

Sunday, April 5, 2020

Hi everyone!!!

1. Work will primarily come from a central location for all math classes. Since that was the decision, most Algebra 1 teachers wanted to start with a review of solving equations and graphing lines.
2. To access the assignment, go to the Freedom website. Under the image you will see a column titled "announcements." Click on the link that says "Online/Distance Learning," all your classes should start here. You will then click on the "Math" icon and then go and click on ALGEBRA 1 or just [click here](#).
3. This is where you will find the assignment. To complete the assignment, you can use your hardcopy textbook or use the online textbook on Clever or pick up a packet at school starting on Monday at 9 am. There are directions on nearly every webpage for Clever! (Log in and password are the same-your student ID number).
4. Online, complete the assignment. I will access your work through Clever. If you are using your hardcopy textbook, because you cannot access Clever online, then you will need to scan or take a picture of our work and send it to me or drop off your work at school by the following Monday. This is ONLY if you cannot access Clever website.
5. Here you will find videos and notes for videos to help you with the work.
6. Before all of this happened, grades were based solely on your test and quiz scores. For now, that has changed and to begin with your participation/attendance at zoom meetings and/or the work you turn in (via hardcopy, email or Clever) will now be part of your grade.
7. My normal school email is: murnaned@luhsd.net

On Tuesday I will have a "Zoom" meeting from 9:30 to 10:30 am to answer any questions you might have about accessing your work, as well as any questions about your work. I will send out another email 30 minutes before the meeting that will have a link to the meeting. When you click the link you will need to download the app for smartphone or it will prompt you to download a small file on a computer.

Also, I will have "Zoom" office hours on Wednesday from 11:00-12:00 pm

At the end of the week I will evaluate the times and possibly offer more office hours. I will also continue to monitor my email and please email me any questions or concerns.

I know these are crazy times, but we will find a way to navigate these new ways. The district is still working and tweaking this distance learning, how we are going to do 4th quarter and 2nd semester grades and some things could change. I will let everyone know anything I find out that might change. Thank you for your flexibility and understanding. If you have any questions or concerns, don't hesitate to reach out by email.

Sincerely,

Mr. David Murnane
Algebra 1
