Imagine Edgenuity and Summer School Program Information

The curriculum offered in all Summer School programs adheres to the school board-mandated LUHSD 9 -12th grade courses of study and courses are offered through Imagine Edgenuity (Edgenuity) – Math, English, Social Science, Science, and Health.

Features and Information:

- Common Core Standards-aligned online video-based curriculum where students are required to view the teacher-lead video and may rewind or repeat for clarification as they move through each course unit.
- The program allows educators to customize the curriculum for their students, including modifying or accommodating the needs of students with IEP's and/or 504 Plans.
- Teachers motivate, guide, support and monitor student progress as the student moves through course requirements completing lessons, assessments, and interactive activities. Communication with the student may occur through email or personal contact.
- **In order to complete a credit recovery course (previously failed 5 credit course), a student typically works online for 30 hours.**
- Students may only take one course at a time, and a total of two during the summer program.
- With this model, motivation is the key! **Students are required to actively participate and produce a minimum of 10% daily progress** while doing their very best to pass all activities including quizzes/tests.
- Students earn the "Overall Grade" of the course.
- Showing mastery in the pre-test process will eliminate specific activities and the course will be automatically adjusted (less time needed to complete the course).
- All assessments, including pre-testing are enabled unless there is a teacher concern. If there is a concern, (possible cheating) at any time, including pre-tests, quizzes, etc., the teacher will communicate with my parent, and assignments/assessments may be locked until further resolution.
- **In order to earn credit, students must complete 100% of the course (including pre-tests).**
- **Courses should be completed within 8-16 days.** Final course completion will be communicated by the teacher.
- Students will access the curriculum via Clever.com / Imagine Edgenuity and **NOT** Canvas. The course begins with an orientation and is followed by video-based instruction.
- Each course uses video and text content and various types of assignments including writing assignments, projects and graded tasks to support different learning styles.
- Again, students are required to work on lessons daily until the course is completed.
- Student and parent must read, sign, and return the Academic Integrity Policy (AIP) with the application (Page 4 - backside of the application)
