

Pennington Week 7 May 18-25th

There are a total of 3 assignments. Complete as you see fit. You will 100% have to read things (maybe multiple times, which is okay!). Please, please, please, read carefully and put away distractions so you can absorb as much of this information as possible.

Assignment #2: Log on to Clever to access our online textbook

- I have already assigned your account which pages you must read and complete (Unit 5, sections on measuring magnetic force, making magnets, inducing currents). Once you log on, you should see what I have assigned. Don't forget you can have the book read to you, just click the read option on the top. **Once you complete answering the questions within the reading, the textbook will show me your answers. You do not have to do the textbook labs or worksheets.**

Assignment 3: Take the reading quiz Unit 5, Explain/Explore: measuring magnetic force, making magnets, inducing currents

Copy and paste the following link into your web-address to access the forms quiz. If you get the error that the form does not exist, you did not COPY and PASTE it properly.
