

The Single Plan for Student Achievement
2020-2021

LIBERTY HIGH SCHOOL

07617210733980

CDS Code

Heather Harper

Date of this revision: October 2020

The Single Plan for Student Achievement (SPSA) is a plan of actions to raise the academic performance of all students. California *Education Code* sections 41507, 41572, and 64001 and the federal Elementary and Secondary Education Act (ESEA) require each school to consolidate all school plans for programs funded through the ConApp and ESEA Program Improvement into the SPSA.

For additional information on school programs and how you may become involved locally, please contact the following person:

Stephany Reynoso

School Site Council (SSC)

The School Advisory Council (SSC) is composed of parents, community members, students, teachers, administrators, and classified staff members. It oversees the development of the Single Plan for Student Achievement (SPSA) which directs school improvement efforts. The council in coordination with department chairs monitors the plan by reviewing student achievement data and progress toward implementation of action plan goals. Based on identified SPSA goals and needs the categorical funds budget is allocated.

2020-21 SSC Expenditures

In order to identify the students the following criteria is used: English Learners (levels 1-5), social economically disadvantaged students (Free and Reduced lunch qualifiers), foster youth, homeless students, intervention classes to help students achieve grade level proficiency (Intensified Algebra, Geometry support, Orton Gillingham, Academic Reading Development, Tutorial support classes) and students deficient in credits needed for graduation (one year behind the coursework for the respective grade level).

Student/Community Profile Data

General Background and History

Liberty High School is located in Brentwood, California, an East Contra Costa County suburb of the San Francisco Bay Area. Liberty High School serves the communities of Brentwood, Byron, Discovery Bay, Knightsen, and Oakley. The California Delta, also known as the Sacramento-San Joaquin River Delta, winds through the area, helping to create a strong agricultural presence. With roots as a traditional farming community, Brentwood is rich in small town tradition. Local events such as the Harvest Festival, Holiday Parade, Summer time Concerts in the Park, Farmer's Market, and Homecoming Parade bring local citizens together and are especially enjoyable for families. Harvest time is still a big part of the school community as a number of students and families own or work in the agricultural industry. As the community has grown, there are also many families who commute to the greater Bay Area for work. Liberty High School has been an important part of the community for over 100 years and many of the local businesses support us since the school is located in the heart of the downtown community.

Family and Community Trends

Brentwood has transformed from a traditional farming town to a suburban city and bedroom community. Many citizens and parents of our students travel outside of the community for work. Some of them travel many hours a day in their commute, going as far as the Silicon Valley to cities such as Milpitas, Fremont or San Jose. Others travel toward the Bay Area to cities such as Berkeley, Oakland or San Francisco on roadways that have levels of traffic that are among the worst in the country. The comfortable suburban living of many of our families is paid for by jobs in distant locations. The housing boom of the 2000's brought a period of rapid growth to Brentwood and while it has slowed, the last couple of years have been generous and development has picked up again. The population of Brentwood from the 2018 census was 63,800.

The Brentwood community diversity is listed below based on 2018 estimated population:

| | Brentwood | Byron | Discovery Bay | Knightsen | Oakley |
|------------------|-----------|-------|---------------|-----------|--------|
| White | 63.9% | 52.2% | 78.3% | 65.2% | 62.1% |
| Hispanic | 21.8% | 39.4% | 16.9% | 29.0% | 36.9% |
| African American | 7.8% | 4.6% | 5.0% | .8% | 8.4% |
| Asian | 10.7% | .3% | 6.4% | 1.7% | 6.5% |
| Multiple | 8.7% | 2.4% | 5.8% | 2.7% | 7.0% |
| Other | 1.3% | 1.1% | 1.7% | .29% | 1.6% |

Datasource: www.city-data.com/city/-California Datasource: www.census.gov

The diversity of our school population is reflective of our greater surrounding communities and will be reported in the school data. The median household income in 2018 was \$103,771. The median age in Brentwood is 39.8. The median home value is \$543,900.

Liberty Union High School District

Our district growth corresponds with our community growth. Today Liberty Union High School District serves grades 9-12 with approximately 8,304 students. The district is comprised of three comprehensive high schools and two alternative high schools. The district diversity is reflected in our school site.

| 2019-2020 District Enrollment by Ethnicity | | | | | | | | | |
|--|-----------------|-------|------------------|----------|--------------------|------------------|----------------------|-------------------------|------------------|
| LUHSD | American Indian | Asian | Pacific Islander | Filipino | Hispanic or Latino | African American | White (Not Hispanic) | Multiple or No Response | Total Enrollment |
| Number | 41 | 382 | 50 | 465 | 3031 | 731 | 3189 | 415 | 8,304 |
| Percent | 0.5% | 4.6% | 0.6% | 5.6% | 36.5% | 8.8% | 38.4% | 5.0% | 100% |

State/Federal Program Mandates

During the past seven years, Liberty High School has modified and is beginning to implement programs to support State and Federal mandates in education. The use of part time release content coaches in English, math, and science have supported changes in programs and the implementation of the Common Core State Standards (CCSS), Next Generation Science Standards, and have focused on preparation for the Smarter Balanced Assessments (SBAC/CAASPP). Departments dedicate prep periods as well as allotted professional development during late start Wednesdays toward these goals. As a result of COVID-19, content coach positions were subsidized and only the math content coach has resumed for the 2020-21 school year.

Technology, such as AERIES, Illuminate, Canvas help manage classroom data such as grades and assessment scores, and our data technician assists with our student information system. AERIES allows for efficient data collection and queries and provides student and parent access to teacher gradebooks. With the addition of Canvas, our new learning management system, students are able to engage in discussion board posting,

Liberty High School has continued to excel in the realm of career technical education. Our school has a rich history in many areas of career focused electives and Regional Occupational Programs (ROP) coursework, but in recent years many of the elective programs have become A-G approved to support the CTE movement in the state of California. These programs and the teachers who craft them have continued to support our student's co-curricular interests while meeting their post-secondary goals at the highest level possible. The Carl Perkins grant funds have also supported programs which have been added to our school by providing special funding for supplies that otherwise may not have been available to our school and student population.

Our California Partnership Academies (CPA) programs are an additional way that we support our students and their school-to-career goals, specifically through the Teaching and Learning Careers (TLC) Academy and the Public Arts and Design Academy (PADA). These special cohorts of students benefit from a sizable grant from the state of California and a dedicated team of teachers that meet frequently to align practices and discuss student needs. Since grant compliance requires at least 50% at risk student participation, academies are an effective way of keeping this special population connected to the school and to encourage the journey into post-secondary education.

Throughout our classrooms, our co-curricular, and our extra-curricular programs, students display 21st century skills that are being modeled by 21st century teaching practices. Teachers have monthly opportunities to share out and in some instances model best practices for their peers.

One example of best practices is seen by our team of teachers who are part of a district-wide EL department. Teachers from all core programs have worked together and been trained specifically to support our sizable EL population of students. Since all students identified with the lowest levels of English Language Proficiency are in our program at LHS, we are proud of our robust program that best serves this special population of students.

Parent/Community Organizations

Parent involvement at Liberty High School is quite strong in the areas of co-curricular programs and athletics. There are numerous booster clubs at LHS including the Athletics Boosters, Parents of Playmakers, 80 Volts, Band Boosters, the Parents Club, Agriculture Boosters, and the Unified Sports Program, a sports partnership supporting students with special needs.

The English Language Advisory Committee (ELAC) is the Advisory Committee for our English Language Learners program. ELAC provides information and resources and seeks input from our parent group. The Village Drive Community Resource Center provides tutoring in academics for students and families living in our socio-economically disadvantaged areas. In addition, the African American Parent Association (AAPA) was established February, 2016.

The Sober Grad Night Committee is composed of parents as well as community members and business owners. They fundraise and plan to host an overnight event on campus after the graduation ceremonies so that students have a safe place to celebrate their important achievement and milestone.

The National Honor Society (NHS) and California Scholarship Federation (CSF) both have chapters on our campus which supports students reaching high levels of academics and provide opportunities to earn scholarships and explore college campuses.

Community Organizations have strong connections to programs on campus including the Soroptomist Club (S Club) and Rotary International (Interact).

We also have the County Education Programs located on campus to serve developmentally and physically disabled students. This provides an opportunity for Liberty High School students to support and interact with a more diverse student population.

Community Foundation Programs

The Liberty Education Foundation supports academics and fundraisers to return funds to the teachers and classrooms through grants for special projects or programs the grants are offered twice a year.

The Local Scholarship Program finds incredible support from various business and private donors to assist our graduates to continue in a post-secondary school setting. Volunteers on the staff spend countless hours combing through applications and essay, matching students to the scholarships and sponsors that will best support them after graduation. The local scholarship program has been in place for decades and hosts an evening event each spring to recognize students for their achievement. This is a very special night for students and families.

The Graduates of Distinction program recognizes Liberty High School District graduates who have made outstanding contributions in their chosen fields. Each year alumni guests are welcomed back to be recognized and share their message in an assembly for staff and students on each school site.

The Liberty High School Athletic Hall of Fame program recognizes high school athletes and coaches who have continued in the sports arena through high school, into collegiate sports, and professional sports.

The community art program is on display throughout the community on electrical boxes, local overcrossings and pathways, as well as sculptures in community parks. This co-curricular program for the arts at LHS has become very well recognized by the City of Brentwood and community members.

The ASB and Leadership program organizes many of the campus events at LHS and is essential in maintaining the school spirit and pride that is evident on our campus. They have an active social media presence that keeps students and families aware of what is happening at LHS. This has been especially creative during our online distance learning format, yet students continue to take the lead and explore and implement multiple ways to encourage engagement and community from Liberty students virtually.

The Regional Occupational Program (ROP) program has been operating on campus for many years and recently has been quite successful, offering programs such as auto and wood shop, as well as agriculture courses, desktop publishing, and sports medicine.

School/Business Relationships

The local free newspaper Brentwood Press and Discovery Bay Press cover numerous school events and activities and highlight students with articles such as "Athlete of the Week."

Numerous local businesses support both large and small student-focused donations of food, formal wear, floral items, cars, and sponsorship for events such as Homecoming, Freshman Safari, Liberty Auto Show, Graduation, Athletic events, and much more.

The safety and security of the students is a high priority at LHS, and the Brentwood Police Department supports us by providing a School Resource Officer from the Brentwood Police Department, who works directly with students and staff. The Contra Costa County Probation Department provides a probation officer, who works with students on campus in a variety of capacities. During the years, we have facilitated a number of trainings for our staff & community in conjunction with the Brentwood Police Department, which include traffic safety, the dangers of vaping, and active intruder training. Every other year the school and police department collaborate to put on the *Every 15 Minutes* event, which highlights the dangers of teen drinking and driving.

Local businesses, healthcare facilities, and schools support Liberty academics by providing placement sites for the students participating in internship programs. These internship opportunities are offered through academies including Teaching and Learning Careers, Health Careers, and the Public Art and Design Academy. Through the internships, students are met with a variety of opportunities to earn school-to-career experience in a chosen field.

Los Medanos Community College (LMC) operates a satellite campus in the city of Brentwood and the facilities are only a few miles from our high school campus, giving our students access to college courses and resources. Many programs at Liberty work closely with LMC, including our Auto Engineering pathway, ELD program, Special Education program, and others.

Staff Description

Certificated Staff by Gender

| | 2017-2018 | | 2018-2019 | | 2019-2020 | |
|--------|-----------|---------|-----------|---------|-----------|---------|
| | Number | Percent | Number | Percent | Number | Percent |
| Female | 87 | 68% | 84 | 65% | 87 | 62% |
| Male | 41 | 32% | 45 | 35% | 53 | 38% |
| Total | 128 | 100% | 129 | 100% | 140 | 100% |

Summary: LHS teaching staff is predominately female

Certificated Staff by Ethnicity

| | 2017-2018 | | 2018-2019 | | 2019-2020 | |

| Social Worker | 0 | 0 | 0 |
| Nurse (District Level) | 1 | 1 | 1 |
| Speech/Language/Hearing Specialist | 1 | 1 | 1 |
| Resource Specialist (non-teaching) | 0 | 0 | 0 |
| Other (paraprofessional) | 22 | 28 | 27 |
| Support Staff (career center, data tech, registrar) | 46 | 46 | 46 |

Source: Dataquest

Summary: There are currently five counselors available to students. All counselors are available to work with students in academics and crisis communication. One counselor is identified as the Target Assistance Counselor to support students who have been self-identified or identified by staff to need additional support. In addition, there are two school psychologists and an MFT intern on-site.

Specialized Training (CLAD, BTSA, etc.)

All certificated teachers at Liberty High School hold CLAD certification and teachers hired who qualify for the Beginning Teacher Support and Assessment (BTSA) training are provided the program through the Liberty Union High School District.

Support Staff

Academic Counselors and Other Support Staff (School Year 2019-20)

| Title | Number of FTE Assigned to School | Average Number of Students per Academic Counselor |
|--|----------------------------------|---|
| Academic Counselor | 4.0 | 605 |
| Target Assist Academic Counselor | 1.0 | 250 |
| Library Media Teacher (Librarian) | .33 | |
| Library Media Services Staff (paraprofessional) | 1.0 | |
| Psychologist | 2.0 | |
| Social Worker | 0 | |
| Nurse | 0 | |
| Speech/Language/Hearing Specialist | 1.0 | |
| Resource Specialist (non-teaching) | 0 | |
| Other (para professionals) | 19.17 | |

ACS WASC Accreditation History for the School

Liberty High School has held accreditation from the Western Association of Schools and Colleges since the 1960's. The most recent accreditation was awarded in the 2010-2011 school year, a six-year accreditation with a three-year review. The Visiting Committee reported progress during the 2014 school year.

Mission

We empower students, through research-based practices and an integrated system of support, to be globally-responsible, collaborative individuals, equipped for post-secondary excellence.

Vision

When we achieve our mission:

- All students will meet the UC/CSU a-g requirements and graduate.
- Progressive curriculum, integrating academic and real-world scenarios, will provide well-rounded educational experiences for all students.
- The school personnel will create a collaborative environment that supports best practices for all students at all levels.
- Students and staff will use current technology as a tool of learning.
- Our system will support the academic and emotional wellness of our students.
- Students will design their own pathways to post-secondary excellence.

School-wide Learning Outcomes

Academics

- Students will demonstrate reading, writing, and speaking skills across all content areas.
- Students will be able to utilize and illustrate skills through academic performance, collaboration, and critical thinking.
- Students will demonstrate academic proficiency by meeting the common core and state content standards, while displaying academic honesty and integrity to graduate college or career ready.
- Students will access diverse texts and technologies proficiently.

21st Century Skills

- Students will identify, measure, and evaluate risks and persevere in their completion of goals.
- Students will use technology and text appropriately, proficiently, and effectively.
- Students will display interpersonal skills that will transition and adapt into post-secondary education and the work place.
- Students will show evidence of responsibility by contributing to the community, being role models and being positive productive students.
- Students will be introduced to multicultural and generational awareness.
- Students will develop creative and critical thinking skills, and apply these skills while working independently and in collaboration with others.

Citizenship

- Students will continue to develop mentally, emotionally, and physically to become socially responsible members of their community.
- Students will learn to adapt to difficult situations through self-advocacy skills, goal-setting, and decisiveness.

WASC Accreditation History

Liberty High School has held accreditation from the Western Association of Schools and Colleges since the 1960's. The most recent accreditation was awarded in the 2016-2017 school year, a six-year accreditation with a three-year review. The Visiting Committee reported this accreditation during the 2016-17 school year.

Mid-Year Review Progress

Liberty High School participated in a Mid-Year WASC Visit as part of their three-year review during the 2019-2020 school year.

Liberty High School will be working toward a six-year re-accreditation in the 2023-2024 school year.

The Mission, Vision, and School-Wide Learner Outcomes Process

Liberty High School reviews the Mission and Vision Statements every few years or as needed through a voluntary committee which includes representatives from a variety of departments and staff. The process is led by administration and consensus.

The SLO's were developed as a school-wide process facilitated by Focus groups and finalized by the WASC Leadership team. Once the SLO's were finalized they were presented to the Academy Coordinators and Department Chairs, Staff, Student Council, and School Site Council for input and approval.

All groups were supported the SLO's primary focus, minor changes were noted and made.

Program Improvement

Liberty High School is not in Program Improvement.

School Program Data

Students at LHS are offered a course of study that provides a succession of classes that will meet the UC/CSU A-G requirements while also completing the LUHSD graduation requirements. The core courses in English Language Arts (4 years), Math (3 years including Algebra and Geometry), Science (2 years), and Social Science (3 years) are essentially all college prep courses. The course of study is focused on preparing students for post-secondary excellence and also includes graduation requirements to support adolescent health and learning requiring Fine Art or World Language (1 year), Physical Education (2 years), and Comprehensive Health (1 semester). In addition, there are numerous AP courses, college prep and enrichment electives, and ROP coursework that students may enroll. Students will earn 270 credits to graduate.

There is a small population of students predominantly SpEd, EL or SpEL that may have an alternate set of courses that will meet their specified learning needs while meeting the graduation requirements. All three comprehensive school sites are on an A/B Block Schedule. The A/B Block schedule is designed so that students attend four classes each day, each class is 88 minutes long.

Intervention and Specialized Programs

The LHS Single Plan for Student Achievement outlines supports provided to our student population. Several programs exist and support students with a diverse set of needs at LHS.

English Learners (EL):

English Learners at LHS are supported by a specific pathway to meet their language needs while also satisfying graduation requirements. There is a designated team of teachers (EL Department) that have been trained in areas such as SDAIE strategies and Explicit Direct Instruction that will support EL student learning. Students will be placed in classes based on their CELDT testing scores. Students who are level 1,2,3 will be enrolled in double-blocked ELA courses. LHS is the district designated school for EL students level 1,2,3. Students who are level 4 or 5 are enrolled in regular courses and are provided supports as needed. Numerous EL classes have access to laptops and the ELAC committee is kept informed of the student progress and reporting data. There is an annual event held in the spring and hosted by the ELAC committee to celebrate students who have made progress in the language levels. Families are invited and encouraged to attend the celebration.

Socio-economically Disadvantaged Students (SED):

Tutorial Support Sections are available to students in the Special Education program as needed, as well as students who have been identified by staff or self-identified to need additional support built into their school program per their academic record or G.P.A. The tutorial support classes are taught by credentialed teachers and support personnel. Tutorial Support classes have access to student computer use. Target Assistance Counseling services are available for students who are need of emotional or academic support or services.

Interventions for students below proficient in state standards:

Our student population also has intervention needs which can be supported by a variety of the following programs offered to our student population. The afterschool H.E.L.P. program exists on our campus to provide a safe school environment for students to stay afterschool and complete

work in a supervised setting. At least one certificated employee is supervising the session Monday through Thursday in the library where students have access to technology and can meet in small groups when necessary. In addition to the general H.E.L.P. there is an afterschool Math HELP program that is proctored by a Math teacher Monday through Thursday each week. These programs are free of charge and are a walk-in program.

Four years ago Liberty adopted the PUSH class which follows the same guidelines as AVID. The program started with a class of approximately 30 freshman who were selected based on specific criteria. The goal of the program is to have the cohort of students stay together all four years and have all of them be a-g eligible upon completion of high school. These students are identified through working with the feeder schools to identify students who need a little more academic support to be successful and are going to be first generation going to college in their families. Each year a new group of freshman is selected. Currently there are three PUSH groups spanning from freshman thru junior. In 2020-21, Liberty will add the final section of PUSH to the master schedule and we will keep one group for each incoming class that enters Liberty.

The LUHSD provides a remedial summer school program each year on one of three comprehensive school campuses. The schools rotate and host every three years, and provide classes to students to make up units in core classes, this is mostly supportive of graduation requirements. The last couple of years have shown promise as our district summer school program is completed in an online format through Edgenuity, allowing more students the opportunity to recuperate missing credits toward graduation.

The online learning program Edgenuity was implemented in the 2019-2020 school year to support students who found themselves eligible to graduate, but with credit deficiencies. The online program was a hybrid program requiring students enrolled to attend a specified number of minutes in the school computer lab, proctored by a certificated staff member and also additional minutes could be completed online elsewhere.

Additionally, students who are credit deficient can find support at the Learning Center through Independence High School, when referred by their counselor, they may be able to complete or make-up some course units to graduate on time or complete necessary units missing due to mobility. The Adult Education Learning Center also houses programs for adults and G.E.D. program.

Services available for students designated with special learning needs:

Special Education program: Instructional Support Staff from the Special Education Department meet with personnel and parents to cooperatively decide appropriate high school class placements for students receiving special education services. Each student is evaluated, and placements are based on the students' specific needs. All placements must have prior approval of the IEP team and an Individual Education Plan must be written before students can be placed in the classes.

Tutorial Support Sections are available to students in the Special Education program as needed, as well as students who have been identified by staff or self-identified to need additional support built into their school program per their academic record or G.P.A. The tutorial support classes are taught by credentialed teachers and support personnel.

The Excel program provides services to students with special needs working toward earning a high school diploma through the instructional support model. Students in this program receive their core instruction in the general education class setting. Supplementary supports and services are provided within the regular class or within a special education setting. The Excel Lab is a classroom setting that is available for extra student support and for a quiet and less distracting testing environment.

The Lifeskills program provides a functional academic curriculum to students with severe disabilities. Students receive the majority of their instruction within a special education environment, with opportunities to participate in general education classes as appropriate. Upon completion of the program, students are awarded a Certificate of Completion.

Matrix Program is part of a special education program to serve the needs of students with emotional disturbance. The Matrix students are part of the LHS student population and participate in both regular and special education courses designated by the needs of the IEP and case manager. Country Costa County Office of Education (CCCOE) Day programs are housed on the LHS campus.

Other local intervention programs:

Foster services are paired with agencies and meet the population need. The Village Community Resource Center is an off-site location that provides services such as technology and tutoring to students who live in the LHS attendance boundaries.

A Place of Learning provides adult tutors and mentors to pair up and support students who elect to attend.

Police Activities League (P.A.L.) is available in the local community and is supported by the Brentwood Police Department. Students may be referred to the program through counseling or the School Resource Officer.

One Day at a Time (ODAT) is in negotiations with Liberty High School to begin providing direct services to students on site.

Liberty currently has Marriage and Family Therapists attend during the school day to meet with students. Staff or parents can refer students for therapy services, and during the 2020-2021 school year there are 2 MFTs meeting with students (virtually during COVID-19 closure)

Focused Programs

LHS Counselors work with students to assist in the high school four-year plan and college planning. The College and Career Center offers a variety of opportunities for students to research future careers or colleges. Guest speakers visit the campus regularly to support the students' college and career interests. During the COVID-19 school closure, many post-secondary programs and schools have been providing virtual tours of their programs.

The Teaching and Learning Careers Academy (TLC) at LHS is a member of the California Partnership Academy (CPA) which supports high school students who are interested in a future in education and provides a pathway of courses to complete. The program is supported by designated teachers and program coordinators who work closely with students with dreams and goals of working in an educational setting. In addition, to the CPA grant, the TLC program is or has in recent years worked with local schools to provide internship opportunities for our students to work in a real-world setting. The program also has partnerships with Los Medanos, CSU Sonoma, and Diablo Valley College. During COVID-19 and distance learning, students have been able to complete internships via zoom and breakout rooms, working with students in small groups reading or doing activities.

The Public Arts and Design Academy is also supported by the CPA grant program and our students who have a special interest in the arts have been supported by the grant funds and the city of Brentwood to design and present their art in the larger community. This program has supported youth in the areas of not only art and design, but also public speaking to present their ideas and plans to the city council. During COVID-19 and distance learning, students will be able to paint store-front windows in downtown Brentwood, as well as begin planning for their yearly project.

In addition to our two CPA academy's we also have a pathway programs in Health Careers. Each of these pathways provides students with a special interest in their future, career goals, and internship or business opportunities. The academy and pathway programs at LHS are not just a structure they are truly a support system to our students. Students in a pathway are aware of how much those teachers are willing to support their career interests and have specific adults on campus they can reach out to in an area of expertise. Numerous courses within the pathways have been UC A-G approved to support our students post-secondary goals and some of the coursework also align with our local community college programs as well.

College and Career Research Planning course: This year long class is designed to help students learn about the realities of transitioning into 21st century adulthood. Areas of study include: the value of education both in high school and beyond, cost of living, basics of finance and budgeting, job interview skills, choosing places to live, future job markets, all post-secondary education/training options, how to pay for college, choosing the right college, major and future career pathways. Students will read variety of current, relevant articles on topics, do research, participate in discussions and activities to help narrow the focus they'd like for their future adult lives.

Foundations for Success: Foundations for Success investigates a wide range of elements of success in high school and beyond. Students read/learn about/discuss and do activities to help with adjustment to the adult world and begin looking into their futures to include high school. Students learn time management skills, self-motivation, SMART goals, vocabulary needed to understand their future options around college and career, take personality inventories, briefly investigate 16 major career pathways and the reality of many careers. Students also learn job interview skills and the basics of getting and keeping a job.

LHS hosts a three-day walk-thru annually, in which a parent is required to visit the school and address the numerous items including: completing student enrollment paperwork, purchase items that may be necessary, receive their student schedule and textbooks, and may sign-up for clubs or activities. The walk-thru program takes place within 7-10 days prior to the first day of school. Campus tours are provided by the upperclassmen in an effort to introduce students to campus life as a "Lion".

Each student who enters LHS is welcomed through the Freshman Safari program which welcomes them to their new home campus. They become part of the "Pride" and are introduced to all things Liberty, by upperclassmen in a two-day orientation at the beginning of each school year. The Lions Crew program supports students throughout their freshman year to assist them in acclimating to the high school setting. The program also has a mid-year check-in with the same groups of students at the beginning of the spring semester.

Contra Costa County Mobile Health Clinic visits LHS two days a week during the typical school year. Services provided by the clinic vary and students may be referred or self-refer.

Concurrent Enrollment with local community colleges or online learning are allowed but are limited per board policy. Currently the courses offered at Liberty High School through concurrent enrollment are Administrative Justice, Fire Science, and Chemistry.

DEMOGRAPHIC DATA
SOCIO-ECONOMIC STATUS/parent education level

Students by Parent Education Level

| | 2017-2018 | | 2018-2019 | | 2019-2020 | |
|------------------------------|-------------|-------------|-------------|-------------|-------------|-------------|
| | Number | Percent | Number | Percent | Number | Percent |
| Not a HS Graduate (14) | 211 | 14.8% | 200 | 7.5% | 194 | 7.2% |
| High School Graduate (13) | 410 | 25.5% | 434 | 16.3% | 435 | 16.3% |
| Some College (12) | 844 | 33.1% | 850 | 31.9% | 816 | 30.6% |
| College Graduate (11) | 649 | 16.1% | 730 | 27.4% | 753 | 28.2% |
| Post Graduate Education (10) | 377 | 8.3% | 383 | 14.4% | 409 | 15.3% |
| Decline to State (15) | 58 | 2.3% | 71 | 2.7% | 54 | 20.2% |
| TOTAL | 2549 | 100% | 2668 | 100% | 2661 | 100% |

Summary: The number of parents that have only graduated high school has increased, while there is a decrease in the number of college graduates for the parents in Liberty's school community.

Summary: The AP courses at LHS are part of an open enrollment program. The number of students enrolling in AP courses and the number of AP courses offered has continued to increase across three years. The percentage of unduplicated enrolled in AP courses is currently at 29% of the student population. The largest population of students enrolled in AP courses are White at 34.4%, with 23.3% of the Hispanic and 24.5% African American subgroups enrolled. The number of AP pass rates at LHS meets the California average and exceeds the Global average by 2%.

Data Addressing the Eight State Priorities in the Local Control Accountability Plan

Conditions of Learning Certificated Staff by Credential Type

| | 2017-2018 | | 2018-2019 | | 2019-2020 | |
|--------------------|-----------|---------|-----------|---------|-----------|---------|
| | Number | Percent | Number | Percent | Number | Percent |
| Full | 123 | 96.9% | 127 | 98.4% | 140 | 100% |

Student Access to Standards-Aligned Instructional Materials

Students attending Liberty High School are provided textbooks and other learning materials in accordance with state and federal mandates. Across the last three years curriculum has been updated and purchased to be aligned with the common core standards. LHS is in alignment with the Williams Act.

School Facilities and Overall Condition

Liberty High School is the oldest campus within the district and has continued to be updated, improved, and remodeled where needed according to the school district and board of trustees in cooperation with the site administration. As the student population continues to increase, both permanent and portable facilities have been added to our campus. The following facilities at LHS are in good repair: structural buildings, electricity, HVAC, restroom/drinking fountains, safety, and the campus is clean both internally and externally. The Science department reviews classroom safety features annually and stores chemicals in the appropriate manner. The LUHSD maintenance and custodial staff are responsible for making repairs on an as needed basis and the online work order system is available to submit a request.

Within the last couple of years, the Measure U Bond passed to address the growing facility needs at Liberty High School. Improvements projects are currently underway on site even still. We recently opened a new stadium,, along with a new weight room and four outdoor basketball courts for use by PE or students at lunch. Recently completed projects include the softball field renovations, the movement of 18 classrooms to make room for the new Aquatic Center, the addition of two new portables, fencing around the perimeter of campus, and a new district maintenance/operations building. The Aquatic Center has recently been completed and will officially be named and opened in October 2020. Construction of the new main administration building and cafeteria renovations will begin sometime during 2020, with a tentative completion date of August 2021. In August 2021, construction will begin on the new 20 classroom building at the front of the school. These dates are all tentative.

The campus office buildings have been repainted, carpeted, and new office furniture has been purchased.

There are currently five full-time campus supervisors who assist in the daily operations of the school and safety and security of the students and campus. In addition, LHS has video surveillance for campus safety and security purposes.

Implementation of Academic, Content and Performance Standards

LHS purchased instructional materials, HMH Science, to align with the Next generation Science Standards. A couple of years ago, Social Science received new materials from TCI. In Language Arts, the Springboard curriculum has been implemented in the 2016-2017 school year. In Math the common core standards were implemented in 2015-2016 using the Big Ideas Curriculum. Social Science representatives meet quarterly for training and discussion and disseminate info back to sites and PLCs. In the core content areas common assessments are aligned to the new standards and teachers also are using CAASPP practice tests to guide instruction.

Enrollment in a Broad Course of Study:

LUHSD Graduation Requirements

| Course Requirements (10 Credits = 1 year) | | |
|---|--|----------------|
| Course | | Credits |
| English: | Students must pass 9th, 10th, 11th and 12th grade levels | 40 |
| Social Science: | a. One year of World History (10) b. One year of U.S. History (11) c. One semester of American Government (12) d. One semester of Economics (12) | 30 |
| Mathematics: | Students must pass three years of mathematics with completion of Algebra and Geometry | 30 |
| Science: | a. One year of Life Science (Biology) b. One year of Physical Science (Earth Science, Chemistry, Chemistry in the Community or Physics) | 20 |
| Fine Arts <u>or</u> World Language: | 1 year | 10 |
| Physical Education: | a. One year of 9th grade P.E. b. One year of 10th grade P.E. | 20 |
| Health: | Students must take one semester of health education | 5 |
| Electives | (1 year required) Accounting, Agriscience, Animal Science, Agribusiness & Economics, ROP Analytical Forensic Science, AP Economics, AP Psychology, Business Economics & Marketing, Child Development, Companion Animal Care, Earth Science, Economics, AP ROP Environmental Science, International Cuisine, Journalism, Literary Analysis through Film, Psychology within Society, ROP Sports Medicine, Virtual Enterprise | 115 |
| Total number of credits required for graduation | | 270 |
| Graduation Requirements | | |
| In order to graduate and earn a diploma, students must (1) complete 270 credits; and (2) complete the required course of study as noted above. Students who do not fulfill all of these requirements are not eligible to graduate from Liberty High School. | | |
| Academy Choice: | Public Art & Design (PADA) Gr 10 Public Space & Design; Gr 11 PADA Core | |
| | Health Careers Pathway | |
| | Teaching & Learning (TLC) Gr 10 TLC Child Dev; Gr 11 TLC Core | |
| | Virtual Enterprise Academy Gr 10 College & Career Research & Planning; Gr 11 Bus Econ and Marketing | |
| CTE Pathway: | Agriculture & Natural Resources CTE Pathway | |
| | Applied Technology CTE Pathway | |
| | Building Trades & Construction CTE Pathway | |
| | Business & Finance CTE Pathway | |
| | Hospitality, Tourism & Recreation CTE Pathway | |
| | Information & Communication Technology CTE Pathway | |
| | Transportation CTE Pathway | |

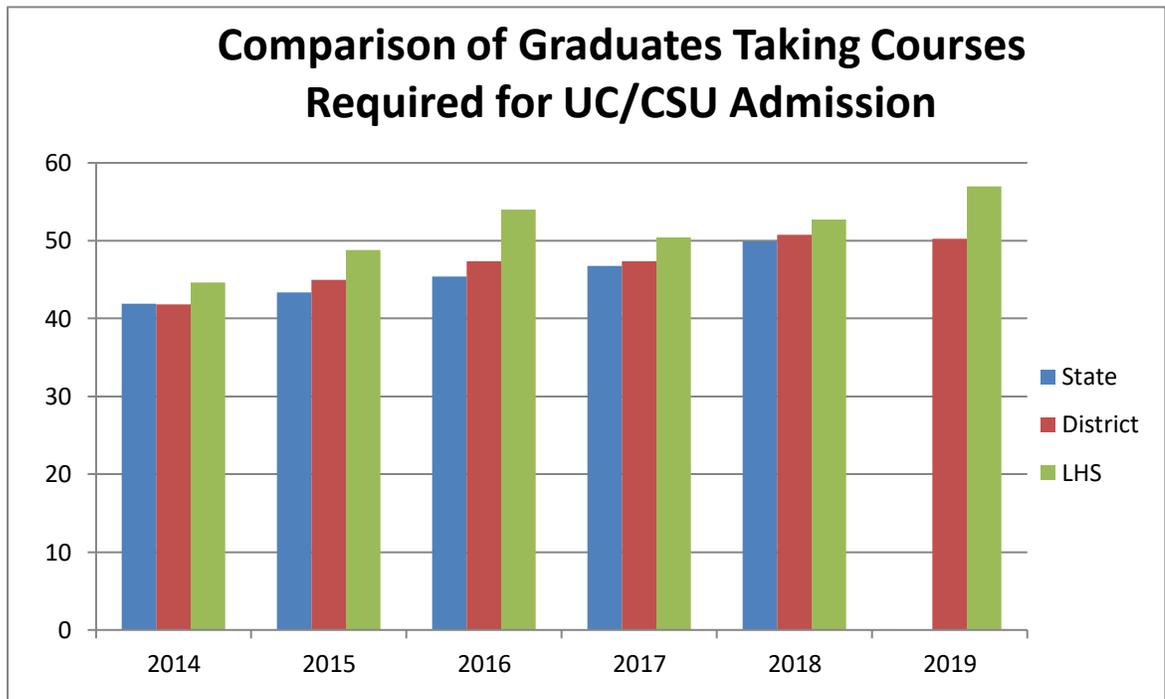

Number of students meeting UC/CSU a-g requirements; the number enrolled in the UC approved courses.

All students are encouraged to enroll in UC/CSU a-g courses. Students enrolled in UC/CSU a-g courses must receive a grade of 'C' or better to be college eligible upon graduation. LHS has a curriculum council who reviews courses submitted for approval. Classroom teachers may submit a course of study for approval of the a-g requirements. All courses are subject to LUHSD board approval. An Assistant Principal oversees curriculum council.

Comparison of Graduates Taking Courses Required for UC/CSU Admission

| | 2017-2018 | | | 2018-2019 | | | 2019-2020 | | |
|----------|-----------|---------------|---------------|-----------|---------------|---------------|-----------|---------------|---------------|
| | # Grad | # Grad UC/CSU | % Grad UC/CSU | # Grad | # Grad UC/CSU | % Grad UC/CSU | # Grad | # Grad UC/CSU | % Grad UC/CSU |
| LHS | 515 | 288 | 52.7% | 515 | 288 | 52.7% | 515 | 288 | 52.7% |
| District | 1,861 | 945 | 50.8% | 1,861 | 945 | 50.8% | 1,861 | 945 | 50.8% |
| State | 418,205 | 208,769 | 49.9% | 418,205 | 208,769 | 49.9% | 418,205 | 208,769 | 49.9% |

Summary: LHS has a higher percentage than the district average of students enrolled in courses for the a-g requirements.

Comparison of Graduates Taking Courses Required for UC/CSU Admission by Ethnicity and Gender

| | 2017-2018 | | | 2018-2019 | | | 2019-2020 | | |
|----------------------|-----------|---------------|---------------|-----------|---------------|---------------|-----------|---------------|---------------|
| | # Grad | # Grad UC/CSU | % Grad UC/CSU | # Grad | # Grad UC/CSU | % Grad UC/CSU | # Grad | # Grad UC/CSU | % Grad UC/CSU |
| American Indian | n/a | n/a | n/a | n/a | n/a | n/a | n/a | n/a | n/a |

| African American | 28 | 10 | 35.7% | 28 | 10 | 35.7% | 28 | 10 | 35.7% |
| White | 234 | 140 | 59.8% | 234 | 140 | 59.8% | 234 | 140 | 59.8% |
| Multiple/No Response | 34 | 23 | 67.6% | 34 | 23 | 67.6% | 34 | 23 | 67.6% |
| Total | 515 | 288 | 55.9% | 515 | 288 | 55.9% | 515 | 288 | 55.9% |
| Female | 268 | 176 | 52.0% | 268 | 176 | 52.0% | 268 | 176 | 52.0% |
| Male | 247 | 112 | 48.0% | 247 | 112 | 48.0% | 247 | 112 | 48.0% |

Summary: More female students than male students are taking a-g courses, with a noted increase in the African American and Hispanic subgroups.

Number of students taking Algebra by grade level, specifically track the percentage of 9th graders taking a course below the level of Algebra

| Course | 2017-2018 | | | |
|----------------------|-----------|----------|----------|----------|
| | Grade 9 | Grade 10 | Grade 11 | Grade 12 |
| Intensified Alg-Sped | 0 | 10 | 7 | 0 |
| Algebra 1 10-12 | 0 | 47 | 2 | 0 |
| Algebra 1 | 336 | 0 | 1 | 0 |
| Intensified Algebra | 245 | 8 | 2 | 0 |
| Total | 581 | 65 | 12 | 0 |
| Course | 2018-2019 | | | |
| | Grade 9 | Grade 10 | Grade 11 | Grade 12 |
| Intensified Alg-Sped | 6 | 13 | 11 | 0 |
| Algebra 1 10-12 | 524 | 53 | 7 | 2 |
| Algebra 1 | 14 | 9 | n/a | 2 |
| Intensified Algebra | 544 | 75 | 18 | 4 |
| Total | 6 | 13 | 11 | 0 |
| Course | 2019-2020 | | | |
| | Grade 9 | Grade 10 | Grade 11 | Grade 12 |
| Intensified Alg-Sped | 25 | 19 | 3 | 2 |
| Algebra 1 | 539 | 156 | 4 | 0 |
| Intensified Algebra | 16 | 4 | 7 | 0 |
| Total | 580 | 179 | 14 | 2 |

- Intensified Algebra is a double-blocked math course to support students whose test scores display additional need for support.
- The Algebra 1 10-12 was made up predominantly of students who took Algebra 1 in 9th grade and did not excel in the class. This class was discontinued in the 2018-2019 school year.
- As a result of the discontinued use of the CAHSEE we no longer have the course for students who did not pass the exam.

DISTRICT POLICIES AND SCHOOL FINANCIAL SUPPORT

| Year | Adjusted \$ per Student (ADA) |
|----------------|-------------------------------|
| 2013-14-LCFF | \$6,912.58 |
| 2014-15-LCFF | \$7,622.91 |
| 2015-16-LCFF | \$8,537.00 |
| 2016-2017 LCFF | \$7,697.3 |
| 2017-2018 LCFF | \$7,746.9 |
| 2018-2019 LCFF | \$7,762.41 |

In addition to the general fund allocation based on ADA, Liberty programs are supported through several categorical funding sources:

- Title 3 Funds support our EL program in the form of classroom aides, program coordination, data tech, sections for the master schedule, professional development, instructional supplies, and transportation.
- Title 1 funds are allocated to schools with high numbers or high percentages of children from low-income families to help ensure that all children meet challenging state academic standards. Liberty High School currently has 28% of our student population who qualified for Title 1 funds, which is a decrease from year's past. Efforts to further reach out to those students identified as Title 1 are continuing to support funding for programs and intervention supports for students. In order to identify the student the following criteria is used: English Learners (levels 1-5), social economically disadvantaged students (Free and Reduced lunch qualifiers), foster youth, homeless students, intervention classes to help students achieve grade level proficiency (Intensified Algebra, Geometry support, Read 180, Academic Reading Development, Earth Science, Tutorial support classes) and students deficient in credits needed for graduation (one year behind the coursework for the respective grade level). We started accepting Title 1 funds during the 2015-2016 school year, we received \$153,902.19 and for 2019-2020 we received \$140,666.
- Carl Perkins grant funds support our Career and Technical Education programs. We receive similar amounts, this year we received \$38,383.00
- In the FFA program the Perkins funds are used to support the purchase of non-consumables as well as support the payment of subs for FFA related absences. There is also the Ag Incentive Grant, which is based on the number of students that take part in the FFA/agriculture programs the previous year. The funds may be used for consumable products such as flowers, animal vaccines, syringes, student conferences and State FFA membership expenses.
- A California Partnership Grant funds for our Teaching and Learning Careers (TLC) Academy program. The CPA grant for TLC provided \$74,970 and District Match at \$102,500. The CPA grant funds for PADA are \$ 79,650 and District Match is \$ 79,650.

Pupil Achievement Outcomes

SMARTER BALANCED ASSESSMENT CONSORTIUM (SBAC)

The goal of the SBAC testing is to ensure that 95% of Junior class participated and completed the SBAC tests. Baseline data from 2014-2015 was used for the 2016-2017 WASC re-accreditation to help evaluate our educational programs, interventions, and formulate future goals.

California Assessment of Student Performance and Progress (CAASSP) Results

| English Language Arts | Not Met1 | | | Nearly Met2 | | | Met3 | | | Exceeded4 | | |
|---|----------|------|------|-------------|------|------|------|------|------|-----------|------|------|
| | 2017 | 2018 | 2019 | 2017 | 2018 | 2019 | 2017 | 2018 | 2019 | 2017 | 2018 | 2019 |
| All Students | 10% | 16% | 9% | 18% | 20% | 16% | 38% | 33% | 37% | 34% | 31% | 36% |
| Students with No Disability | 4% | 10% | 4% | 16% | 20% | 14% | 42% | 36% | 39% | 38% | 34% | 41% |
| Students with Disability | 49% | 79% | 46% | 33% | 15% | 32% | 15% | 4% | 18% | 3% | 2% | 2% |
| Students Economically Disadvantaged | 18% | 26% | 17% | 24% | 23% | 25% | 38% | 31% | 36% | 19% | 19% | 20% |
| Students Not Economically Disadvantaged | 6% | 12% | 6% | 15% | 18% | 12% | 38% | 34% | 37% | 41% | 36% | 44% |

Summary: The number of students with disabilities nearly meeting or meeting proficiency in English language arts significantly decreased between 2016 and 2018. This has caused an increased effort for staff during the 2018-2019 school year to refocus on preparation for students with disabilities.

| Math | Not Met | | | Nearly Met | | | Met | | | Exceeded | | |
|---|---------|------|------|------------|------|------|------|------|------|----------|------|------|
| | 2017 | 2018 | 2019 | 2017 | 2018 | 2019 | 2017 | 2018 | 2019 | 2017 | 2018 | 2019 |
| All Students | 35% | 33% | 20% | 31% | 33% | 34% | 25% | 25% | 26% | 9% | 9% | 11% |
| Students with No Disability | 27% | 27% | 19% | 34% | 35% | 36% | 28% | 28% | 30% | 11% | 10% | 13% |
| Students with Disability | 88% | 90% | 79% | 9% | 9% | 18% | 3% | 0% | 1% | 0% | 2% | 2% |
| Students Economically Disadvantaged | 52% | 44% | 43% | 30% | 34% | 36% | 15% | 20% | 15% | 4% | 2% | 4% |
| Students Not Economically Disadvantaged | 26% | 28% | 20% | 31% | 32% | 33% | 30% | 28% | 31% | 12% | 12% | 14% |

Summary: The number of students with disabilities nearly meeting, meeting, or exceeding proficiency in math remained similar between 2016 and 2018. This has caused an increased effort for staff during the 2018-2019 school year to refocus on preparation for students with disabilities.

| English Language Arts | Not Met | | | Nearly Met | | | Met | | | Exceeded | | |
|---------------------------|---------|------|------|------------|------|------|------|------|------|----------|------|------|

School Plan for Student Achievement (SPSA)

| School Name | County-District-School (CDS) Code | Schoolsite Council (SSC) Approval Date | Local Board Approval Date |
|---------------------|-----------------------------------|--|---------------------------|
| Liberty High School | 07617210733980 | October 22, 2020 | November 18, 2020 |

Stakeholder Involvement

Involvement Process for the SPSA and Annual Review and Update

The SPSA was developed, reviewed, and updated by the following:

SSC meetings: 8/27/20, 9/17/20 10/22/20

Department Chair Meeting: 10/28/2020

Title 1 Meeting: 10/15/2020

Goals, Strategies, Expenditures, & Annual Review

Goal 1

Increase the number of students with A-C grades in all courses, specifically in UC/CSU a-g requirements, dual enrollment course, and CTE pathways to maximize students that are college and career ready.

Identified Need

This goal has been identified as an area of need after reviewing progress and levels of achievement through the following types of data:

D, F data by semester and subgroup

UC/CSU "a-g" course completion

SAT test results

Attendance data

SBAC data (baseline)

District LCAP goal 1 to provide a physically and emotionally supportive school environment which support student learning

District LCAP goal 2 to prepare students for career and college by providing a rigorous and stimulating curriculum and instructional program

California School Dashboard

Annual Measurable Outcomes

| Metric/Indicator | Baseline/Actual Outcome | Expected Outcome |
|---|---|---|
| Conduct D/F grade review – analysis of class grades and grading practices. | Data analyzed quarterly to determine student subgroup success & level of intervention needs | Fall 2020 and spring 2021 discuss with PD team about how to incorporate into department goals |
| Using the cycle of grade reporting conduct ongoing evaluations to determine student and program outcomes and inform ongoing | Data reviewed with Department chairs once a month to collaborate during PLC time with department to adjust instruction as needed. | To increase post-secondary success for all students as measured CA Dashboard College/Career Readiness |

| | | |
|--|--|--|
| program needs | | |
| Utilize WASC Action Plan and SPSA to drive the school program and ensure all students learn, including the alignments of budget allocations with school Mission/Vision | Various leadership teams across campus are continuing to review the WASC and Single Site Plan goals to assess for success and identify areas for needed change or improvement. | Sustained monitoring over several years- to follow the WASC FOL proves across 3-6 years |
| Revisit the use of the classroom minutes for intervention considering things such as SSR, FIT, re-teaching, Advisory or AVID-like strategies for learning. | During the school year, staff will revisit the results of intervention strategies tied to the Student Learning Outcomes in relation to student achievement data. Leadership teams will determine if the appropriate interventions are working in alignment with district goals. | Once program is determined, present the information and strategies to staff including training and scheduling of the minutes. Develop alongside Admin the PD calendar of activities aligned with the district calendar to include PLC work, department time, and staff-wide professional development, including activities such as technology, cross-curricular planning or professionalism |
| Use CA Dashboard metric of College/Career Readiness (CTE pathway completion, a-g completion, Dual Enrollment completion, AP Exams, etc.) | Work with school counselors, LMC liaisons, and CTE department to increase number of students completing eligible pathways. | Increase in the number of students college and career ready. |

Strategies/Activities

Students to be served by this Strategy/Activity

All students

Strategies/Activities

- Continue to explore ways to integrate a school-wide intervention program within the bell schedule
- Growth Mindset training sustained over multiple years
- RTI/MTSS Committee to reconvene and establish research based methods and strategies for implementation
- Equity team to convene and collaborate on research-based methods and strategies to reach students from various subgroups
- Academic support groups and intervention (Counseling groups, SSTs, Parent Meetings)
- Early D/F grade intervention school-wide
- Implementation of restorative justice practices and strategies to respond to students
- Continue to explore the integration of AVID-like practices
- Integrate Reading-to-Learn series and strategies
- Increase communication with parents regarding student progress
- Continue to regularly update gradebooks
- Computer assignment to study hall
- Provide multiple training opportunities for parent/guardians on the use of Parent Portal & Canvas
- Parent University nights distinct by grade level
- D/F grade review- Report card analysis

- Continue to utilize programs to promote College and Career Readiness/Awareness
- Use the Edgenuity program to replace D/F grades.
- Implementation of Research Supported Best Practices to increase successful access to course content.
- Associated Marriage and Family Therapist interns available to students during school hours
- Incorporate new EXCEL model to improve collaboration between SPED and general education teachers.
- Implement Year 1 from Professional Development team. Includes: peer visits, introduction of essential questions/essential standards/learning targets/success criteria
- Increase the use and implementation of technology in the classroom to improve student success
- Support social and emotional development of students to increase academic achievement using programs such as One Day at a Time (ODAT), PRIDE Summit, Breaking Down the Walls, etc.
- Support staff collaboration by utilizing substitute teachers for release time
- Create a positive and effective learning environment by enhancing school culture and campus safety
- Para professional for EL Department to increase academic support for English language learning students

Proposed Expenditures for this Strategy/Activity

List the amount(s) and funding source(s) for the proposed expenditures. Specify the funding source(s) using one or more of the following: LCFF, Federal (if Federal identify the Title and Part, as applicable), Other State, and/or Local.

Amount(s)

Source(s)

\$45,000

LCAP

\$150,000

Title 1

Goal 2

Increase student achievement and assessments among all subgroups, specifically in the area of academic literacy.

Identified Need

This goal has been identified as an area of need after reviewing progress and levels of achievement through the following types of data:

D, F data by semester and subgroup

F data by semester and subgroup

UC/CSU "a-g" course completion

SAT test results

Attendance data

SBAC data (baseline)

District LCAP Goal 2 to prepare students for career and college by providing a rigorous and stimulating curriculum and instructional program

Annual Measurable Outcomes

Metric/Indicator

Baseline/Actual Outcome

Expected Outcome

| | | |
|--|---|---|
| Continue to partner up with a credit recovery program | Edgenuity has been given two sections on the master schedule to allow for students to have the ability to access credit recovery during the school day in lieu of an unscheduled period or need for remediation. There are currently 43 students enrolled between those two sections. | Provide more students with the opportunity to increase the availability of credit recovery without the need to participate in a summer school remediation |
| Staff development to help support changes in developing academic literacy specifically in math | Looking toward science professional development in future. | Provide professional development opportunities for teachers to learn about teaching strategies and best practices for helping students develop the academic literacy skills to allow them to be successful across the disciplines. |
| Research and purchase supplemental educational materials and software to help support the academic readiness of our students and allow us to incorporate writing and reading across the curriculum | Math skills classes and curriculum purchased to use in the support classes. Foundations materials purchased for curriculum | Purchase computer software and supplemental educational materials to help increase the academic achievement of our students and helping them become UC/CSU eligible. (UC Readiness program...) |
| Develop writing rubric to be utilized across the curriculum by synthesizing the various textbook materials and approaches | Rubrics can be designed by subject or department using textbook materials | Implement a cohesive writing sample with an appropriate writing format (Some may use MLA, current event articles, word problems, etc) |
| Cross-Curricular collaboration (through Content Coaches, PD Team, etc). | Currently the LHS PD Team has created an implementation plan to support staff with the rollout of best practices in accessing core content | PD Team established and first draft implementation plan in 2018-2019 school year PD Team Monthly meetings during the 2019-2020 school year Informal peer visits to begin in 2018-2019 and continue through 2019-2020 McRel/Erkins related PD in 2019-2020 school year In the 2020-2021 school year, Canvas coaching team created for distance learning supports |

Strategy/Activity

Students to be served by this Strategy/Activity

All students

Strategy/Activity

- Incorporate writing and reading across the curriculum
- Incorporate academic vocabulary practice for each unit
- Research the implementation of an English and Writing Lab incorporated into the Excel Lab or after school HELP program using peer tutors
- Increase cross- curricular collaboration
- Integrate computer skills throughout the curriculum in mainstream courses
- Identify and establish a research-based attendance incentive program, including improvement of truancy and tardies
- Implement Year 1 from Professional Development team. Includes: peer visits, introduction of essential questions/essential standards/learning targets/success criteria
- Implement Year 1 from Professional Development team. Includes: peer visits, introduction of essential questions/essential standards/learning targets/success criteria
- Increase the use and implementation of technology in the classroom to improve student success
- Support social and emotional development of students to increase academic achievement using programs such as One Day at a Time (ODAT), PRIDE Summit, Breaking Down the Walls, etc.
- Support staff collaboration by utilizing substitute teachers for release time
- Create a positive and effective learning environment by enhancing school culture and campus safety
- Para professional for EL Department to increase academic support for English language learning students

Proposed Expenditures for this Strategy/Activity

| Amount(s) | Source(s) |
|-----------|-----------|
| \$7,000 | LCAP |
| \$18,000 | Title 1 |

Goal 3

Increase student achievement and assessments among all subgroups, specifically in the area of math.

Identified Need

This goal has been identified as an area of need after reviewing progress and levels of achievement through the following types of data:

D, F data by semester and subgroup

F data by semester and subgroup

UC/CSU “a-g” course completion

SAT test results

Attendance data

SBAC data (baseline)

District LCAP goal 2 to prepare students for career and college by providing a rigorous and stimulating curriculum and instructional program

Annual Measurable Outcomes

| Metric/Indicator | Baseline/Actual Outcome | Expected Outcome |
|--|--|---|
| Staff development to help support changes in developing academic | Triad common prep periods for teachers to collaborate on pacing, | Provide professional development opportunities for teachers learn |

| | | |
|--|---|---|
| literacy specifically in math | achievement, and standards implementation. | about teaching strategies and best practices for helping students develop the academic literacy skills to allow them to be successful across the disciplines. |
| Staff development to help support math skills | Math skills classes allow for smaller class sizes and more targeted support. Triad common prep periods for teachers to collaborate on pacing, achievement, and standards implementation. | Provide professional development opportunities for teachers learn about teaching strategies and best practices for helping students develop the math skills to allow them to be successful. Common Preps for Math triads Math skills class created (smaller class size) |
| Incorporate math into lessons within all subject areas | PD time allows for cross-collaboration for teachers to incorporate math into all subject areas | Teachers will incorporate real world application of math and word problems into their curriculum to help reinforce math skills. |
| Committee will continue to research and monitor our school wide system of intervention | Articulation with feeder schools regarding math placement for students assists with pre-placement of students into math skills classes HERO program implementation to assist with positive RtI strategies in addition to attendance incentives | Implement a school-wide system of intervention and monitor the effectiveness of the system. Committee will continue to research and visit schools with school-wide programs of interventions and will adopt practices based on data to help support our unduplicated students. |
| Common Learning Targets and Success criteria in math classes | Flexible grading practices by PLC that emphasize mastery and improvement over time Staff collaboration time Math Help available after school | Increase numbers of UC/CSU a-g completers Increased enrollment in higher levels of Math courses |
| Re-structuring of course sequencing for math progression | 3 year pilot is underway that includes 2 student cohorts Dedicated sections in the master schedule | First student cohort in 2018-2019 school year, second student cohort in 2019-2020 school year, full cycle ending in the 2020-2021 school year. Using assessment data, grade data, teacher and student surveys: assess progress, adjust and continue |
| Co-taught math support sections | Many special education students were not succeeding in the general education math skills classes, and were increasing their specialized support minutes by being placed in SPED math skills classes for remediation | To provide students with the least restrictive placement, SPED teachers paired with math teachers to create co-taught sections of general education math support to help students |

During distance learning, team implemented a virtual math lab, and will continue to look at this intervention once in-person instruction resumes.

Strategy/Activity

Students to be Served by this Strategy/Activity

All students

Strategy/Activity

- Incorporate Math into lessons within all subject areas
- Strive to reduce class size to 28 students per section for intervention courses (Math Skills classes
- Research the implementation of one section of Peer Tutoring to support a Math Lab concept into the Excel Lab, after school HELP program, Study Hall, Math Skills classes, and reverse pass system using peer tutors
- Increase the use of technology, electronic tests in the Math curriculum and instruction methods
- Math pilot of restructured course sequence (Geometry, Algebra 1, Algebra 2)
- Establish growth mindset in Math
- Incorporate the use of cross-curricular activities to support STEAM
- Continuous evaluation of District Assessments
- Identify and establish a research-based attendance incentive program including program improvement of truancy and tardies
- Implement Year 1 from Professional Development team. Includes: peer visits, introduction of essential questions/essential standards/learning targets/success criteria
- Implement Year 1 from Professional Development team. Includes: peer visits, introduction of essential questions/essential standards/learning targets/success criteria
- Increase the use and implementation of technology in the classroom to improve student success
- Support social and emotional development of students to increase academic achievement using programs such as One Day at a Time (ODAT), PRIDE Summit, Breaking Down the Walls, etc.
- Support staff collaboration by utilizing substitute teachers for release time
- Create a positive and effective learning environment by enhancing school culture and campus safety
- Para professional for EL Department to increase academic support for English language learning students

Proposed Expenditures for this Strategy/Activity

List the amount(s) and funding source(s) for the proposed expenditures. Specify the funding source(s) using one or more of the following: LCFF, Federal (if Federal identify the Title and Part, as applicable), Other State, and/or Local.

| Amount(s) | Source(s) |
|-----------|-----------|
| \$12,460 | LCAP |
| \$24,556 | Other |

Annual Review

SPSA Year Reviewed: 2019-2020

Respond to the following prompts relative to this goal. If the school is in the first year of implementing the goal, an analysis is not required and this section may be deleted.

ANALYSIS

Describe the overall implementation of the strategies/activities and the overall effectiveness of the strategies/activities to achieve the articulated goal.

Goal 1: Increase the number of students with A-C grades in all courses, specifically in UC/CSU a-g requirements, dual enrollment course, and CTE pathways to maximize students that are college and career ready.

Strategies included:

- Monitor program implementation and analyze student data at the end of each grade marking period.
- Review data with department chairs once a month to collaborate during PLC time with department to adjust instruction as needed.
- Give release time to teachers to analyze student data & success rate
- Conduct ongoing (quarterly) grade analysis with regards to how students are performing in classes. Teachers in their PLC group will identify strategies to re-teach concepts and allow time for remediation.
- Communicate with parents regarding progress in class& hold parent meetings when students demonstrate a lack of progress or receive low grades.
- Promote parent workshops
- Purchase supplemental and educational materials to increase the academic achievement of our students and be able to provide them with incentives.
- Math skills curriculum research and implement
- Support class curriculum research and implement

Briefly describe any major differences between the intended implementation and/or the budgeted expenditures to implement the strategies/activities to meet the articulated goal.

Changes to the implementation include:

- Additional sections created in Master Schedule to accommodate credit recovery of A-G courses
- Parent workshops added to be grade-specific, and occur once per quarter. In addition, other parent nights include information surrounding safety, drug/alcohol use, and other events.

Major changes include:

- Title 1 money is currently received late in 2019 prior to approval of 2019-2020 SPSA, budget numbers adjusted to reflect that change for the 2020-21 year.

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.

This goal has been continued into the 2020-2021 SPSA planning with the only adjustments to the goal being to include other measures of college and career readiness, and can be found in the sections above (i.e. strategies/activities)

Using a variety of data and grade reporting, ongoing evaluations will determine student and program outcomes and inform ongoing program needs. By conducting a D/F grade review class grades and grading practices are further analyzed.

Supplemental educational materials are researched and purchased, which include software and incentives to help support academic readiness of our students.

ANALYSIS

Describe the overall implementation of the strategies/activities and the overall effectiveness of the strategies/activities to achieve the articulated goal.

Goal 2: Increase student achievement and assessments among all subgroups, specifically in the area of academic literacy.

Strategies included:

- Continue to partner up with a credit recovery program
- Purchase computers and document cameras to help reading intervention programs as well to help with career exploration and college readiness
- Research and purchase supplemental educational materials and software to help support the academic readiness of our students and allow us to incorporate writing and reading across the curriculum
- Research and develop a school-wide writing rubric

Briefly describe any major differences between the intended implementation and/or the budgeted expenditures to implement the strategies/activities to meet the articulated goal.

More acute time will be spent on cultivating writing rubrics and further identifying consistent means of higher academic expectations with writing.

SBAC data from the 2018-2019 year shows the Black/African American subgroup has increased with their success rate in meeting or exceeding standards in ELA from 39.29% to 53.85%.

SBAC data from 2018-2019 year shows the SPED and EL population subgroups both increased in their success rate in meeting or exceeding standards in ELA.

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.

This goal has been continued into the 2020-2021 SPSA planning, and can be found in the sections above (i.e. strategies/activities)

Departments will continue to look over quarterly data, and with the use of Common Formative Assessments, create and adjust student learning targets.

EXCEL programs between special education case managers and general education teachers will help to facilitate support for students with special needs.

ANALYSIS

Describe the overall implementation of the strategies/activities and the overall effectiveness of the strategies/activities to achieve the articulated goal.

Goal 3: Increase student achievement and assessments among all subgroups, specifically in the area of math.

Strategies included:

- Provide professional development opportunities for teachers learn about teaching strategies and best practices for helping students develop the math skills to allow them to be successful.
- Teachers will incorporate real world application of math and word problems into their curriculum to help reinforce math skills.
- Identify the students that will benefit and will be able to participate and complete the test preparation sessions.
- Identify the students that would benefit from the credit recovery program and schedule them into the session.

Briefly describe any major differences between the intended implementation and/or the budgeted expenditures to implement the strategies/activities to meet the articulated goal.

Continued review of data surrounding math supports in relation to success criteria to determine whether programs are working or not. Currently scores indicate that further analysis of math practices are needed, as students are continuing to score poorly in their SBAC as well as D/F rates.

SBAC data from the 2018-2019 year shows the Black/African American subgroup has increased with their success rate in meeting or exceeding standards in math from 7.14% to 14.28%.

SBAC data from 2018-2019 year shows the SPED and EL population subgroups both decreased in their success rate in meeting or exceeding standards in math.

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.

This goal has been continued into the 2020-2020 SPSA planning, and can be found in the sections above (i.e. strategies/activities)

Departments will continue to look over quarterly data, and with the use of Common Formative Assessments, create and adjust student learning targets.

EXCEL programs between special education case managers and general education teachers will help to facilitate support for students with special needs.

New pilot program of math articulation (i.e. Geometry completed first before Alg. 1) is providing ongoing data to review and propose potential advanced math options (i.e Alg 2 and Precalc)

Budget Summary

DESCRIPTION

AMOUNT

Total Funds Provided to the School Through the Consolidated Application

\$ 1,167,326

Total Federal Funds Provided to the School from the LEA for CSI

\$ 0

Total Funds Budgeted for Strategies to Meet the Goals in the SPSA

\$ 257,016

Other Federal, State, and Local Funds

| Federal Programs | Allocation (\$) |
|-------------------------|------------------------|
| Title 1 | \$192,556 |

Subtotal of additional federal funds included for this school: \$ 192,556

List the State and local programs that the school is included in the schoolwide program.

| State or Local Programs | Allocation (\$) |
|--------------------------------|------------------------|
| LCAP | \$64,460 |

Subtotal of state or local funds included for this school: \$ 64,460

Total of federal, state, and/or local funds for this school: \$1,167,326
