Enrollment

For adult education programs, adults include persons age 18 or older and other persons not concurrently enrolled in a regular high school program. However, high school students may be concurrently enrolled in adult education under the conditions specified in the section "Concurrent Enrollment of High School Students" below. (Education Code 52523, 52610)

Adults shall have first priority for enrollment in any adult education class, provided they enroll during the regular enrollment period. (Education Code 52523)

With the exception of programs for adults with disabilities specified in Education Code 52570, adult education classes shall be located in a facility which clearly identifies attendance in the class as being open to the general public. (Education Code 52517, 52570)

Concurrent Enrollment of High School Students

High school students may be permitted to enroll in an adult education program, course or class for sound educational purposes, including, but not limited to, the following: (Education Code 52523)

- 1. The adult education program, course, or class is not offered in the regular high school curriculum.
- 2. The student needs the adult education program, course, or class in order to make up deficient credits for graduation from high school.
- 3. The adult education program, course, or class allows the student to gain vocational and technical skills beyond that provided by the regular high school's vocational and technical education program.
- 4. The adult education program, course, or class supplements and enriches the high school student's educational experience.

High school students are expected to enroll in regular high school classes before seeking admission to any similar classes offered in the adult education program. A failed course, however, may be repeated through adult education.

Before enrolling in an adult education class, the high school student shall complete a counseling session that includes the student's parent/guardian, and a certificated representative of the high school. The certificated high school representative shall ensure that the student's school record includes written documentation of the counseling session and both of the following statements: (Education code 52500.1, 52523)

- 1. That the student is enrolling voluntarily in the adult education course or class.
- 2. That this enrollment will enhance the student's progress toward meeting educational requirements for high school graduation.

The above statement shall be signed by the student, the student's parent/guardian, and the certificated high school representative.

Classes offered in the district's adult education program shall supplement and not supplant the regular high school curriculum. No course required by the district for high school

The Superintendent or designee shall regularly submit to the California Department of Education for approval the titles of classes that have been approved by the Governing Board to be offered in any of the program areas listed above.

Adults may also be enrolled in community service classes offered by the district. (Education Code 51811)

All adult education programs, courses, and classes and their enrollment period shall be published in the district's catalog of adult education classes provided to the public. (Education Code 52523)

Independent Study

The Superintendent or designee may make independent study available as an instructional strategy for students enrolled in adult education as appropriate to meet their individual needs.
