

Multi-Paragraph Reflection -

Following the AP exam and as we come to a close for the school year, please reflect on how the skills you have developed in respect to analysis of rhetoric and writing have altered your perspective moving forward; how will you be able to expand upon your skills and apply them in multiple areas of your life. Describe the AP exam process (for those of you who took it) and how it went for you. Express how you will implement your AP English Language skills into your academic work and your process of absorbing the media blitz world into which we currently live.
