semester.

Forensic Science
Level: 11-12
Length: Year (10 credits)
Prerequisite: Physical Science, Biology and Chemistry
Graduation: Fulfills CSU and UC (“g”) elective requirement

Forensic science is a broad survey of the scientific skills, disciplines and training used by forensic specialist in law enforcement, business and industry.

Physics
Level: 10-12
Length: Year (10 credits)
Prerequisite: Algebra 2, concurrent enrollment in Pre-Calculus recommended
Graduation: Physical Science requirement
College Prep: Phys. Science lab (d) or elective (g) requirement

Physics is designed for students interested in a technical career or science, engineering major in college. The course examines the fundamental principles of physics using high-level mathematical skills. Students will: explore mechanics, light, sound, heat, electricity and magnetism through computer based labs and use of various probes like force, light, acceleration, motion, sound, photo-gates, magnetism as well as traditional labs; learn about optics using laser labs and optic benches; experiment with electrical circuits using computer interfaced amplifiers and computer simulated oscilloscopes; apply concepts of physics in projects throughout the course. Past projects have included: robotics, glider design, Rube Goldberg Machines, catapults, orbital space settlements; learn to use computers for curve fitting, graphing of data and statistical tools to analyze data. This course incorporates the National and California Standards in Physics.

Advanced Placement (AP) Physics
Level: 10-12
Length: Year (10 credits)
Prerequisite: Physics and concurrent enrollment in Pre-Calc recommended or teacher recommendation for concurrent enrollment in Algebra 2
Graduation: Physical Science requirement
College Prep: Phys. Science lab (d) or elective (g) requirement

Advanced Placement Physics B is a traditional college-level introductory course that provides a systematic understanding of the fundamental principles of physical phenomenon that governs chemical, biological, terrestrial and astronomical processes. The course provides a foundation for the intensive studies of most of the other sciences and for an understanding of many technological applications of sciences. Major areas of content include Newtonian mechanics, work and energy, wave motion, light and optics, electricity and magnetism, heat and thermodynamics, fluid mechanics, and atomic and nuclear physics. Science attitudes, thinking processes, and skills in applications of science technology to social problems and personal decision-making are emphasized. The course qualifies as a laboratory science in meeting UC entrance requirements. This course is an elective, but may be used to fulfill one year of the two-year science requirement. A strong background in algebra and trigonometry, especially manipulating functions, is needed. The course prepares students to take the Advanced Placement examination. A mandatory parent meeting will be held in the Spring Semester.
### World Cultures and Geography
- **Level:** 9
- **Length:** Year (10 credits)
- **Prerequisite:** None
- **Graduation:** Elective credit
- **College Prep:** History (a) or elective (g) requirement

This course enhances student’s understanding of the global environment in which they live. During the year-long course, emphasis is placed on students acquiring knowledge of world cultures, world problems, basic geography, human migration, the humanities, critical thinking skills, reading strategies, study skills, vocabulary development, writing ability, and speaking for the purpose of debate and presentation. The program integrates a variety of teaching methods that requires students to engage in both group and individual learning.

### World History
- **Level:** 10
- **Length:** Year (10 credits)
- **Prerequisite:** None
- **Graduation:** World History requirement
- **College Prep:** History (a) or elective (g) requirement

Students have an opportunity to compare and contrast philosophies, languages, literature, religion and the arts of world cultures. The students become more knowledgeable about the effects of geography upon the political and economic development of cultures.

### U.S. History
- **Level:** 11
- **Length:** Year (10 credits)
- **Prerequisite:** None
- **Graduation:** U.S. History requirement
- **College Prep:** History (a) or elective (g) requirement

United States history is designed to help students examine major turning points in American history in the twentieth century. Throughout the year students will examine American culture including religion, literature, art, drama, architecture, education, and the mass media. The year begins with a selective review with an emphasis on the nation’s beginning including the main influences in the founding of the United States and the caused and consequences of the Civil War.

### American Government
- **Level:** 12
- **Length:** Semester (5 credits)
- **Prerequisite:** None
- **Graduation:** American Government requirement
- **College Prep:** History (a) or elective (g) requirement

American Government is a semester course designed to help students develop an understanding of the institutions of American government. Students examine and compare and contrast the development and processes of governments in both the United States, and to a lesser extent, the world. Students also examine related major issues of the world today. Emphasis is placed on the development of social participation skills and civic responsibility.

### Economics
- **Level:** 12
- **Length:** Semester (5 credits)
- **Prerequisite:** None
- **Graduation:** Economics requirement
- **College Prep:** History (a) or elective (g) requirement

This semester course is designed to deepen students’ understanding of the economic problems and institutions of the nation and world in which they live. It will provide them with the knowledge and skills needed to make reasonable decisions on economic issues as citizens, workers, consumers, business owners, managers, and members of civic groups. The course is primarily a course in social science enriching students understanding of the operations and institutions of economic systems rather than a course in household or business management.
**Psychology Within Society**  
**Level:** 9-12  
**Length:** Year (10 credits)  
**Prerequisite:** None  
**Graduation:** Elective credits  
**College Prep:** Elective (g) requirement  

This entry-level course introduces students to the systematic and scientific study of the behavior and mental processes of individuals and group behavior. Students will compare and contrast the major psychological paradigms; evaluate historical and sociological determinants, and know and perform various tests, measures, assessments. Recommended for Professional Human Development Academy participants, but open to all interested students.

**Advanced Placement (AP) Psychology**  
**Level:** 11-12  
**Length:** Year (10 credits)  
**Prerequisite:** Teacher recommendation  
**Graduation:** Elective credits  
**College Prep:** Elective (g) requirement  

AP Psychology covers the equivalent of a college freshman Psychology course and prepares students to take the Advanced Placement examination. The students investigate and acquire knowledge in the basic foundations of scientific psychology. Through varied modalities, students compare and contrast the major schools of thought from a historical and sociological perspective. The students examine different methods of test, measures, and assessment with emphasis on bias related issues: cultural, ethnic, genre, contemporary controversies are explored. The students analyze ethical concerns: objectively and subjectively. Particular emphasis is placed on proper APA writing format as well as extensive reading, both primary source and supplemental literature, essay writing, intense group interaction, and individual presentations involving critical reasoning skills. The students explore possible career choice within the psychological community and evaluate current trends, which may affect future occupations. A mandatory parent meeting is held in the Spring Semester.

**Brain Harmony 1**  
**Level:** 9-12  
**Length:** Year (10 credits)  
**Prerequisite:** None  
**Graduation:** Elective credit  

Brain Harmony 1 is a year-long (two semesters, 5 credits each) elective class. It is offered through the Professional Human Development (PHD) academy at Freedom High School, but open to anyone in 9-12th grade. It is an integrative, interdisciplinary, project-based-learning class designed to teach (and learn) 21st century skills and habits of mind critical to success in the “real-world.” Students will engage in projects designed to solve real problems that are relevant to their lives.

**Brain Harmony 2**  
**Level:** 9-12  
**Length:** Year (10 credits)  
**Prerequisite:** None  
**Graduation:** Elective credit  

Brain Harmony 2 builds upon the projects, case studies, and service learning proposal developed in Brain Harmony 1. In this class, students and teachers will work together to create a personalized class and curriculum designed to solve “real-world” problems. In Brain Harmony 2, students will have an opportunity to build on their project and develop leadership and entrepreneurial skills to make their vision come alive. At the conclusion of the year, students will have completed a community project that will help solve a “real world problem” and become empowered global agents of change.

SDAIE courses are specially designed for English Learners, usually Level 3 and sometimes Level 4. These courses meet the state required standards for a particular subject area and earn the same number of credits toward graduation.

SDAIE classes focus not only on the particular subject but also focus on English Language development skills that will prepare the student to successfully transition into the mainstream curriculum.

SDAIE courses are open to students in grades 9-12. SDAIE class offerings change on a yearly basis. More information can be obtained through the Counseling Department in regard to what courses are currently being offered.

We offer an ELD four-block of classes designed for English Learners at CELDT Level 3 or below. It is open to any grade level, but usually students in grades 9 or 10 are placed in this block of classes.

Students who successfully complete these four classes will earn credit for two years of English requirements (20 credits) and also earn 20 elective credits.

This is a very important class which supports English Language Learners with language acquisition skills and helps them to develop a solid academic foundation to build upon.

Staff from the Special Education Department meets with other school personnel and parents to cooperatively decide appropriate high school supports for special education students. Each student’s disability is evaluated with placement and services based on the student’s specific needs. All placements must have prior approval of the IEP team and an Individual Education Plan must be written before students are placed in any special education class.

The Excel Program provides services to students with special needs working towards earning a high school diploma through the instructional support model. Students in this program receive their core instruction in the general education class setting. Supplementary supports and services are provided within the regular class or within a special education setting.

The Life Skills program provides a functional academic curriculum to students with severe disabilities. Students receive the majority of their instruction within a special education environment, with opportunities to participate in general education classes as appropriate. Upon completion of the program, students are awarded a Certificate of Completion.
Health
Level: 9-12 (Grade 10 recommended)
Length: Semester (5 credits)
Prerequisite: None
Graduation: Health requirement

This course is designed to help students examine their lifestyles, select goals, and make plans to achieve and maintain optimum health. The course focuses on choosing behaviors, which help prevent illness and accidents, promote health for one's self and others, and improve the quality of the environment. The course promotes responsible decision-making and provides students with life management skills they can use for the rest of their lives.

Acrobatics Plus
Level: 9-12
Length: Semester (5 credits); repeat for credit
Prerequisite: Teacher approval
Graduation: Elective credit

This course focuses on dance and acrobatic skills. Students will learn and practice the basic, intermediate and advanced dance, partner stunting and basic tumbling skills with the goal of learning and improving dance and acrobatic skills. Students also learn the history of dance.

College Entrance Test Review
Level: 10-12
Length: Semester (5 credits); repeat to 15 credits
Graduation: Elective credit. May be repeated

Students in this class receive specific instruction to help prepare them for the SAT and ACT tests required for college entrance. In addition, students will receive instruction to help them produce superior personal statements, the essays required by many universities for entrance.

Student Leadership
Level: 9-12
Length: Year (10 credits); repeat to 40 credits
Prerequisite: Application process
Graduation: Elective credits

Students learn the skills to become inspiring leaders: effective communication skills, team-building, working well with teams, running effective meetings, conflict resolution, negotiations, overcoming obstacles, creative problem-solving, creating a vision, setting goals, and implementing plans. Students orchestrate and carry out school wide events and activities and contribute to the building of our community. Students are selected through a recommendation and screening process.

Connect Crew
Level: 10-12
Length: Year (10 credits); repeat to 30 credits
Prerequisite: None. Teacher recommendation and interview
Graduation: Elective credits

Connect Crew is a student centered mentoring class. This class engages, develops and trains students to be leaders and mentors. Connect Crew is about facilitating a smooth transition both socially and academically for all freshmen throughout the school year. Connect Crew is about more than events: it is about helping freshmen achieve success and it is that initial success that propels freshmen toward continued success throughout high school. The Connect Crew class is based upon seven units of study developed by the Boomerang Project.

PUSH (Pursuing University Skills in High School)
Level: 9-12
Length: Year (10 credits); repeat to 40 credits
Prerequisite: Middle School AVID and/or application process
Co-Requisite: Enrollment in college preparatory courses
Graduation: Elective credit

Pursuing University Skills in High School (PUSH) is an elective course that prepares students for entrance into four-year colleges. There is an emphasis on analytical writing, preparation for college entrance and placement exams, study skills and test taking, note taking, and research.

Study Hall
Level: 9-12
Length: Semester

Study Hall provides the opportunity for students to do their homework, study for exams, or work on class projects during the school day. Textbooks are available to the students along with limited supplies for projects such as markers, colored pencils, paper, calculators, etc. The goal of study hall is to provide an environment that encourages learning and study skills. The expectation is for all freshmen to take a study hall period to ensure academic success.

Staff Assistant
Level: 11-12
Length: Semester (10 credits); repeat to 30 credits
Prerequisite: 2.0 GPA with counselor, instructor, or administrator approval
Graduation: Elective credits
Grade: Pass or Fail

Students in these courses will work under teacher or administrator supervision in a work or lab setting within the school environment.

Driver Education/Decision Making
Level: 10-12 (Grade 10 recommended)
Length: Semester (5 credits)
Prerequisite: Age 16 by end of semester
1st semester: At least 15.5 yrs. by start of semester
2nd semester: At least 15.5 yrs. by start of semester
Graduation: Elective credit

Drivers Education: students study the vehicle code and safe driving practices to prepare for the state's written exam. Decision Making: students explore career pathways and decisions that will lead to a successful career. Students also learn how to use the Career Center.

Yoga Plus
Level: 10-12
Length: Semester (5 credits); repeat to 10 credits
Prerequisite: None
Graduation: Elective credit

This course will focus on the basics of yoga, technique and practice. Yoga styles will include Bikram, Vinyasa Flow, and Iyengar. Non-religious yoga philosophy and yoga history will be introduced. Other cultural styles and histories of movement such as Tai Chi, improvisation, partner dance, and the history and philosophy of social and cultural movement and social dance etiquette will be introduced. Students will need a yoga mat, towel, and loose non-constrictive, non-revealing clothing.

Foundations for Success
Level: 9-11
Length: Semester (5 Credits)
Prerequisite: None
Graduation: Elective credit

Foundations for Success investigates a wide range of elements of success in high school and beyond. Students read/learn about/discuss and do activities to help with adjustment to the adult world and begin looking into their futures to include high school. Students learn time management skills, self-motivations, SMART goals, vocabulary needed to understand their future options around college and career, take personality inventories, briefly investigate 16 major career pathways and the reality of many careers. Students also learn job interview skills and the basics of getting and keeping a job.
