## AP Calculus Summer Homework

It will be up on the website for the school (http://libertyunion.schoolwires.net/heritage). If you would like a hard copy, come to room A104. You will not need a book to do your summer homework. Your best resource will be your Pre-Calculus notes from this year and a graphing calculator. If you are stuck on some problems or have any questions, I will available in person in room A104, on June $14^{\text {th }}, 3: 15-4: 15$, as well as on June 28th, from $3: 15-4: 15$. Please bring a mask. My expectation is that the Summer Homework is complete the first day of school and you will be having a test on the material within the first two weeks of school.
