### COVID RESPONSE:

“The **University of California** recognizes the challenges that student are facing due to the COVID-19 pandemic and, in response the UC is temporarily suspending the standardized test requirement for students applying for fall 2021 freshman admission only.”

“The **California State University** has temporarily suspended the SAT and ACT test requirements only for students applying for admission in the fall 2021 as freshmen. This means that the SAT and ACT scores will not be used for determining who gets admitted into the CSU. If you have already taken and submitted your ACT or SAR scores, CSU campuses will not use them in the admission evaluation process to determine who gets admitted. However, they will be used as one of the measures to place you in the proper mathematics and English courses.”

## TRANSCRIPTS

UC/CSU: Neither system requires transcripts at the time of application. However, as part of an augmented or supplemental review some students may receive special requests from a particular UC or CSU campus to supply a transcript - thus some UC and CSU campuses MAY request a 7<sup>th</sup> semester transcript AFTER the grades are posted in December. This CAN be in addition to the FINAL transcript. Unless otherwise requested, it is likely that you only need to submit a FINAL transcript. A final transcript includes all four years of high school work, plus verification that the high school diploma has been earned. [Official Transcript Request](#)
